**48 HOURS**

04/01/17      PREEMPTION

04/08/17      **48 HOURS: "Death and the Dentist"** – an updated rebroadcast of "Death and the Dentist" (OAD: 09/17/16), which includes an exclusive interview with Kingston, New York dentist Gilberto Nunez, who faces second-degree murder charges for the death of his lover's husband, Thomas Kolman, the case against him, and the secrets exposed during the homicide investigation. In 2011, Thomas Kolman was found dead by his wife, Linda, in his car outside of a gym he frequented. At first, no foul play was suspected; Kolman suffered from sleep apnea and was slightly obese. However, the medical examiner found an unusual drug in Tom's system – midazolam -- a sedative sometimes used by those in the dental profession, and the death was ruled a homicide. Further investigation revealed that his best friend, Dr. Gilberto Nunez, was having an affair with his wife, Linda Kolman. Nunez told police Kolman knew about it and was fine with it. There were hundreds of text messages between all the parties, including some where Nunez impersonated other people. Even the name of the CIA was dragged into the case through a fake ID. It took four years for prosecutors to charge Nunez with second-degree murder and forgery. Nunez hired two top New York City defense attorneys who presented a very different scenario, saying Tom Kolman died of natural causes, insisting this was a murder case without a murder. The verdict: Nunez was acquitted of the murder charges and found guilty on the forgery charges. The Kolman family was unhappy with the verdict. Some former jurors were interviewed and were adamant that there were too many unanswered questions to prove the murder charges. **Update for the 04/08/17 rebroadcast: In 2017, Nunez was sentenced for the forgery, insurance fraud and perjury convictions. He will spend the next two to seven years in prison. The Kolman family finds some comfort in knowing that he is behind bars.** On-screen text graphic: Gilberto Nunez is expected to be sentenced on his forgery related charges later this year. **On-screen text graphic for the 04/08/17 rebroadcast:** As part of Gilberto Nunez's sentence, he was ordered to have no communication with Linda Kolman. A New York State review board is deciding if Nunez's dental license will be revoked. Interviewed: Gilberto Nunez; Detectives Michael Thomas and Brian Reavy; Lieutenant Kyle Berardi; Michele Kolman-Weber (former wife); Jillian Kolman (daughter); Marie Kolman and Tom Kolman, Senior (parents); Mary Ellen McManus (dental hygienist); Murray Weiss (criminal justice editor DNAinfo/48 HOURS consultant); Grant Fredricks (forensic video expert); Yameil Nunez (Gilberto Nunez' new wife); Gerald Shargel and Evan Lipton (criminal defense attorneys); Frances Kwak and Michael Dougherty (jurors). 04/15/17      **48 HOURS: "The DNA of a Killer"** – a report on the 1996 death of Angie Dodge; the unusual circumstances in which Michael Usry, Jr., a filmmaker and producer of a short film about a brutal death, became a suspect in the case; and the approach police took to try to find a DNA match through a public database that had been bought by Ancestry.com. In 1996, Idaho Falls teenager Angie Dodge was brutally murdered. The killer left behind semen which police tested against the DNA of men she knew, including Christopher Tapp. His DNA did not match, but after 28 hours of interrogation over 23 days, Tapp confessed to being there when she was killed, and stated that one of the participants was a man named Mike. Christopher Tapp was convicted of killing Dodge, but the case remained open because Tapp's DNA did not match the man whose semen was left at the crime scene. In 2014, police searched a public database that had been bought by Ancestry.com, hoping to find a match through familial searching. The search resulted in a partial match. Police got Ancestry.com to reveal the name of the anonymous man behind the sample - Michael Usry, Sr. - which ultimately led to his son, Michael Usry, Jr. Despite the close DNA match and the matching first name, Usry Jr. had nothing to do with the death and was officially cleared. His story raised serious questions about what happens when police use publicly available DNA databases to solve cases -- and what happens when an innocent man is tagged as a suspect. Michael Usry decided to make a documentary and was joined by Angie's mother, Carol Dodge, who had an agenda of her own: to find the killer. Their search has led them to believe that Christopher Tapp was innocent. Their combined efforts led to a review of the case and Tapp being able to accept a plea deal, which led to his release from prison after twenty years. **On-screen text graphic:** Carol Dodge met with detectives this week and continues to push them to find her daughter's killer. Chris Tapp says he has many job offers since his release last month and is happy to be weighing his options. Interviewed: Michael Usry, Jr.; Carol Dodge; Christopher Tapp; Mark McBride (Idaho Falls, Idaho Chief of Police); Greg Hampikian (DNA expert); Erin Murphy (New York University Law Professor); Patrick McKenna (Detective); Michael Heavy (retired superior court judge); John Thomas (Tapp's appellate attorney). **48 HOURS (continued)**

- 04/22/17      **48 HOURS: "The Golden State Killer"** – a report about true-crime writer Michelle McNamara's relentless search for answers, and the quest to find the elusive so-called "Golden State Killer", who terrorized Californians by committing 50 rapes and a dozen murders between 1978-1986. McNamara died in 2016. Her widower, comedian Patton Oswalt, discusses his late wife's untimely death which occurred during her investigation and those who are carrying on her work by finishing the book she was writing about the case. McNamara was fascinated with true crime and her on-line quest led her to a serial killer she had really never heard of: the EARS (East Area Rapist Surveillance) Killer, whom she rebranded as the "Golden State Killer", and pursued clues which she hoped to compile into a book. Her obsession with the case took a toll on her health, and her untimely death devastated Oswalt. Now others are hoping to finish the work she started – by publishing the book and finding the killer. The killer was a man who stalked his victims, blindfolded them, and raped and/or murdered them in Northern California. The rapes ultimately stopped, but after a seven-year hiatus, began again in Southern California. In 2016, the FBI used the 40<sup>th</sup> anniversary to announce the renewed investigation and a reward for the killer. **On-screen text graphic:** Michelle McNamara's book is expected to be published in early 2018. The FBI urges anyone with information on the Golden State Killer to call 1-800-CALL-FBI, or go to [tips.fbi.gov](https://tips.fbi.gov). Interviewed: Patton Oswalt; Billy Jensen (true crime journalist); Paul Haynes (researcher); Larry Crompton (Contra Costa County Sheriff's Dept.); Anne Marie Schubert (DA, Sacramento County); Paul Holes (cold case investigator); Jane Carson-Sadler (victim); Margaret Wardlow (youngest victim); Debbi Domingo (daughter of victim); Michelle Cruz (sister of victim); Larry Montgomery (1986 investigator); Erika Hutchcraft (Orange County DA's Sex Crimes Unit) (C: Tracy Smith – P: Susan Mallie, Lourdes Aguiar, Gayane Keshishyan Mendez, Lauren Clark)
- 04/25/17      **48 HOURS: NCIS: "The Double Cross" (10:00 – 11:00p)** – the first in a six-part series taking viewers inside cases handled by the Naval Criminal Investigative Service (NCIS), which has just celebrated its 50<sup>th</sup> anniversary and is responsible for investigating felony crimes, preventing terrorism and protecting secrets for the Marine Corps and the Navy. This episode focuses on the 1996 deaths of two Navy petty officers, Elise Makdessi and Quincy Brown, who were found dead in a Virginia Beach, Virginia apartment. Eddie Makdessi told investigators that the couple returned home and were attacked by an intruder, who sexually assaulted and stabbed his wife to death. Eddie was able to get a gun and shoot the man, who turned out to be Quincy Brown, his wife's co-worker. A case was opened, then a videotape was discovered in which Elise Makdessi claimed to have been sexually assaulted and raped, naming Quincy Brown as an assailant. A second investigation was launched. Certain facts in both investigations did not add up, leading investigators to take a closer look at the husband. Makdessi stopped talking. There was also no corroborative evidence of sexual assault, which led investigators to consider him a suspect who had manipulated Elise and had concocted a scheme to get rich, cashing in more than \$700,000 in insurance policies after her death. He was indicted, but fled the country. In 2002, a Virginia television reported who had once been in communication with Makdessi, located him in Russia. After he traveled to do an interview, Russian authorities confiscated his film and Eddie's passport. Makdessi was able to get it back and was escorted back by a U.S. Marshall to stand trial. He was found guilty on two charges of murder. Interviewed: Brian Ricardo (former NCIS Special agent); Dennis Santos (NCIS Captain, Virginia Beach, retired); Mike Mather (television reporter); Nancy Simpson (supervisor and friend of Elise Makdessi); Beth Dunton (forensic specialist supervisor); Dan Rice (NCIS Special agent, retired); Ross Gardner (Special Agent, forensic examiner); Catherine Dodson (prosecutor, Commonwealth of Virginia) (Narrator: Rocky Carroll (from the CBS-TV series NCIS) - Producer: Susan Mallie)

