Second Quarter, 2019

07/08/2019

WNTM

Quarterly Issues/Programs List

---

WNTM provides its listeners with programming and public service announcements that address issues of concern to our local community. Among the issues determined to be of most concern to the community during the preceding calendar quarter were:

- **Criminal Justice System:** Mobile County District Attorney Ashley Rich talks about the challenges of getting those who are arrested through the criminal justice system in a timely manner, with budget cuts in the court system. She also talked about issues with the board of pardons and paroles letting criminals out too soon.
- **Education:** Dr John Valentine, director of the Dauphin Island Sealab and Helene Hussell, director of the SeaLab foundation, talk about the mission of the Dauphin Island Sea Lab, to pursue excellence in marine science education, research, coastal zone management policy and public engagement. The program also included information on a public fundraiser for the Sea Lab.
- **Education/Housing:** Jessica Wofford and Freddie Stokes with Fuse Project talk about Dragon Boat Races on June 8th at the Battleship, which raise money to help local children. Fuse Project has identified a neighborhood in Mobile to begin the Purpose Built Community Project. Freddie Stokes talked about meeting with members of that community to get them on board with plans to work together with Fuse Project and local agencies to provide housing, wellness and education within that community, to give residents opportunity. iHeartRadio Mobile/Pensacola was a media sponsor of Dragon Boat and competed in the races. The event was promoted through recorded PSAs, live liners, social media and website community calendar.
- **Healthcare:** iHeart sponsored the inaugural Sista Strut Breast Cancer Walk in Mobile, highlighting the impact of breast cancer in African American women and seeking to educate them on early detection and community resources. Proceeds benefit the Anchor Cross Cancer Foundation and Franklin Primary Health.
- **Hunger:** Feeding the Gulf Coast, formerly the Mobile Bay Area Foodbank, is gearing up for summer feeding programs, to make sure that students who usually get free meals during the school year have hot meals available during the summer. Also talked about the Backpack program, sending meals home for the weekend during the school year, for students who may not have sufficient food at home. Talked about ways to volunteer

and ways to donate to Feeding the Gulf Coast

- **Politics:** Former state representative Paul DeMarco talks about the latest in politics in Washington and Alabama, including the Abortion Bill and Gas Tax legislation being discussed in Montgomery.
- **Public Safety:** Mobile Public Safety Director James Barber talks about gun crime in Mobile and measures homeowners can take to protect themselves, including locking their cars. Barber says organized rings of gun traffickers are going through neighborhoods looking for guns in unlocked cars, but a PSA effort to get owners to lock vehicles has reduced gun thefts 40%. Barber talked about how police are working in problem areas of the city, with 2 local programs that have gone national... one focusing on 9th grade youth to keep them in school and out of trouble; the other focusing on nonviolent criminals, giving them a Second Chance to avoid jail and work in the community.
- **Taxes:** Because of tax law changes, IRS agent Alejandro Castro Nunez recommends taxpayers do a paycheck checkup. That way they can ensure they have proper withholding and are prepared for next year's taxes.
- **Tourism:** Visit Mobile is projecting a record summer for convention tourism in Mobile. Tara Ziemann talks about recruitment of conventions and sporting events, promoting Mobile as a tourist destination, coordinating efforts with Carnival Cruise line, and enlisting the support of citizens and local tourism businesses (hotels, restaurants, attractions) to promote Mobile.
