Traffickers have also been taking advantage of the situation by charging exorbitant fees. SPECIAL EDITION of "60 MINUTES" (8:00 - 9:00p)

"An Unlikely Informant" – a report on Michael Blutrigh, a white collar criminal turned undercover informant. Blutrigh was a lawyer and owned the Scores strip club in New York City, where he was being extorted by the Mob. He opened Scores with money he'd stolen with partners from the National Heritage Life Insurance Company in Florida -- theft totaling four hundred and forty million dollars. To avoid anticipated punishment, Blutrigh cooperated with the FBI to gather evidence against the Mob. According to authorities, Blutrigh recorded about one thousand hours of conversations with mobsters, which led to the indictments of many

Mafia members in 1998 including John Gotti Junior, whom the FBI considered the acting boss of the Gambino crime family. Blutrach served no jail time for racketeering, tax evasion, and receipt of obscene materials in New York; but in Florida he served thirteen years in prison for insurance fraud. Also includes interviews with: Stephen Sergio, alleged associate of the Gambino crime family; Joe Judge, former FBI investigator; Judy Hunt, former Assistant U.S. Attorney; Bill Ready, New York FBI agent; and Art Leach, former prosecutor. (C: Anderson Cooper – P: Deirdre Cohen, Sarah Koch)

06/14/15 **“The Spill at Dan River”** - a report on Duke Energy, America’s biggest utility company, and its approach to handling the over 100 million tons of coal ash waste it has accumulated in thirty-two ash pits, or “ponds” in North Carolina. A spill in the Dan River in February 2014 has exacerbated this problem. There are no federal regulations in place for the removal of coal ash. Duke Energy is considering these removal options: using lined landfills, which entails lining the bottom and top of the ponds but leaving the ash there; or the less costly option of cap in place, which only covers the top of the pond. Includes interviews with: Lynn Good, Duke Energy CEO; Governor Pat McCrory (R-NC); and Frank Holleman, attorney for Southern Environmental Law Center. Also includes comments by Kemp Burdette, a local (NC) environmentalist. (C: Lesley Stahl – P: Shachar Bar-On) (OAD: 12/07/14 - includes an update)

06/28/15 **“The Tax Refund Scam”** – a report on a tax refund scam that has gone viral, costing tax payers 5.2 billion dollars with no end in sight because the IRS (Internal Revenue Service) has not found a way to stop it. For the scam, con artists utilize stolen social security numbers to file bogus tax returns online and collect a refund check from the IRS -- all before the identity theft victims have filed their own return. Includes interviews with: Wifredo Ferrer, U.S. Attorney for Southern Florida; George Piro, Special Agent at the FBI’s Miami Field Office; Corey Williams, scam perpetrator arrested for committing tax fraud; John Koskinen, Commissioner of the IRS; and North Miami Beach Police Officer partners George ‘Rocky’ Festa and Craig Caitlin. (C: Steve Kroft – P: Ira Rosen) (OAD: 09/21/14 - includes an update)

48 HOURS

04/04/15 **48 HOURS: “The Accidental Husband”** - a report on Harold Henthorn, a twice-widowed man from Colorado whose two wives both died in unusual accidents, and whose changing account of events led family members to suspect that he murdered them. In 2012, Harold Henthorn surprised his wife Dr. Toni Henthorn, a successful ophthalmologist, with a weekend hike in Rocky Mountain National Park to celebrate their anniversary -- only to have it end in her death from a fall. Henthorn’s version of events to family members changed several times and they began to doubt his account of events and to suspect he was responsible for her death. While reporting on the case, investigative reporter Brian Maass received an anonymous email stating Henthorn’s first wife died in a freak accident as well. Maass looked into the accident and discovered first wife Lynn Henthorn had died 17 years earlier in another freak accident. He found: (1) both accidents occurred in very remote locations in Colorado; (2) Henthorn was the only witness; (3) the accidents were extremely unusual; (4) he had told numerous versions of the events; and (5) both wives had large life insurance policies, with him as the sole beneficiary. Federal investigators also discovered that Henthorn had not worked for the past twenty years. He had also taken out a fraudulent policy worth millions on his ex-sister-in-law, Grace Rishell, who now believes she was to be his next target. In 2014, two years after Toni Henthorn’s tragic death, federal authorities arrested and charged Harold Henthorn with her murder. His trial is scheduled to begin in the fall. **On-screen text graphic:** A judge will decide if Lynn’s death can be included in Henthorn’s trial for the murder of Toni. Henthorn has yet to receive any proceeds from Toni’s life insurance. Harold Henthorn declined our request for an interview. Interviewed: Barry Bertolet, Yvonne Bertolet and Bob Bertolet (Toni Henthorn’s brother and parents); Daniel Jarvis (friend of Harold Henthorn); Tammi Abbruscato, Christie Drews (Toni Henthorn’s co-workers); Brian Maass (investigative reporter); Grace Rishell (ex-sister-in-law of Harold Henthorn and Lynn Henthorn) and daughter Laura Rishell; Ann McNally, Nancy Hodges (co-workers of Lynn Henthorn); Patricia Montoya (offered aid during first accident); Lora Thomas (Douglas County Coroner); Arnold Wheat (48 HOURS consultant/ accident reconstruction specialist). (C: Peter Van Zant - P: Ruth Chenetz, Lindsey Gutterman)

