The Issues Programs Reports for Q4 2021 were submitted on time, but were not able to be uploaded to the FCC online Public Inspection File due to a problem with the FCC system. Each time the reports were submitted we received a message saying the FCC upload had failed. Please see the attached notifications and tracking number from the FCC Help Desk beginning January 5 as they worked to resolve this issue. It took them several weeks to resolve the problem and we continued to call and keep in touch with the FCC throughout the process. This explains the date of submission for these reports.

Each mention was approximately :30 - :60 in length. It's Breast Cancer Awareness Month and 105 The Hawk Cares about you and your health. We have partnered with Idaho Falls Community Hospital, Mountain View Hospital and Teton Cancer Institute to make it easier than ever to get a mammogram. Go to 1055TheHawk.COM and download your coupon for a discount mammogram today. Idaho ranks 50th in the nation in breast cancer screening. Remember early detection is key. Get your discount mammogram coupon now at 1055TheHawk.COM. 1 in 8 women in America will be diagnosed with breast cancer in her lifetime. The most significant risk factors for breast cancer are being a woman and growing older. So get your baseline mammogram now and follow your doctor's recommendation after that. Twelve point four percent of women in the United States will develop breast cancer over the course of her lifetime. This makes breast cancer the most common cancer among women after skin cancer. On average, every 2 minutes a woman is diagnosed with breast cancer and 1 woman will die of breast cancer every 13 minutes. Each year, approximately 70,000 men and women age 15 to 39 are diagnosed with cancer in the United States. Breast cancer is also the most common cancer for women in this age group. Most women, about eight out of 10, who get breast cancer do not have a family history of the disease.