48 HOURS (continued)

04/29/17 **48 HOURS: "The Family" (9:00-10:00p) and "The Family...A Cult Revealed" (10:00-11:00p)** – a two-part report on "The Family," a cult that began in Australia and later moved to New York. Includes allegations of stolen children, drugs, and abuse and a portrait of its leader, Anne Hamilton-Byrne, who claimed to be the second coming of Christ. This is the story of a woman's attempt to build a perfect race through a collection of 28 children, who each had their hair bleached, were home-schooled on an isolated property, and were injected with LSD as part on an initiation ritual. The children of the cult, now adults, tell their harrowing stories of the treatment they received from loyal cult members, referred to as "Aunties". It is also the story of Detective Lex De Man who spent years trying to stop Anne Hamilton-Byrne, finally succeeding with the help of the FBI in the United States. Includes: (1) **"The Family"** – Yoga teacher Anne Hamilton-Byrne formed The Family in 1963. It was an apocalyptic cult with about 500 followers and more than 28 children. Some members willingly gave their children to her, others came from unwed mothers who were tricked into signing over their newborns to be raised by the cult, helped by members of The Family who were doctors and nurses at a nearby hospital. Many had no idea who their real parents were. In 1977, after years of rumors and speculation, police stormed a rural property and rescued seven children. The "Aunties" only faced charges of welfare fraud, while Anne Hamilton-Byrne and her husband Bill Byrne fled the country and for years, their whereabouts were unknown to the authorities in Australia. (2) **"The Family...A Cult Revealed"** – finding Anne Hamilton-Byrne became the obsession of Melbourne detective Lex de Man. He received a break in the case when Anne called one of the cult children from the United States. In New York, he enlisted the help of FBI, who would track her down to a farmhouse in the Catskills, and de Man personally escorted the couple back to Australia. Prosecutors ended up charging Hamilton-Byrne with conspiracy to make a false statement. Neither she nor her husband would spend one day in prison; they would each pay a fine of \$5000. Authorities decided not to pursue any other charges. A couple of a dozen true believers stayed loyal. Hamilton-Byrne disappeared from the public until 2009, when she resurfaced on 60 MINUTES Australia where she denied any abuse. Anne Hamilton-Byrne is 95-years-old and is living in a nursing home in Melbourne suffering from dementia. **On-screen text graphic:** True believer Michael Stevenson-Helmer visits Anne every day. There is no designated successor to take over The Family from Anne. Interviewed: (all appear in hours 1&2 unless noted): Lex De Man (former detective, Victoria Police Department, Melbourne, Australia); Adam Lancaster, Dave Whitaker, Sarah Moore, Anouree Treena-Byrne, Ben Shenton, Rebecca (granddaughter of Anne-Hamilton-Byrne) (children of "The Family"); Steve Eichel (psychologist/cult expert); Michael Steenson-Helmer, Fran Parker (members of "The Family"); Phillippe de Montagnie (investigative journalist); Marie Mohn (journalist); Hilda Kogut (FBI Agent) (2); Joan Bridges (follower of celebrity guru Swami Muktananda) (2) (C: Peter Van Sant – Sr. P: Rosie Jones, Anna Grieve; P: Clare Friedland, Kat Tcurfs)