04/11/15 **48 HOURS: “Death After Midnight”** - a report on the 2012 death of Ashley Fallis, a married mother of three who was found with a single gunshot wound to the head in the bedroom of her Evans, Colorado home. What is unknown is whether it was suicide, as her husband Tom Fallis maintains, or was it murder, as Ashley’s parents insist. Following a New Year’s Eve party at her home, Ashley’s parents left, as they had in the past, when Fallis got nasty. What happened next is uncertain: Tom Fallis maintains that his wife killed herself with a gun she kept hidden beneath the mattress. Police interviewed him that night, noting he was agitated, gave various versions of events and had scratches on his chest. The coroner ruled Ashley’s

death a suicide and the police closed the case within days. Her parents were convinced their son-in-law had killed their daughter. Fallis moved to Indiana with the children to go to graduate school. In 2014, a local TV reporter began his own investigation after receiving a tip that something was not right. His investigation led to the case being re-opened and handled by a larger police department in the area. 48 HOURS consultant Scott Roder prepared a forensic recreation of events. He concluded that there is evidence that could be consistent with suicide, but there is also a case for an accidental discharge. There also exists some disturbing physical evidence that leaves many questions. Tom Fallis has now, years later, supplied letters written by Ashley that seem like suicide notes. Two years after Ashley's death, Tom Fallis was indicted for murder and arrested in Indiana. He is out on bail, but must remain in Colorado. **On-screen text graphic:** Ashley's parents are fighting for custody of their grandchildren. They have also filed a federal lawsuit against the Evans Police Department, alleging police misconduct. Authorities found no evidence to bring criminal charges against Evans Police Officer Michael Yates for the alleged discrepancies in his report. The court has not yet set a date for Tom Fallis' trial. Interviewed: Jenna Fox and Joel Raguindin (parents of Ashley Fallis); Bryce Fox-Raguindin (brother); Chief Rick Brandt (Evans, Colorado Police Chief); Justin Joseph (KDVR-TV reporter); Scott Roder (forensic recreation specialist). (C: Erin Moriarty - P: Lindsey Gutterman, Alec Sirken, Lauren Clark, Chuck Stevenson, Chris Young Ritzen, Doug Longhini)

