

The FCC's January 2, 2019, *Public Notice* that sets out the procedures the FCC will follow while closed. The important thing is this: the new deadline for uploading issues/programs lists will be the second business day after the day on which the FCC reopens and the OPIF becomes available again. So, for example, if the government reopens on a Monday, the deadline for uploading would be Wednesday at midnight. When you complete the uploads, be sure you include on each such upload the following statement:

“This report was prepared prior to January 10, 2019, and it was ready for upload to the station’s online public inspection file by that date, but because of the U.S. Government shutdown, the upload could not be completed by January 10, 2019.”