05/06/17

**48 HOURS: A Resident Evil** - a report on a pair of double murders in Omaha, Nebraska, committed five years apart, which were carried out in similar ways, leading investigators to believe that the same perpetrator was responsible for both crimes. In 2008, sixth-grader Thomas Hunter and his family's housekeeper Shirlee Sherman were the first murder victims. They were stabbed to death, with no apparent motive. Five years later, Dr. Robert Brumback and his wife Mary were stabbed to death in their home. The Brumback attack was eerily similar to the Hunter/Sherman murders of five years prior. The investigation revealed a connection between Thomas Hunter's father, a physician at the Creighton University Medical Center, and Dr. Brumback, who was his colleague. The trail led to the hospital and to a medical resident, Anthony Garcia, who had been fired by Hunter and Brumback. In the following years, Garcia finally obtained a medical license in Illinois, but was terminated from numerous jobs. His bad reviews at Creighton followed him. A clue from 2008 led detectives to believe Garcia committed both the 2008 and 2013 murders as an act of revenge. In July of 2013, Dr. Anthony Garcia was charged with four counts of murder. After fifteen days of testimony, a jury found him guilty. **On-screen text graphic:** Anthony Garcia has stopped communicating with his defense team and his family. A three-judge panel will decide if Garcia will be sentenced to death. A court date has not been set. Interviewed: Todd Cooper (court reporter, Omaha World Herald); Derek Mois, Scott Warner, Ryan Davis (Omaha detectives); Chhandra (sic) and Agandra Bewtra (doctors); Jeff Sherman and Brad Waite (sons of Shirlee Sherman); Jason Peterson (witness); Fernando Garcia, Estella Garcia, Frederick Garcia (brother and parents); Don Klein (prosecutor); Brenda Beadle (deputy prosecutor); Bob Molta, Jr. and Jeremy Jordenson (defense attorneys); and Cecilia Hoffman (exotic dancer). **48 HOURS: NCIS: "To Catch a Killer" (10:00-11:00p)** - the second in a six-part series taking viewers inside cases handled by the Naval Criminal Investigative Service (NCIS), which just celebrated its 50<sup>th</sup> anniversary and is responsible for investigating felony crimes, preventing terrorism and protecting secrets for the Marine Corps and the Navy. This episode focuses on two NCIS cases: (1) In 2008, the Portsmouth police and a team of NCIS agents in Virginia investigated the murder of Megan Landowski, the 16-year-old stepdaughter of Navy sailor Christopher Shortt. A few months before she died, she revealed that she had been inappropriately touched by her father's friend, Robert Hicke, who was also in the Navy. DNA evidence cleared Hicke. Months later, the case was turned upside down. A blood sample from an unknown male found at the crime scene was analyzed for biogeographical ancestry analysis. The results completely changed the course of the investigation - the donor would self-identify as African American. Investigation led them to Robert Barnes, a friend of Meghan's. Barnes gave no motive, but he admitted to sexually assaulting and murdering her. Her parents opted for a plea deal instead of a trial. Interviewed: Christopher and Angie Shortt (Meghan's parents); Dana Shutt (NCIS); Bill Martin (NCIS Special Agent, retired); And (2) Former NCIS agent D'Wayne Swear reflects on a cross country search for the person responsible for a young woman's death. In a case that took more than five years to solve, D'Wayne Sears, now a technical advisor to the CBS television series, NCIS: NEW ORLEANS, relates how the 1992 death of Marilyn Yvette Allen, a woman found murdered near Camp Pendleton, in San Diego, California, led to former Marine Roosevelt Gipson. Gipson's girlfriend reported to police that he had admitted to her that he had strangled a woman, disposing of her body in a lake on Camp Pendleton. Police contacted NCIS. In an undercover operation, the team was able to get Gipson to admit to the crime. In February of 2000, Roosevelt Gipson was arrested and charged with the murder of Marilyn Allen. Interviewed: D'Wayne Swear (former NCIS Special Agent); Scott Bakula (actor); Seanice Etienne (Gipson's girlfriend); Jeff Winn (New Orleans Police Lieutenant/Marine Corps Reserve). 05/13/17      **48 HOURS: LIVE TO TELL: "My Name is Victoria" (8:00 - 9:00p)** – a report about California woman kidnapped, tortured and left for dead, who reveals her extraordinary tale of survival and the 18-year-hunt for her assailants that led to the arrest of an "Austin Powers: International Man of Mystery" actor. This is the story of one woman's will to live through a brutal attack, how that night changed her life forever, and the investigation and changing technology that would help police track down her attackers 18 years later. Victoria, whose name was changed for this 48 HOURS broadcast, was just 19-years-old on Christmas Eve in 1990, when two men came out of nowhere as she approached her apartment and attacked her. The force of the attack knocked her out. She came to just as she was being thrown into the back of a car. With sheer will and quick thinking, she survived a series of terrible events, including multiple sexual assaults. Surviving that night was just the start of the investigation and the healing, which continues today. Unfortunately, the case went cold. Eighteen years later, police got the break they needed when DNA taken from Victoria's body the night of the attack matched someone in the system. The suspect, Joseph Son, was an actor in "Austin Powers: International Man of Mystery". Son's high school friend Santiago Gaitan was later arrested. Before trial, Deputy District Attorney Eric Scarbrough made a sickening discovery -- the statute of limitations for rape and kidnapping had long expired. Ultimately, Scarbrough found another way to legally prosecute the case. Original On-screen text graphic: Joseph Son's trial is scheduled for March 2016. Santiago Gaitan could be paroled as early as 2018. Last week, Victoria became a grandmother for the first time. She and her family are excited for a new beginning. **On-screen text graphic for the 05/13/17 rebroadcast:** Joseph Son's trial is scheduled for later this year. Santiago Gaitan could be paroled as early as 2018. In 2016, Victoria became a grandmother for the first time. Interviewed: "Victoria" (not her real name); Don Howell (Detective, Huntington Beach Police Department); Eric Scarbrough (Deputy DA, Orange County, CA). 05/13/17      **48 HOURS: "Murder in the Mansion" (10:00-11:00p)** – a report on one of the most notorious cases in Texas history -- the 1976 ambush in a lavish Fort Worth mansion owned by Texas oilman Cullen Davis, that left two people wounded and two people dead -- one of them a child. To this day, no one has ever been held accountable for the crime. In 1976, Cullen Davis' estranged wife, Priscilla Davis, returned home to the mansion with her boyfriend, Stan Farr, and a friend. Gunfire erupted, and when it ended, Farr and Andrea Wilborn, Priscilla's 12-year-old daughter from a previous marriage were dead, and Davis and her friend were wounded. Both Davis and her friend identified the shooter -- a man dressed in black -- as Cullen Davis. The DA's theory was that Cullen committed the crimes because of the pending divorce and his banishment from the mansion, which had been ordered by the judge handling the divorce. They also believed that Andrea was shot before the adults returned home. Davis, then worth an estimated \$500 million, hired Richard Haynes, the most famous defense attorney in Texas at the time, to defend him. When Andrea Wilborn's murder trial finally began, Haynes turned a routine case upside down, making the trial more about Priscilla than Andrea's murder. It took four hours for the jury to find him not guilty. Nine months later Cullen Davis was in trouble again -- charged with hiring a hitman -- but at trial, he was acquitted again. The Davises eventually divorced, Cullen Davis left Fort Worth, the mansion was sold and today is used as an event space. Now 83, Cullen Davis describes himself as a born-again Christian and he did not kill Farr and Wilborn, nor did he shoot Priscilla and her friend. **On-screen text graphic:** Richard "Racehorse" Haynes died in April. The mansion is now an event space often used for weddings. Interviewed: Jack Strickland (former Fort Worth prosecutor); Christy Jack (attorney); Dee Davis (Andrea Wilborn's sister); Trey Davis (adopted son of Cullen Davis); Dan Cogdell (attorney, protégé of Richard Haynes); David McCrory (friend of Cullen Davis). **48 HOURS: "Murder by Design"** - an investigation into questions that still exist nearly twenty years after fashion designer Gianni Versace was gunned down outside his Miami mansion by Andrew Cunanan. He was shot dead on July 15, 1997 -- the killer walked up, shot him execution style and walked off, leaving Versace bleeding to death on the steps to his home. Investigation revealed Andrew Cunanan, who was openly gay, was a spree killer who thrived on attention and was willing to kill even his friends. Police across the country were already hunting for Cunanan for the murder of four others -- in Minnesota, he killed his friend Jeff Trail (who had been previously interviewed by 48 HOURS in 1993 about gays in the military) and his lover David Madson. In Chicago, Cunanan murdered real estate developer Lee Miglin and stole his car. Then in New Jersey, he killed cemetery caretaker William Reese, stole his truck and drove to Miami, where he lived off the grid for two months. With police and the FBI on his trail, he was even featured on "America's Most Wanted". Finally, a tip came that changed everything. After a four-hour standoff on a houseboat, police found the body of Andrew Cunanan. Now, twenty years later, there is still no hard evidence to the speculation that Cunanan and Versace has some kind of connection. **On-screen text graphic:** Twenty years after his death, the House of Versace continues to succeed, led by Gianni's sister, Donatella and brother Santo. Jeff Trail was interviewed on 48 HOURS: "Not In My Army" on 04/07/93. Interviewed: Lazaro Quintana (friend of Versace); Carlos Noriega (Lieutenant, Miami Beach Police); Richard Barreto (Miami Beach Police Chief); Michael Band (prosecutor); Robert Ahrends (Cunanan's seventh grade classmate); Nicole Murray-Ramirez (Cunanan's high school classmate); Michael Williams (Cunanan acquaintance); Mary Ellen O'Toole (former FBI profiler); Julie Hovland (friend of David Madson); Dale Barsness (detective); Stephen Byer (neighbor of Lee Miglin); Gustavo Sanchez (detective); Tim Gunn (fashion designer). **48 HOURS PRESENTS: "Princess Diana: Her Life / Her Death / The Truth (8:00 - 10:00p)"** - a two-hour report examining the public and private life of Diana, Princess of Wales, who died on August 31, 1997 in a car crash with her boyfriend, Dodi Al Fayed, in the Alma tunnel in Paris. Through the words of those who knew her and admired her, through her own words, and through the archives of CBS News, this program examines the impact Princess Diana had on Great Britain, the monarchy and the world. From her 1981 wedding to Prince Charles until her tragic death, Diana was a complex, unpredictable woman who captured the hearts of the public -- during her royal marriage, her reemergence into public life following the royal divorce, her death and beyond. Her death was just as controversial as her life, as described through four independent investigations in two separate countries. The various theories are examined about what really happened the night she was killed in the car crash. The conclusion of the broadcast updates viewers on how her sons, Prince William and Prince Harry, are honoring their mother's good works, which helped to bring the British monarchy into the modern age. Interviewed: Lana Marks (Diana's friend); Patrick Jephson (Diana's private secretary); Ken Wharfe (Diana's Scotland Yard Royal Bodyguard); Sally Bedell Smith (author, *Diana in Search of Herself*); Ingrid Seward (editor, *Majesty Magazine*); Richard Kay (Diana's friend, Royal Commentator, "Daily Mail"); Peter York (writer); Mary Robertson (Diana's friend and employer); David Starkey (Royal Historian, CBS Consultant); Wayne Sleep (dancer); Trevor Rees-Jones and Kez Wingfield (Al Fayed Bodyguards); Roya Nikkahah (Royal Correspondent, "The Sunday Times"); Christina Lamb (Chief Correspondent, "The Sunday Times"); Tim Gunn (fashion consultant); Dai Davies (fmr. **48 HOURS: NCIS: "One Of Their Own" (10:00-11:00p)** - the third in a six-part series taking viewers inside cases handled by the Naval Criminal Investigative Service (NCIS), which has celebrated its 50<sup>th</sup> anniversary and is responsible for investigating felony crimes, preventing terrorism and protecting secrets for the Marine Corps and the Navy. In this episode, NCIS agents investigate the 2001 murders of Navy Petty Officer Lea Anne Brown and her friend Michael Patten, who were viciously beaten, shot execution-style and dumped in a wooded area of Accokeek, Maryland. The case became high priority for NCIS -- one of their own was dead along with her friend. Working with detectives from the Prince George's County Sheriff's Office, they discovered information that ultimately connected the carjacking of William Hicks that same night, to the murders. Five suspects were identified: Cortez Carroll, Robert Odum, Eric Thomas, Aaron Hollingsworth and Marco Scutchings-Butler. After stealing Hicks' car, they happened upon Brown and Patten and viciously murdered them. The detectives and NCIS believed they had strong cases, but Robert Odum was found not guilty of murder because one juror would not agree to a guilty verdict for the murders, because she would not send another young black man to jail, but chose to agree to guilty on a kidnapping charge. Cortez Carroll pled guilty in exchange for life in prison. Eric Thomas was convicted and sentenced to life in prison. Aaron Hollingsworth is serving thirty years in exchange for testimony. Marco Scutchings-Butler was acquitted of the murders, but later found guilty in the carjacking case and sentenced to prison. Interviewed: Margery Patten (Mike Patten's mother); Cari Freemore (Lea Anne Brown's mother); Chuck Alderman (NCIS Special Agent, retired); Frank O'Donnell (NCIS Special Agent, retired); Jacqueline Broadus (Prince George's County Detective, retired); Jay Doyle (NCIS Special Agent); William Hicks (carjacking victim); Bob Dean (prosecutor); Mary Kaufman and Andy Patten (Mike Patten's sister and brother). **48 HOURS: "Death of an Olympian" (9:00 - 10:00p)** - a report about the August 2009 death of Olympian Dave Laut, shot to death by his wife, Jane in Oxnard, California. She claimed it was in self-defense. In her first television interview, she relates what happened that night and why she killed him. Dave Laut competed in the 1984 Games and was aiming for the gold when an injury upended his chances. He became a school teacher, athletic director, and coach; married his high school sweetheart Jane; and adopted a son. Jane Laut originally claimed Dave was shot by an intruder, but when detectives discovered a gun hidden inside a grandfather clock, she changed her story, claiming she killed Laut in self-defense. In her first television interview, she claims she never planned to kill her husband that night, but after years of psychological and verbal abuse, Laut went too far that night and she shot him. The Laut family says that Jane is a pathological liar. The police could not confirm any abuse. The evidence collected at the scene told a different story: Laut was shot from behind with a single action revolver -- every shot indicated pre-meditation. Forensic accounting concluded the couple was deeply in debt and that Jane was a reckless spender, in trouble with the IRS. Dave Laut was apparently unaware of their circumstances. In January 2016, the prosecution presented a case of pre-meditated murder with money and divorce as the motives -- and that Jane was never in physical danger from Dave Laut. Jane Laut testified in her own defense, explaining her motivation. After four days of deliberation, the jury found Jane Laut guilty of first degree murder. Original On-screen text graphic: Jane Laut is expected to be formally sentenced in June. **On-screen text graphic for the 05/27/17 rebroadcast:** Jane Laut's first chance at parole is in 2066. She would be one hundred and eight years old. Interviewed: Jane Laut; Don and Rebecca Laut (Dave Laut's brother and sister-in-law); Dotty Laut (mother); Sonya Sanchez (Detective, Oxnard, California Police Department); Mike Young (lead detective); Nabil Khattar (gun expert); Ron Bamich (defense attorney); Marjorie Hernandez (Ventura County Star reporter/48 HOURS consultant); Gail Pineus (executive director, Los Angeles Country Domestic Abuse Center) (C: Erin Moriarty - P: Judy Rybak, Greg Fisher, Chris Young Ritzen, Dena Goldstein) (OAD: 05/14/16)