04/18/15

48 HOURS: "To Catch a Genius"- a report on the 1994 death of Linda Curry, a non-smoker who was found dead with a lethal amount of nicotine in her system, and the investigation which ultimately determined that it had been given to her, without her knowledge, by her husband, "Jeopardy" champion Paul Curry. Career woman Linda Curry worked at Southern California Edison San Onofre Nuclear Power Plants. She had many close friends; she dated, was a spendthrift, and owned a big house in San Clemente, California. At work, she met the much younger engineer Paul Curry. He was extremely smart, rubbed many people the wrong way, was a member of Mensa, and bragged about winning thousands of dollars on "Jeopardy". Only after they married in 1992, did she learn of Paul's two ex-wives and three children. She had several life insurance policies; Curry was the beneficiary on some. Curry also asked her to take out an additional \$1million policy, but she never did. Friends told her to dump him. In 1993, she became violently ill, needing hospitalization: poisoning was suspected after lab workers discovered lidocaine in a contaminated IV bag. The investigation focused on one person: Paul Curry. Five months later, she was again hit with a mystery illness. Her IV bag again was again tampered with. Friends believed that Curry wanted to kill Linda and cash in -- but Linda remained loyal. Six months later, Linda died. The cause of death was attributed to nicotine poisoning and Ambien overdose. Her death was ruled a homicide, but Paul Curry was never charged. Linda had drafted a note giving her sister half of her estate. Curry was beside himself even though she left him the house and close to a half-a-million dollars. The case grew cold. Afterwards, Paul Curry's lies came to light: he was a complete fraud. He was not an engineer; in fact, he did not even have a college degree. He left town. In 2002, the case was re-opened by the Orange County Sheriff's Department. In 2008, Sergeant Yvonne Shull felt she had enough information to present to the prosecutor. Curry was located in Salina, Kansas where he was living a new life. He was tricked into a meeting, believing he was talking to local detectives, but all the while talking to Sergeant Shull. Using the information he spoke about in the interview, he was arrested and charged with murder. At trial, the prosecutor used Mark Curry's own words to win the case. Curry was found guilty of murder in the first degree. **On-screen text graphic:** In her will, Linda Curry left ten thousand dollars each to ten special friends, including Merry Seabold and Frankie Thurber. Interviewed: Merry Seabold, Bill Sandretto, Frankie Thurber (Linda Curry's friends); Ebrahim Baytieh (Orange County Prosecutor); Mike Flower (Paul Curry's boss); Sherry Bundy (Registered Nurse); Sergeant Yvonne Shull (Orange County Sheriff's Department); Dr. Neal Benowitz (Professor of Medicine, University of California, San Francisco). (C: Erin Moriarty - P: Paul LaRosa, Gayane Keshishyan)

04/25/15

48 HOURS: "The Verdict" - an investigation into the 2010 death of Robert Cline in Seminole County, Florida, and the case against Anita Smithey, who was convicted of second-degree murder for killing him, her estranged husband. While the two were in bed, she claims that she was being violently raped and that she feared for her life. Smithey admits she shot and killed Cline, but she asserts it was not murder. Their relationship started out with promise: Cline was a widower with children and Smithey also had kids. After they married, things began to change in their relationship, which Smithey attributed to Cline's addiction to marijuana. He also demanded rough sex. They eventually separated, but continued to meet every Monday for sex. During their last fateful encounter, she says he started to rape her, and then she shot him. She also said he stabbed her with a knife. During a police interrogation, Smithey went from being a victim to a murder suspect when she admitted to stabbing herself. Her attorney maintained that police bullied her into making that statement. The case pitted the couple's extended families against each other, raised

questions about their relationship and whether the shooting was justifiable homicide or murder. Prosecutors argued there was no rape and say the knife wounds were self-inflicted. At the trial's end, which many believe was going the way of the defense, Smითhey's attorney Rick Jancha, mistakenly opened the door to the jury being able to hear the 911 call that had been forbidden to be used. Smითhey was found guilty. Just before sentencing, her attorney suffered a fatal heart attack, and another attorney has stepped in to plan an appeal. The Cline family continues to maintain that Smითhey was the abuser. **On-screen text graphic:** Robert Cline's children were adopted by his sister, Belinda. Anita's children are being raised by her first husband. Interviewed: Anita Smითhey; Drew Smითhey (son); Stephanie Cline (daughter); Belinda Cline (Cline's sister); Jessica Flores (Smითhey's best friend); Daniel Mattingly and Matthew DePanics (detectives); Whitney Boan (Smითhey's current attorney); Phil Andry, Audie Andry (Smითhey's father and brother); Stacey Salmons and Kelly Jo Hines (prosecutors). (C: Peter Van Sant – P: Chris Young Ritzen, Tamara Weitzman, Patti Aronofsky)

05/02/15

48 HOURS: "A Vision of Murder" - an investigation into the 2010 death of Kelly Brennan, and her friend Sheila Trott's dream in which she perceived Brennan to be in danger. Brennan was later found bludgeoned to death near Mark's Landing in Indiatlantic, Florida and Trott was subsequently arrested for her murder. To some, Trott is a clairvoyant who was able to provide information to help the police; to others, she is a killer. The investigation uncovered an alleged love triangle between Trott, Brennan and Trott's estranged husband, Dan Trott. Trott says she encouraged the match to free herself from a bad marriage; prosecutors believe the relationship led to murder. Prosecutors say Trott spoke about the dream to her mother and her sons, making statements that she had hurt someone -- basically confessing to the crime, as her mother related in a 911 call to police. Four-and-a-half years later, Sheila Trott remains behind bars, awaiting trial. Though the case is admittedly circumstantial, prosecutors believe they have a strong case. As the trial is scheduled to begin, Trott has her own problems. Her lawyer has been disbarred and she must rely on a public defender. They plan to point the finger at Dan Trott. In 2014, as the trial progresses, her two sons take the stand against her -- testifying for the prosecution. Sheila Trott then had a new defense - her dream was really an eyewitness account of what had really happened to Kelly. Her attorneys make no mention of this, but try to pick apart the State's case, pointing the finger at Kelly's jealous husband, Gino Rallo. The jurors reach a verdict: Sheila Trott is guilty of first-degree, premeditated murder. **On-screen text graphic:** Creighton and Graham Trott recently visited their mother in prison. They told 48 HOURS "...We unequivocally believe in our mother's innocence and stand by her." Interviewed: John Copola (Brevard County Sheriff's Department); Lou Iervasi (friend of Kelly Brennan); Sheila Trott; Margaret Byers (Sheila Trott's mother); Major Tod Goodyear (lead investigator); Alison Bartlett (friend of Sheila Trott); Samantha Barrett and Jim McMaster (prosecutors); Todd Deratany (former defense attorney). (C: Peter Van Sant - P: Taigi Smith, Clare Friedland, Michelle Feuer, Alicia Tejada)

05/09/15

48 HOURS: "Father and Son: The Verdict" - a followup to "Father and Son" (OAD: 04/12/14), a report about the 2011 death of Uta Von Schwedler, and her son Pelle Wall's efforts to prove that his father, pediatrician Dr. Johnny Wall, was responsible for her death. Von Schwedler, a university research scientist, was found dead in the bathtub of her Salt Lake City, Utah home by her boyfriend Nils Abramson. The cause of death was listed as "undetermined", leaving open the possibility of suicide. Investigation revealed long-standing issues between the divorced couple. Pelle Wall believed his father to be responsible and was determined to prove it. He risked everything, including his relationship with his father and future financial security, by filing a wrongful death suit against his father. This caused the authorities to re-examine the case. Dr. Wall was charged with murder. The trial began in February 2015. DNA results did nothing to clarify things and the trial became a battle of expert witnesses, with the defense suggesting Nils Abramson was responsible. Although Johnny Wall did not testify in his defense, it was ultimately his own words, in an interview with police, which led to his conviction. Original on-screen text graphic: Johnny Wall is expected to stand trial for murder by the end of 2014. Tomorrow, April 13th, is Uta Von Schwedler's birthday. **On-screen text graphic for the 05/09/15 followup:** Just a week before her death Uta Von Schwedler had made a breakthrough in childhood leukemia. Johnny Wall is scheduled for sentencing in July. Interviewed: Pelle Wall; Klaus Fiebig (family friend); Heidi Schubert and Orly Ardon (friends of Uta Von Schwedler); Wendy Wall (Johnny Wall's sister); Fred Metos (defense attorney); Nils Abramson (Von Schwedler's boyfriend); Amy Oglesby (Pelle Wall's family friend). (C: Susan Spencer – P: Marcelena Spencer, Josh Gelman, Aimee deSimone, Avi Cohen)