- 05/27/17      **48 HOURS PRESENTS: "The Hit" (10:00 – 11:00p)** - a report on the death of colorful entrepreneur and Las Vegas gambler Gary Triano, who was blown up in his car after finishing a round of golf at the exclusive La Paloma Country Club in Tucson, Arizona in 1996. His ex-wife, socialite Pamela Phillips, speaks out for the first time and proclaims her innocence. The Trianos were a power couple who were part of the local social set and hobnobbed with Donald Trump. Triano had made a fortune in the tribal gaming business, but the bottom fell out and he was pushed out of the business. The income loss put a strain on the couple. He owed millions of dollars to creditors. The Trianos separated in 1993 and eventually divorced. He was killed in 1996. Was it a mob hit? Were friends or family involved? Investigation led to endless leads, curious characters and many theories. Eventually the investigation led to the involvement of Ron Young, once an acquaintance and possible lover of Pamela Phillips. He was arrested along with Pamela Phillips on charges of conspiracy and murder. In separate trials, Young denied everything, and was found guilty. Pamela Phillips was portrayed as a desperate woman out for life insurance at her trial. Her attorneys said that someone else was responsible. She too was found guilty. Original On-screen text graphic: Gary Triano's family sued Pam Phillips and Ron Young for wrongful death. They were awarded \$10 million dollars. **On-screen text graphic for the 05/27/17 rebroadcast:** Gary Triano's family sued Pam Phillips and Ron Young for wrongful death. They were awarded ten million dollars. The family has received far less than that. Interviewed: Pamela Phillips; Laura Chapman (one-time of the couple); Gene Reedy (Pima County Investigator); Tom Mangan and Tony May (ATF Special Agents); James Gamber (detective); Dr. Lawrence D'Antonio (Triano friend); Paul Edkerstrom (defense attorney). (C: Peter Van Sant - P: Chuck Stevenson, Greg Fisher) (OAD: 10/11/14; 1<sup>st</sup> Rebroadcast: 07/11/15 – both as 48 HOURS: "The Hit")
- 05/30/17      **48 HOURS: NCIS: "The Terrorists, The Spies, The Hackers" (10:00-11:00p)** - the fourth in a six-part series taking viewers inside cases handled by the Naval Criminal Investigative Service (NCIS), which has celebrated its 50<sup>th</sup> anniversary and is responsible for investigating felony crimes, preventing terrorism and protecting secrets for the Marine Corps and the Navy. This episode focuses on NCIS agents and their work involving terrorists, hackers, and spies. (1) NCIS agents talk about the hunt for a spy, later revealed to be Mostafa Awwad, a civilian employee of the U.S. Navy who downloaded the schematics for a new Navy nuclear aircraft carrier with the intention of turning them over to Egypt so they could sink the vessel when it sailed into the Suez Canal. To catch the spy, agents set up a sting including classic elements from spy novels, including a dead drop. (2) A look into the hacking of the Navy's Smart Web Move database, containing the records of 220,000 servicemen and women. A group named "Team Digi7al" taunted the Navy by posting the records online. In the end, Nick Knight, a 27-year-old enlisted man on the USS Truman was caught in a sting, along with a friend, Daniel Kruger. They have been ordered to pay \$500,000 restitution back to the Navy. (3) The October 12, 2000 bombing of the USS Cole is examined. The first successful attack on a U.S. Navy vessel in modern history launched a new world of terrorism. The investigation went from a local event to a global one as they confirmed that al Qaeda suicide bombers working for Osama bin Laden rammed the ship with a boat full of explosives as it refueled in Yemen. The incident forever changed the way the agency approached terrorist attacks and was a watershed moment for both NCIS and the U.S. Navy. Interviewed: Georgios Sekeroglou (NCIS Special Agent); James Dougherty (Special Agent, FBI Counterintelligence Division); Michael DeBolt (cybercrime expert); Jay Doyle (NCIS Special Agent); Robert McFadden (NCIS Special Agent, retired); Michael Marks (NCIS Special Agent, retired); Cathy Clements (NCIS Special Agent); David P. Wroe (Commanding Officer, USS Cole DDG-67). (Narrator: Rocky Carroll – Supervising Producer: Josh Gelman)