05/16/15

48 HOURS: "Janet's Secret" - a report on the murder of Janet Walsh and the 34-year search to find her killer, as new forensics technology allows detectives to re-examine evidence left from the initial investigation into the death of the Monaca, Pennsylvania woman in 1979. In a case which confounded investigators from the start, 23-year-old Janet, who had recently separated from her husband, Scott Walsh, was found dead in her bedroom after a night out dancing. Investigation led to a long list of suspects: (1) her husband Scott Walsh; (2) Robert McGrail, a man she met dancing; (3) Ron Ciccozzi, her boss; (4) an unidentified man; (5) Victor Ciccozzi (says he dated her/ no relation to Ron); and (6) Scott Hopkins, a secret lover. The case turned cold;

no one was ever arrested. In 2011, a cold case unit took a second look at the case. They re-interviewed the suspects and using technology not available at the time, they were able to identify DNA from the sheets, nightgown and bathrobe tie. Police and prosecutors eliminated everyone except Scott Hopkins, an influential retired businessman/politician. In 2012, Hopkins was arrested. At trial, the prosecution used the DNA evidence to define the case, even calling celebrity forensic pathologist Cyril Wecht to testify. The defense countered with an expert of their own, but in the end, Hopkins was convicted of third-degree murder. **On-screen text graphic:** Hopkins is appealing his conviction based on several arguments. Among them: science cannot determine the time a DNA sample is left at the crime scene. Interviewed: Andy Gall (Assistant Chief of Detectives, Beaver County District Attorney's Office/ original investigator); Francesco Caltieri (Janet Walsh's brother); Brittany Smith and Frank Martucci (prosecutors); Rich Matas (Pennsylvania State Trooper); Sue Niedergal (friend of Janet); Scott Walsh (husband); Robert McGrail (suspect); Rocco Demailo (cold case detective); Scott Hopkins; Larry and Georgeann Musgrave (Hopkins' friends); Karen Hopkins (Hopkins' third wife); Chad Bowers (Hopkins' defense attorney); Dr. Cyril Wecht (forensic pathologist); and Dr. Mark Perlin (defense expert). (C: Peter Van Sant - P: Susan Mallie)

05/23/15

48 HOURS PRESENTS: "Cal Harris: Deadlocked" - a followup to "A Time to Kill" (OAD: 06/24/08), updated (02/13/10). A review of the case against Cal Harris, whom prosecutors in Northern New York believe is guilty of killing his estranged wife, Michele, to preserve his fortune. This followup report includes the first interview with Cal Harris. Twice, he has been tried and found guilty, and twice those convictions have been overturned. Harris has claimed that Michele did not return home on September 11, 2001. He denied any involvement in her disappearance and suggested to investigators that they take a closer look at her personal life. Investigation discovered she was involved with two different men, both of whom had seen her on the night she disappeared. Two days after the initial search, blood specks were found in the home, making it a potential crime scene. Focus shifted to Cal, and in 2005, without a body or a murder weapon, Harris was arrested for his wife's murder. He was tried and convicted in 2007, but while awaiting his sentencing, a new witness emerged, and the conviction was overturned. In 2009, a jury reached the same verdict. The case was overturned on appeal. In February 2015, Harris went on trial for the third time, but not in Tioga County where he lives, but in Schoharie, NY, with a new defense team, a new prosecutor, a new judge and new rules. Despite all this, after 12 days of deliberation, the judge was forced to declare a mistrial. Harris is out on bail, but his future is far from certain. **On-screen text graphic:** Lawyers are scheduled to meet in August to set a date for a fourth trial. Interviewed: Cal Harris and his children: Cayla Harris, Taylor Harris, Jenna Harris, Tanner Harris; Barb Thayer (nanny); Nikki Burdick (Michele's friend); Cindy and Tom Turner (friends of the couple); Greg and Shannon Taylor (Michele's brother and sister-in-law); Bruce Barket and Donna Aldea (Harris' attorneys); Sue Mulvey (NY State Police senior investigator); Mike Myers and Mike Young (investigators); Steve Anderson (NY State Police forensic specialist); Brian Earley (boyfriend of Michele Harris); Kevin O'Hara (Cal Harris' friend); Jerry Keene (DA, Tioga County); Kevin Tubbs (local farmer); Kirk Martin (District Attorney). 48 HOURS: "Kiss of Death and the Google Exec" (10:00 - 11:00p) - an updated rebroadcast about the investigation into the 2013 drug-related death of Google executive Forrest Hayes and an investigation of Alix Tichelman, the woman charged with killing him, whose ex-boyfriend also died of a lethal overdose. Hayes, a successful, wealthy, married Santa Cruz, California technology genius was found dead from a heroin overdose aboard his 46-foot yacht. The yacht had been outfitted with a sophisticated security system, which eventually led investigators to Alix Tichelman, a young woman with whom he had a secret liaison aboard the yacht. Hayes and Tichelman met on an online dating service known for connecting wealthy men with women looking to be spoiled. The video footage recorded Tichelman injecting Hayes, cleaning up the scene and stepping over him to leave. At issue is whether Tichelman knew Hayes was in distress when she left, as police maintain, or if his death was accidental, as public defenders representing Tichelman claim. Tichelman led a troubled life which included eating disorders, drugs, and specialized schools. Investigators learned that just months before Hayes' death, Tichelman's then-boyfriend, Dean Riopelle, an Atlanta night club owner, also died from a heroin overdose. After an elaborate sting, Tichelman was arrested for the death of Forrest Hayes. Riopelle's death, originally classified as accidental, is being given a second look by Georgia authorities. **UPDATE: On May 19, 2015, after nearly a year in jail, and now clean and sober, Tichelman pleads guilty to involuntary manslaughter as well as lesser charges and is sentenced to six years in the local jail, but with credit served, she will likely serve just over two years. Then, a bombshell from the prosecution: the Hayes family told them they never wanted Alix Tichelman charged and would have been happy if the case had been dismissed. They never wanted the video from the yacht from the incident and the previous six months to be made public, as the public defenders has been requesting for months. On-screen text graphic for the 05/26/15 updated rebroadcast: Alix Tichelman is expected to be released July 1, 2017. She will be 29 years old.** On-screen text graphic: Alix Tichelman pleaded not guilty to manslaughter in the