48 HOURS

06/03/17

**48 HOURS: "Cold as Ice" (9:00-10:00p)** - an updated rebroadcast on a 55-year-old cold case, in which a childhood memory of a friend's murder, which turned out to be erroneous, had been used as the key in the case of the death of 7-year-old Maria Ridulph, from Sycamore, Illinois. In 1957, while playing in the snow with Maria Ridulph, eight-year-old Kathy Chapman went home for mittens. When she returned, Maria was nowhere to be found. Both girls had been talking to a man who called himself "Johnny"; a frantic search failed to locate Maria. The FBI took over the case but when her body was found five months later, the Illinois State Police took over the case, but it went cold. Almost fifty years later, Jeanne Tessier's mother, a Sycamore neighbor, made a shocking deathbed confession: her son, John Tessier, was Maria's killer and she urged her daughter to contact the authorities. Jeanne Tessier contacted the FBI and the Sycamore Police. Her brother appeared to have had an alibi and had passed a polygraph test. Both agencies chose not to investigate. Ten years later, Jeanne contacted the Illinois State Police. During the course of the investigation, long buried sexual secrets of the Tessier family came to light. Maria's playmate, now a 61-year-old grandmother, identified a photo of John Tessier as "Johnny", who is now a 72-year-old former policeman from Seattle, Washington, and now known as Jack McCullough. He was arrested and charged with murder. There was little or no physical evidence in the crime; prosecutors chose to charge McCullough with a different crime: the rape of his sister, fifty-five years ago. They felt they had a better chance of conviction. But the prosecutor had promised Jeanne Tessier that he would never pursue a rape trial without her consent. With no physical evidence to back up her story, Jeanne Tessier felt betrayed by prosecutor Clay Campbell and feared her word would not be enough for a conviction. McCullough was found not guilty. Five months later, the murder trial commenced. Jack McCullough felt confident he would be acquitted in this mostly circumstantial case too. When both sides rested, the judge delivered his decision: guilty. McCullough was sentenced to life in prison. **Epilogue for the 06/03/17 updated rebroadcast:** As a former cop and convicted child killer, McCullough was put into protective custody while in prison. That changed on April 15, 2016: after serviced five years in prison, his sentence was vacated after the State Attorney conducted a review and concluded McCullough could not have killed Maria Ridulph. The prosecutor even agreed. The case was dismissed one week later. In April, 2017, Jack McCullough was declared innocent by a judge. He has filed federal and local lawsuits against numerous Illinois state and local authorities. The case is now considered cold again. Original On-screen text graphic: Clay Campbell won the case, but in November 2012, he lost his bid for re-election. On-screen text graphic for the 05/24/14 rebroadcast: Jack McCullough is appealing his conviction. McCullough claims the judge allowed unreliable evidence, including his dying mother's statement accusing him of the murder of Maria Ridulph. **On-screen text graphic for the 06/03/17 updated rebroadcast:** The case is now a reopened and active investigation being conducted by the Illinois State Police. Interviewed: Maria Ridulph's childhood friend Kathy Chapman; Maria Ridulph's brother Chuck Ridulph; Patrick Solar, retired Sycamore Police Lieutenant; the sisters of suspect John Tessier/Ray McCullough: Jeanne Tessier and Jan Tessier; Special Agent Brion Hanley; suspect Jack McCullough (a.k.a. - 06/03/17      **48 HOURS: "Killer App" (10:00 – 11:00p)** - a report on how social media has changed society, the attraction of so-called "parent proof" apps which have become enormously popular with millennials and teenagers, and the hidden dangers of connecting online with strangers. The broadcast focuses on two families whose daughters were involved in online relationships that ultimately became matters of life or death. (1) The January 2016 disappearance and murder of 13-year-old Blacksburg, Virginia teenager Nicole Lovell, whose social media posts revealed a lonely and sadly typical teenage story. Nicole went missing after sneaking out to go on "a date". The investigation revealed she had regularly used the popular social media app Kik, which allows communications to be anonymous, and was communicating with 18-year-old Virginia Tech freshman David Eisenhower. Her body was found 90 miles away. Eisenhower and his accomplice, fellow Virginia Tech student Natalie Keepers, were arrested on abduction and murder charges. (2) In 2013, Branden Syrotchen of Spokane, Washington, found out that Elizabeth, his 15-year-old daughter, was communicating with a 30-year-old man she had also befriended on the Kik app. The two were planning to run away together. Because the police were not able to act without actual evidence of a crime, Branden hatched a plan to save his daughter. The man, Jason Richards, tried to turn his crime into a love story, but he eventually pleaded guilty to child rape and luring charges. Also featured in the broadcast is an interview with an online predator who details how easy it is to lure children using social apps. Ted Livingston, CEO of the billion dollar social app Kik, was asked questions regarding the safety of children using the app during a recent conference and claimed his app is as safe as the competition. Original On-screen text graphic: David Eisenhower and Natalie Keepers are scheduled to be tried separately next March. If convicted, they could face life in prison with no parole. Jason Richards is scheduled to be released from prison on June 3, 2017. **On-screen text graphic for the 06/03/17 rebroadcast:** David Eisenhower is scheduled to be tried in November 2017. Natalie Keepers is scheduled to be tried in February 2018. If convicted, both could face life in prison with no parole. - 06/06/17      **48 HOURS: NCIS: "Body of Evidence" (10:00-11:00p)** - the fifth in a six-part series taking viewers inside cases handled by the Naval Criminal Investigative Service (NCIS), which has just celebrated its 50<sup>th</sup> anniversary and is responsible for investigating felony crimes, preventing terrorism and protecting secrets for the Marine Corps and the Navy. This episode focuses on the 1989 disappearance of Annie Tahan, the live-in girlfriend of Michael Palaan, a Navy Petty Officer. Palaan told police that she had walked out on him, leaving their baby behind. Four years later, and with little to go on, police in Charleston, South Carolina asked the NCIS for help. Their investigation eventually led to a Jane Doe murder victim who was identified as Tahan. They believed Michael Palaan was their chief suspect. It would take years of investigative work, multi-agency cooperation, surveillance and a sting operation to get the answers. Believing that that Palaan's wife, Dawn Breeze was involved or knew what happened, they set up a sting operation in which Dawn got Palaan to make some admissions about the murder, but they absolutely needed some physical evidence for a conviction. Six years after the murder, they found and interviewed everyone who lived in the apartment complex the couple lived in and located a TV set which was in the apartment where they believed the murder occurred. It was sent to the FBI, and tests revealed blood spatter results. Palaan was arrested and charged with capital murder. A plea deal led to a dishonorable discharge and 30 years in prison. For her help, his wife, Dawn, was granted immunity. In 2013, after only seventeen years in prison, he was released from prison for good behavior. Interviewed: Jim Grebas, NCIS Special Agent, Retired; Pete Hughes, NCIS Special Agent, Retired; Sarah Bowman, Newspaper Reporter; Kathi French, Annie Tahan's friend; Christian Reismeier, Judge Advocate General. - 06/10/17      **48 HOURS: "Shadow of Death" (9:00 – 10:00p)** – an updated rebroadcast on the murders of Andra and Brad Sachs, who in 2014 were killed during a suspected home invasion, in which their younger son was left paralyzed. Evidence in the crime points towards one of their older sons, Ashton Sachs, who was allegedly fascinated by the 1989 Menendez brothers murder case. The Sachs were a wealthy couple with five children, who had divorced, but continued to live together in upscale San Juan Capistrano, California. Investigation first led to the theory of a business deal gone bad, but a month after the shootings, then-19-year-old Ashton Sachs was charged with murder. Family members say that Sachs was an avid player of violent video games and had been fascinated with the sensational 1989 Menendez murders. Through interviews with various family members and experts, including highly respected child psychologist Ali Mattu of Columbia University, a portrait of Ashton Sachs emerges as a very troubled individual potentially suffering from mental illness. Warning signs of a troubled life were on the surface, and family dynamics played a part in the case. Sachs remains in a California jail and is scheduled to go on trial for the murders in March 2016. Original on-screen text graphic: Ashton Sachs is being held in solitary confinement. Authorities will not confirm reports he has tried again to take his own life. 10/15/16 Update: In the two years since the murders, unexpected developments have occurred: a dispute over who would administer the family estate was settled; Myles Sachs has been awarded custody of his three siblings, including Landon, who is confined to a wheelchair; and Ashton has remained in jail. Ashton declined to be interviewed by 48 HOURS. In September 2016, Ashton fired his public defender, decided to represent himself and surprised everyone by pleading guilty: he intentionally killed with premeditation and deliberation both Bradford and Andra Sachs. On October 14, 2016, Ashton Sachs was sentenced to four life sentences – all without the possibility of parole. On-screen text graphic for the 10/15/16 updated rebroadcast: Under California law, Ashton Sachs' life sentences are subject to automatic appeal. **No on-screen text graphic for the 06/10/17 rebroadcast.** Interviewed: Orange County Register Meghann Cuniff; reporter/48 HOURS consultant Jack Leonard; Orange County realtor Monte Burghardt; Andra's close friend Nina Lifshultz; weapons expert Nabil Khattar; trauma surgeon Dr. Enrique Ginzburg; Ashton's friend Connor Ward; attorney Mary Fulginiti; Columbia University child psychologist, Ali Mattu; Andra's sisters Lesley Summers and Stephanie Garber. - 06/10/17      **48 HOURS: "Driven to Extremes" (10:00 - 11:00p)** – a report on the death of millionaire trucking magnate Bill Hall Jr., and the subsequent murder trial of Frances Hall, his wife of 32 years. Bill Hall Jr. was a man in an open affair with a younger woman. On that fateful day, Hall's estranged wife, Frances Hall, was driving on a Texas highway and saw Bill on his Harley Davidson, followed by his mistress, Bonnie Contreras, in the family Range Rover, going in the opposite direction. She did a U-turn and gave chase, reaching speeds of up to 90 miles an hour in an effort to confront Contreras. During the chase, Bill Hall Jr. was hit by the Escalade driven by his estranged wife and ended up dead. Contreras claimed Frances Hall rammed the Range Rover multiple times during the chase and ran Bill Hall Jr. down. Prosecutors charged that Frances Hall intentionally killed him after being driven into a jealous rage. Frances Hall claimed she just wanted to confront her husband's mistress about menacing text messages and had no intention of hurting her husband. On September 18, 2016, Frances Hall was found guilty of murder and aggravated assault. At the sentencing trial, facing a possible life sentence, Hall's attorneys conjured up a bold defense -- sudden passion -- a legal term for a profoundly human moment when one is unable to think clearly in the heat of the moment. Now, some three years after Bill Hall Jr.'s death, his family is shattered, his company has filed for bankruptcy, and Frances Hall received her sentence: two years in prison instead of life. Original on-screen text graphic: Bonnie Contreras filed a lawsuit against Frances Hall alleging infliction of bodily injury and emotional distress. She is seeking \$2.5 million. Bill Hall's estate has filed against Bonnie Contreras seeking items that she allegedly stole from Bill. **On-screen text graphic for the 06/10/17 rebroadcast:** Bonnie Contreras filed a lawsuit against Frances Hall alleging infliction of bodily injury and emotional distress. - 06/13/17      **48 HOURS: NCIS: "The Sting" (10:00-11:00p)** - the sixth in a six-part series taking viewers inside cases handled by the Naval Criminal Investigative Service (NCIS), which has just celebrated its 50<sup>th</sup> anniversary and is responsible for investigating felony crimes, preventing terrorism and protecting secrets for the Marine Corps and the Navy. This episode focuses on the investigation of a murdered Navy Petty Officer Mervin "Sonny" Grotton, who, in 1983, left work at the Naval Education Training Center in Newport, Rhode Island, for his home in Belfast, Maine and as he walked to his front door, was shot dead. Police initially suspected his wife, Norma Small (aka Norma Grotton). The case went cold for nearly two decades until a team of NCIS agents took another look. Their investigation led back to Norma as the chief suspect. They needed more, and developed an undercover sting operation to get Norma to talk. She did - implicating herself - and two men - Boyd Smith, her daughter's former boyfriend, and Joel Fuller - a man described as "a personification of evil" by many locals. All were arrested. Smith and Fuller denied involvement. In 2002, each went on trial, separately, for the murder of Grotton. Fuller denied everything. He was acquitted but remains in prison for life for two other murders he committed. Even though he confessed three times to police, Boyd Smith was also acquitted. With Smith's cooperation, Norma Small was convicted and sentenced to 70 years in prison. Interviewed: Rosalyn Grotton (daughter); David Truesdale (NCIS Special Agent, retired); Jeff Morrow (NCIS Special Agent, retired); Mark Nickerson (Maine state trooper); John Dyer (Maine State Police); Dean Jackson (Maine state police detective, retired); John Ford (sheriff). (Narrator: Rocky Carroll - Producer: Alec Sirken)
- 06/16/17      **48 HOURS: "Death By Text" (8:00-9:00p)** - a report about the death of Conrad Roy III, and the groundbreaking case against Michelle Carter, who prosecutors say influenced Roy, via text messages, to kill himself. On July 12, 2014, Conrad Roy died of carbon monoxide poisoning after sitting in his truck with a gas-powered water pump running in the backseat. Prosecutors say Roy was driven to kill himself through hundreds of incessant messages from Carter, who was more than 30 minutes away at the time he died. Carter was later charged with involuntary manslaughter. Her defense team maintains Roy decided to kill himself on his own. As seen through his own videos, Conrad Roy talked about his own struggles with social anxiety, depression and thoughts of suicide. His mother Lynn Roy, also talks about the death of her son and the pain she lives with. Though they lived an hour apart in Massachusetts, the couple communicated almost exclusively via texts, online and by phone. The prosecution maintained Carter could have done something to stop Roy. The heart of the case is the question of whether Carter's texts and messages pushed Roy to take his life, or would he have done it anyway. Prosecutors argued that Carter played on Roy's mental health and her actions were reckless; she knew what she was doing and just wanted attention. The defense maintains Carter had her own psychological problems and that she was also involuntarily intoxicated by the antidepressant drug Celexa: she was enmeshed in the delusion that it was a good thing to help him die. The prosecution hoped the judge paid attention to the text Carter sent to her friend a week after his death, in which she admitted she could possibly go to jail. After three days of deliberation, the judge rendered his verdict, completely rejecting Carter's defense and finding her guilty. At sentencing Michelle Carter could receive twenty years behind bars. The Roy family knows that words have power, and that they can forever change lives. Interviewed: Lynn Roy (mother); Camdyn Roy and Morgan Roy (sisters); Aryanna Taylor (friend of Conrad Roy); Ed McFarland (Carter's softball coach); Bob McGovern (Boston Herald legal columnist); Harold Koplewicz (child and adolescent psychiatrist). **06/17/17**      **48 HOURS: COLD CASE: "Who Killed Amy Gellert?"** - the first in a new short-run series focusing on long-unsolved murders. Each broadcast will go in-depth into a hard-to-close case and present new reporting along with the existing evidence. This report focuses on a 1994 home invasion in Cocoa Beach, Florida, which led to the murder of 21-year-old Amy Gellert. Gellert had interrupted an intruder holding her parents hostage. Startled, the masked man stabbed her mother Charlotte (Bunny) Lehton and her stepfather, Robert Lehton. He fled, where he encountered Gellert in the driveway. Her killer was never caught. Multiple suspects have emerged since that fateful night. The cold case team of Major Todd Goodyear, Lt. Carlos Reyes, Marlon Buggs and Wayne Simock discuss their theories about the case: the unusual weapons used (a dagger and a prop gun), the intruder (characteristics, accent, etc.), and the possibility of a targeted attack. Ultimately, two main suspects have emerged: Scott Manley (someone who Gellert had met in drug rehab) and Dominic Kanuika (who admits to driving by the crime scene) and a possible connection between the two men. **On-screen text graphic:** If you have information about Amy Gellert's murder contact: The Brevard County Homicide Unit. **06/24/17**      **48 HOURS: "The Accidental Husband" (9:00-10:00p)** - an updated rebroadcast about Harold Henthorn, a twice-widowed man from Colorado whose two wives both died in unusual accidents, and whose changing account of events led family members to suspect that he murdered them. In 2012, Harold Henthorn surprised his wife Dr. Toni Henthorn, a successful ophthalmologist, with a weekend hike in Rocky Mountain National Park to celebrate their anniversary -- only to have it end in her death from a fall. Henthorn's version of events to family members changed several times and they began to doubt his account of events and to suspect he was responsible for her death. While reporting on the case, investigative reporter Brian Maass received an anonymous email stating Henthorn's first wife died in a freak accident as well. Maass looked into the accident and discovered first wife Lynn Henthorn had died 17 years earlier in another freak accident. He found: (1) both accidents occurred in very remote locations in Colorado; (2) Henthorn was the only witness; (3) the accidents were extremely unusual; (4) he had told numerous versions of the events; and (5) both wives had large life insurance policies, with him as the sole beneficiary. Federal investigators also discovered that Henthorn had not worked for the past twenty years. He had also taken out a fraudulent policy worth millions on his ex-sister-in-law, Grace Rishell, who now believes she was to be his next target. In 2014, two years after Toni Henthorn's tragic death, federal authorities arrested and charged Harold Henthorn with her murder. His trial is scheduled to begin in the fall. **On-screen text graphic:** A judge will decide if Lynn's death can be included in Henthorn's trial for the murder of Toni. Henthorn has yet to receive any proceeds from Toni's life insurance. Harold Henthorn declined our request for an interview. 11/21/15 **UPDATE:** This September, Henthorn's trial began. Prosecutors were confident they would win this largely circumstantial case. The defense rested without calling a single witness. **48 HOURS (continued)**

06/24/17      **48 HOURS: "Serial Confessions" (10:00-11:00p)** - a followup to "Buried Truth" (OAD 11/12/16) - a report on the investigation into the case of Todd Kohlhepp, a South Carolina real estate broker, now a confessed serial killer. His violent history was discovered after a missing woman named Kala Brown was found chained inside a shipping container on his property. This led to information that potentially solved a well-known 2003 South Carolina cold case, known as the Superbike Murders. The police investigation into Brown's missing person case led to Kohlhepp's property. Brown, who had once worked for Kohlhepp, told police that Kohlhepp had shot her boyfriend Charles David Carver dead, and that she had been a hostage for two months. Kohlhepp was arrested. While in custody, he asked for three things before starting to talk; then he told police more than they had ever suspected. He admitted to killing a young couple, later identified as Johnny Coxie and Meagan McCraw last December. In the most shocking twist of all, he revealed information known only to police in the 2003 South Carolina cold case of four murders at a Spartanburg motorcycle shop. Kohlhepp confessed to the killings and asked that, in exchange for pleading guilty to the seven murders, the kidnapping and the rape charges, he would not receive the death penalty. He was given seven consecutive life sentences plus 60 years. He showed no remorse. Also examined are: (1) the life of the self-confessed killer, who on the outside, seemed to be a model citizen, but who after a troubled childhood, moved to Arizona to be with his father. While there, he sexually assaulted a 14-year-old girl at gunpoint and had then served a 15 year sentence in prison. Includes an interview with his mother Regina Tague; (2) excerpts of Kala Brown's interview on the Dr. Phil Show; (3) the Superbike case and the feelings of the victim's relatives upon hearing the news and the sentencing; and (4) the discovery of the bodies of Johnny Coxie and Meagan McCraw on Kohlhepp's property. **On-screen text graphic:** Todd Kohlhepp was not allowed to attend his mother's funeral. Kala Brown will receive a twenty-five thousand dollars reward for helping investigators solve the four Superbike murders. Interviewed: Chuck Wright (Spartanburg County Sheriff); Joanne Shiflet and Chuck Carver (Charles Carver's parents); Regina Tague (mother of Todd Kohlhepp); Melissa Ponder (wife of Superbike victim Scott Ponder); Terry Guy (Scott Ponder's step-father); Tom and Lorraine Lucas (Superbike victim Brian Lucas' parents); Kris Mohandi (forensic psychologist/CBS Consultant) (See also: 48 HOURS: "Buried Truth", OAD: 11/12/16) (C: David Begnaud, Peter Van Sant - P: Paul LaRosa)

## Golden Paw Animal Rescue

Would like to thank you for giving us the opportunity to raise money for the homeless animals in our area.

The support of KOAM by donating the 32" Television for our Silent Auction is an amazing opportunity for Golden Paw to raise some much needed funds.

Donation will care for our furbabies in the manner in which they deserve by providing our dogs and cats with food and shelter. EACH and EVERY dog or cat we take in gets spayed or neutered and given any medical treatment necessary. So funds raised from the

Dear Mr. Lewis,

Cherokee County American Legion Free Fair will be celebrating their 89<sup>th</sup> year serving Cherokee County. Every year Cherokee County looks for ways to better this week of fun. We have a raffle that the 4-H Fair King and Queen candidates, and their respected 4-H clubs will sell tickets for. This raffle is what helps to keep our 4-H program up and running. In the past we have had the opportunity to raffle off a television that was donated by KOAM-TV Station, as well as numerous other prizes for such a great cause.

Cherokee County 4-H would be extremely thankful if we had the opportunity to raffle a television this year that was donated from KOAM-TV amongst our other prizes.

If your organization has any questions or would care to donate to this cause please feel free to contact me at [kcurry@ksu.edu](mailto:kcurry@ksu.edu). All donations are tax deductible, and your generosity will play a key role in the timeless 4-H motto "to make the best better".

Thank you so much for all of your support in the past and thank you for all that you do for Cherokee County Research and Extension.

Sincerely,

The snacks will be given to students during their MAP testing days. The value of the donation is \$100. We currently have over 7,000 students enrolled in Joplin Schools. "Children are the world's most valuable resource and its best hope for the future." - John F. Kennedy. That's where Bright Futures comes in! By helping to create important structures around kids that they need to be successful learners and successful community members, Bright Futures is actively addressing high school dropout rates and the future of Joplin students. One high school dropout can have a ripple effect on the entire community through the loss of productive workers and more. Dropouts are much more likely than their peers who graduate to be unemployed, living in poverty, receiving public assistance, in prison, unhealthy, divorced, and single parents with children who repeat the pattern and drop out of school themselves. Through Bright Futures, we can change dropout rates and reshape Joplin's future by working together. Bright Futures is a grass roots, community based program that creates partnerships and utilizes community resources for the common goal of helping our kids and strengthening our families and community. Bright Futures has created a system of support for our kids that educators can utilize. Bright Futures is about cultural change and building a community where education is important and valued. Each and every student is priceless and it's up to us to help them succeed. As a community, we are responsible for supporting Joplin children. It isn't just up to the parents, the schools, the business community, faith based organizations, or human service agencies to respond to these needs. Together, we can use our resources to make a lasting impact. Together, we can make a difference. Think about what you can do to help Bright Futures; the future of our community depends on it.</p>

The Joplin Memorial Marathon is proud to support tornado recovery the last several years through donations to Rebuild Joplin, in addition to the money raised by runners, a sizable donation will be made after the event is complete. Funds from future Joplin Memorial Marathon events are targeted toward the construction and maintenance of memorials to the victims and heroes of the May 22nd tornado. Since 2012 we've donated over \$100,000 to United Way, Rebuild Joplin, and Bright Futures to help with tornado relief and recovery. In 2014 we donated \$30,000 which was matched by a grant to build a house for a tornado victim family. Rebuild Joplin was founded in response to the tornado that tore through Joplin, Oklahoma, and other surrounding communities. Rebuild Joplin began as a website to coordinate donations and volunteers, then evolved into serving the immediate needs of recovery, eventually putting to the report and rebuilding of homes directly affected by the tornado. Rebuild Joplin has rebuilt 64 homes to date, and aims to ensure that all remaining families that were storm-displaced are returned home by 2015. The Bill & Virginia Leflen Center for Autism will be our charity recipient for 2015-2017. Proceeds from the 2015-2017 races will benefit the Center's new active lifestyle playground area. Based below to find out more about the work they do in Joplin, ABOUT BILL & VIRGINIA LEFFLEN CENTER FOR AUTISM Bill & Virginia Leflen Center for Autism, developed in consultation with the Cleveland Clinic Autism Consulting Group, opened in the fall of 2007 with a preschool program. # HARLEY-DAVIDSON®

January 23, 2017

Dear Friend:

Hideout Harley-Davidson is pleased to announce that we will once again be joining the Muscular Dystrophy Association to host the 32<sup>ND</sup> Annual Ride for Life. Our tradition continues this year with the Cruise in party on June 10<sup>th</sup> and the Ride on June 11<sup>th</sup>. With the help of our many friends and vendors we raised over \$35,000.00 during the 2016 Ride for Life. We are beginning to gather donations for this awesome event and we hope that you can help us make our 2017 Ride even bigger.

The money collected provides direct services to over 750 families in the Ozark area. Many others benefit from the world-wide research seeking treatments and cures. Contributions will maintain the Association's hospital-affiliated clinic at Mercy Hospital in Springfield Missouri, which offers diagnostic and follow-up care for people with neuromuscular disorders. Clinic services include physical, occupational, and respiratory therapy evaluations. Other services provided by MDA include, assistance for repair for leg braces and wheelchairs, support groups, a fun-filled summer camp program, and flu vaccinations.

**We need your help.** Please consider donating an item for our silent or live auction. As always we appreciate your support and look forward to many years of partnering in helping with this great cause. With your donation you will help to make the Ride for Life one of the biggest events of the year. MDA receives no government funding or monies from United Way. **So we extend our sincere gratitude to our friends and vendors who help to make this ride a success!**

We welcome your questions and if you would like to attend this event or have a booth present, please don't hesitate to call **Joyce at 417-623-1054**. Thank you for your consideration.

Sincerely,

Joyce Williams

**Joplin, MO.** The One April Committee invites you to our Pinwheel Garden planting events on April 1<sup>st</sup> at:

**9 a.m. at Forest Park Baptist Church located at 725 S Highview Ave, Joplin, MO 64801**

**9 a.m. at Joplin Police Department located at 303 E 3rd St, Joplin, MO 64801**

On April 1<sup>st</sup> local college students and community members will be planting pinwheel gardens to kick off a large awareness campaign for Child Abuse Prevention Month.

One April is a group of community stakeholders focused on combining efforts to make a big impact to fight against child abuse and neglect.

During the month of April, several avenues of communication will be utilized to get the community's attention to the fact that Child Abuse and Neglect is a big issue. Public Service Announcements will be playing on Television Stations. There will be three events community members can attend with a Child Abuse Prevention focus.

1. Community Hope Conference, April 7<sup>th</sup>, The Church at Brookwood
2. Children's Center, Breaking the Silence 5k & 10k, April 22<sup>nd</sup>, Roper Kia
3. CAPA for Kids Free Community Event, April 29<sup>th</sup>, Joplin Family Worship

### Why the Pinwheel?

In 2008, Prevent Child Abuse America introduced the pinwheel as the new national symbol for child abuse prevention through Pinwheels for Prevention®. What our research showed, and what our experiences since then have borne out, is that people respond to the pinwheel. By its very nature, the pinwheel connotes whimsy and childlike notions. In essence, it has come to serve as the physical embodiment, or reminder, of the great childhoods we want for all children.

For further information, contact Nancy Corley at 417-782-9899 or visit our website at [www.theallianceofswmo.org/one-april](http://www.theallianceofswmo.org/one-april).

## JOIN US TO HELP PREVENT CHILD ABUSE

April is Child Abuse Prevention and Awareness month. During April, you will see events and activities in Joplin geared towards raising awareness of child abuse and increasing our prevention efforts. One April is a coalition of local agencies, businesses and community stakeholders in the Joplin area who have joined together to prevent child abuse.

We are asking you to become a part of that effort by showing your support for child abuse prevention.

You can do this in one of several ways:

1. Display blue pinwheels at your office or place of business. To purchase pinwheels, go to [www.missourikidsfirst.org](http://www.missourikidsfirst.org) to place your order.
2. Display a pinwheel bouquet in your office or place of business by going to [www.theallianceofswmo.org](http://www.theallianceofswmo.org) or calling 417-782-9899 and making a tax deductible donation of \$25 or \$50. Your bouquet will be delivered to your place of business along with your tax deduction letter.
3. License to Care: Purchase a special license plate at Missouri Children's Trust Fund [www.ctf4kids.org](http://www.ctf4kids.org). (See enclosed form)

During the month of April, we want to paint the town blue to show Joplin's support for child abuse prevention, but we can only do that with your help. Please join our efforts to keep children, our most vulnerable citizens, safe.

Sincerely,

*Nancy E. Corley*

A few samples of the public service efforts of the station are found below and within this report. The station focuses on local non-for-profit messages and supplements its public service announcements with regional and national messages which may be of interest to viewers in our market. The list is not exhaustive and the order in which these issues appear does not reflect any priority or significance.
Local News And Information, National Association of Broadcasters	Public Service Announcement	4.1.17-6.30.17	38 Minutes, 15 Seconds	\$13,024	The station aired PSA's in support of the National Association of Broadcasters "Local" campaign. From local weather reports to the highest rated network shows, your local TV stations are bringing you the news and entertainment you value most, and all for free. While some choose to subscribe to cable or satellite services, all you need is an antenna to get dozens of crystal clear channels with no monthly subscription fee. Many local TV stations partner with a broadcast network (such as ABC, CBS, FOX, NBC or Univision, among others), to provide you with top-rated primetime shows and national news in addition to local content. Each week, more than 85 percent of the most-watched shows are on local broadcast channels – the channels you can get for free with an antenna. When TV stations transitioned from analog to digital in 2009, a revolutionized free, local TV viewing, providing viewers more choices than ever before. Digital TV allows stations to transmit more additional free channels, such as foreign language programming, all-sports, favorite classic shows and more. Americans rely on their favorite local stations for the news they can trust, and broadcasters are delivering their valuable content online and through social media, ensuring their viewers are always connected and informed. Broadcasters are excited about the development of new technology platforms, such as Next Generation Television broadcasting, which provides ultra high-definition TV, along with interactivity, personalized services and mobility, as well as spectacular images and immersive sound. New technologies are opening doors for broadcasters, enabling them to deliver their content across emerging platforms and enhance the TV viewer experience.
Health, American Heart Association	Public Service Announcement	4.1.17-6.30.17	2 Hours, 10 Minutes, 30 Seconds	\$15,450	The station aired PSA's in support of the American Heart Association and heart health. The evergreen campaigns include a series on Heart Failure and CPR Saves Lives. The American Heart Association and The American Stroke Association are working toward improving the cardiovascular health of all Americans by 20 percent, and reducing deaths from cardiovascular diseases and stroke by 20 percent, all by the year 2020. We provide public health education in a variety of ways. We're the nation's leader in CPR education and training. We help people understand the importance of healthy lifestyle choices. We provide science-based treatment guidelines for healthcare professionals to help them give quality care to their patients. We educate lawmakers, policymakers and the public as we advocate for changes to protect and improve the health of our communities. Our volunteer experts select the scientific research most worthy of funding — with great results. We have invested more than \$4 billion in research, more than any organization outside the federal government. We have funded 13 Nobel Prize winners and many lifesaving research advances such as the first artificial heart valve, cholesterol-lowering drugs, heart transplantation, and CPR techniques.

Poverty, Health, Circles Joplin, United Way	Public Service Announcement	5:29:17-6:30:17	34 Minutes	\$3,720	<p>During the quarter the station aired PSA's in support of Circles Joplin, a part of a nationally-recognized program with proven results in more than 80 communities, began in 2013. Circles is all about building relationships. Together, everyday men and women figure out how to do the better. Community members help participants find better ways to budget, resolve conflict, and gain the skills needed for successful employment. The best part about Circles is the fact that participants are changing their own lives. No handouts are given. People are supporting one another through friendship and fellowship to make life better for our whole community. Circles is a community collaboration in partnership with the national Circles program and the United Way of Southwest Missouri and Southeast Kansas. Circles works to build relationships across class lines as a way to improve community conditions. The Circles program reduces the number of families and individuals who rely on government programs and charitable aid. More importantly, it breaks the cycle of poverty as graduates teach their children how to get ahead, not just get by. The program can increase the number of educated workers in the community and also reduce the unemployment and incarceration rates. Circles has a proven track record for success nationwide and has already begun changing lives right here at home.</p>
Community Blood Center, Health	Public Service Announcement	4:1:17-6:30:17	30 Minutes, 30 Seconds	\$15,038	<p>The station aired PSA's in support of the Community Blood Center of the Ozarks Joplin donation center located at Northport Mall. In 2025, our civic and medical leaders formed Community Blood Center of the Ozarks with one simple mission: "To provide a quality blood supply, in a timely manner, at the lowest reasonable fee, while remaining accountable to the local community, blood donors and health care providers." Since our beginnings two decades ago and thanks to the efforts of our many volunteers, we have become the sole provider of blood products for 40 hospitals located in three states. When there is an excess of blood locally, CBCC supports other parts of the country that may be short on supplies. CBCC also supplies blood to the United States military, as part of a national effort to sustain our troops. More than 60,000 donations of blood are required each year to meet the transfusion needs of our friends and neighbors. We at CBCC take the responsibility of providing that blood very seriously.</p>
Veterans, Health, DAV Chapter 52 Joplin	Public Service Announcement	4:1:17-6:30:17	39 Minutes, 30 Seconds	\$15,038	<p>The station produced and aired PSA's in support of the Disabled American Veterans Chapter 52 Joplin Transportation Network which had the goal of recruiting volunteers to help safely transport Veterans to medical appointments. DAV OFFICIAL MISSION STATEMENT: We are dedicated to a single purpose: empowering veterans to lead high-quality lives with respect and dignity. We accomplish this by ensuring that veterans and their families can access the full range of benefits available to them: fighting for the interests of America's injured heroes on Capitol Hill and educating the public about the great sacrifices and needs of veterans transitioning back to civilian life; providing free, professional assistance to veterans and their families in obtaining benefits and services earned through military service and provided by the Department of Veterans Affairs (VA) and other agencies of government; providing outreach concerning its program services to the American people generally; and to disabled veterans and their families specifically. Representing the interests of disabled veterans, their families, their widowed spouses and their orphans before Congress, the White House and the Judicial Branch, as well as state and local government. Extending DAV's mission of hope into the communities where these veterans and their families live through a network of state-level Departments and local Chapters. Providing a structure through which disabled veterans can express their compassion for their fellow veterans through a variety of volunteer programs.</p>
Diversity and Inclusion	Public Service Announcement	4:1:17-6:30:17	1 Hour, 11 Minutes, 30 Seconds	\$6,570	<p>The station aired PSA's in support of Diversity and Inclusion in America and in our local market. The PSA's feature Jon Carra. To love America is to love all Americans. Jon Carra takes a break between dropping body slams to drop some truths – that patriotism is more than pride of country, it's love beyond labels. While the vast majority of Americans consider themselves unprejudiced, many of us unintentionally make snap judgments about people based on what we see – whether it's race, age, gender, religion, sexuality, or disability. The Love Has No Labels campaign challenges us to open our eyes to our implicit, or unconscious, bias and work to stop it in ourselves, our families, our friends, and our colleagues. Retrain your bias at <a href="http://www.lovehaslabels.com">www.lovehaslabels.com</a>.</p>
Emergency Preparedness	Public Service Announcement	4:1:17-6:30:17	1 Hour, 54 minutes	\$8,760	<p>The station aired PSA's in support of being prepared for an emergency. From the Centers For Disease Control and Prevention. Many people are concerned about the possibility of a public health emergency such as a natural disaster, act of terrorism, or disease outbreak. You can take steps now to help you prepare for an emergency and cope if an emergency happens. To help you prepare, we've provided step-by-step actions you can take beforehand to protect yourself and your loved ones. The Centers for Disease Control and Prevention works 24/7 to provide the American public with timely and accurate health information, responding to public health emergencies and natural disasters, and monitoring the spread of dangerous and the-threatening diseases.</p>

Habitat For Humanity, Housing, Poverty	Public Service Announcement	4.1.17-6.30.17	1 Hour, 46 Minutes	\$24,513	<p>The station aired PSA's in support of Habitat For Humanity in the Spring, Mid/Summer, &amp; Fall months. Evergreen campaigns include promoting the mission and soliciting for volunteers. Our Vision: A world where everyone has a decent place to live. Our Mission Statement: Seeking to put God's love into action, Habitat for Humanity brings people together to build homes, communities and hope. About Hope: Hope Habitat for Humanity. Founded in 1982, Hope Hope Habitat for Humanity is part of a global, nonprofit housing organization operating on Christian principles that seeks to put God's love into action by building homes, communities and hope. Habitat for Humanity is dedicated to elevating substandard housing, locally and worldwide through constructing, rehabilitating and preserving homes, by educating for fair and just housing policies, and by providing training and access to resources to help families improve their shelter conditions. Habitat for Humanity was founded on the conviction that every man, woman and child should have a simple, livable place to live in dignity and safety, and that decent shelter in decent communities should be a matter of conscience and action for all. Homeowner families are selected based on their income, need, ability to pay, and willingness to partner with Habitat. Each homeowner family is required to complete 200-300 hours of volunteer labor on their home and those of other families. Once construction is completed, the house is sold to the new homeowners at no profit and no interest. An organization started with many volunteers, the Hope Area Habitat for Humanity relies on individuals willing to give of their time and talents to accomplish everything from having contractors to the selection of homeowner families. To aid its construction efforts, the Hope Area affords the continuing support of community businesses, churches, and individuals to provide the funds and specialized services it may be interested in becoming a volunteer at our construction sites or on one of our construction sites. Please fill out our contact form or call Hope Area Habitat at 417-782-6233. All are welcome. Hope Area Habitat for Humanity has an open-door policy. Veterans, Health	Public Service Announcement	4.1.17-6.30.17	49 Minutes, 45 Seconds	\$16,028	<p>The station aired PSA's in support of Honor Flight and Honor Flight of the Ozarks. Honor Flight of the Ozarks is based in nearby Springfield, MO. Honor Flight, Inc. and affiliated hubs in the national Honor Flight Network are private, not-for-profit organizations created solely to honor America's veterans for their many sacrifices. Honor Flight first flew in May 2005 with its small planes flying twelve WWII veterans, departing from Springfield, Ohio. In 2006, with a rapidly expanding waiting list, the program transitioned to commercial airline carriers to accommodate more veterans. That same year Honor Flight partnered with Honor Air in Hendersonville, North Carolina and then flight in Provo, Utah to establish the national "Honor Flight Network" which has expanded aggressively to include cities across the nation. By 2007 official Network hubs had been established in 32 cities, to facilitate community commitment, operational planning, and fund-raising. Today, there are 132 regional hubs in the United States. There are also several thousand veterans on a national registry waiting up to one year to secure a Honor Flight in their area. Every day we are losing several hundred WWII and Korean Veterans. Our sense of urgency is very real.</p>
Education, High School Equivalency	Public Service Announcement	4.1.17-6.30.17	6 Hours, 10 Minutes	\$37,568	<p>The station aired PSA's in support of education and graduation for youth and adults who may have dropped out of school. More than 24 million adults in the U.S. do not have a high school diploma. Data shows that adults without a diploma tend to work multiple jobs in the least stable positions, earn less money than high school graduates, and experience a lower quality of life. In fact, recent data shows that nearly 20 percent of adults with household incomes at or below the federal poverty line do not have a high school credential. The High School Equivalency campaign seeks to combat this critical issue by encouraging those without a high school diploma to take the first steps toward a better future and sign up for free adult education classes in their area. The "No One Gets A Diploma Alone" campaign celebrates the hard work of adults who have recently finished their high school diploma – and inspires those adults that have yet to complete high school. Through a series of surprise parties for recent graduates and their families, PSAs encourage adults and their loved ones to use the help that's waiting through free adult education classes around the country. The PSAs direct audiences to visit finishyourdiploma.org, where they can find free literacy centers and adult education classes, learn the basics of earning a high school equivalency, and hear real stories from people who have successfully completed classes and finished their high school diploma. Launched in 2010, the campaign has already helped more than 1 million adults find free adult education classes in their area.</p>

Mental Health, Suicide Prevention	Public Service Announcement	5.20.17-6.16.17	29 Minutes, 30 Seconds	\$9,559	The station produced and aired PSA's in support of the first Rich Brewer benefit Golf tournament held June 17, 2017 at Courtyards Golf Course near Pittsburg, KS. Proceeds from the tournament went to the Kansas Suicide Prevention resource center. All suicidal plans or attempts are extremely serious no matter the means. Suicide is one of the leading causes of death in our state. When we talk about suicide, it's important to not only ask "why," but also to think about "how." The means that someone can use to hurt or kill themselves can often make a large difference in the severity of an attempt. For example, firearms are used in suicides more than every other method combined. Likewise, most non-fatal self-harm or suicide attempts involve overdosing or poisoning, whereas only 1% of non-fatal suicide attempts involve a firearm. Studies have shown that when someone attempts to kill themselves, the act is sometimes based on a relatively short-lived, impulsive, and acute crisis. If reducing or restricting the means increases the time that it would take for someone to kill themselves, then there is a significant chance that the suicidal thoughts and feelings will subside. Once someone is suicidal, they don't necessarily remain imminently suicidal. Having a means (especially a firearm) readily available dramatically increases the chance that the suicidal person will go through with their plan.