death of Forrest Hayes, and pleaded not guilty to prostitution and drug charges. Tichelman's next court appearance is on February 23, 2015. If convicted of manslaughter, Tichelman could face a maximum of fifteen years in prison. Interviewed: Stephen Baxter (Santa Cruz Sentinel/48 HOURS Consultant); Michael Daly (Daily Beast investigative reporter/48 HOURS Consultant); Steve Clark (Santa Cruz Deputy Police Chief); Brandon Wade ("Seeking Arrangement" dating website owner); Chad Cornell (Tichelman's boyfriend); Ashley Kent (dorm mate at the Hyde School); Khristina Brocker (Dean Riopelle's former assistant); Jerry Christense and Larry Biggam (Tichelman's public defenders); Alex (no last name/schoolmate); Todd (no last name/friend of Riopelle's) (C: Maureen Maher - P: Allen Alter, Patti Aronofsky, Elena DiFiore; Producers for the 05/26/15 rebroadcast: Allen Alter, Patti Aronofsky, Alec Sirken, Elena DiFiore) (OAD: 01/24/15)

48 HOURS: "Last Chance for Freedom" - a followup to "Reasonable Doubt" (OAD: 11/01/99), and its retitled rebroadcast, which included an update, "Impossible Mission" (OAD: 07/10/00). This followup continues the report on Crosley Green, who in 1990, despite his claims of innocence, was convicted of the murder of Charles "Chip" Flynn in a Titusville, Florida orange grove and sentenced to death. Green has spent the last 26 years, with help from lawyers and private investigators, trying to prove his innocence. This report reveals new evidence that suggests Crosley Green is innocent. At the time of the murder, Green was a small-time drug dealer who said he was two miles away when Flynn was killed. Green was arrested after Flynn's former girlfriend, Kim Hallock, told police that she and Flynn had been carjacked by a black man with a gun and driven to a remote orange grove. Flynn was killed, but Hallock escaped. She identified Green from a picture photo lineup. Green's state appeals -- nine of them -- are now exhausted, but his current attorneys Keith Harrison, Bob Rhoad and Jeane Thomas, along with an original private investigator Joe Moura (now a 48 HOURS consultant) have one last hope: federal court. They believe they have enough evidence that the conviction is part of a distinct pattern and practice of government misconduct in Brevard County. Three other men, Bill Dillion, Juan Ramos, and Wilton Dedge have had their convictions overturned; two of them were prosecuted by Christopher White. Green's attorneys believe that what makes this case different is a mountain of evidence that demonstrates Crosley Green is actually innocent. At the heart of their case are notes from Assistant State's Attorney Christopher White's meeting with officers Mark Rixey and Diane Clarke (who speak to 48 HOURS for the first time). Green's lawyer says that their notes say they think the girl (former girlfriend Kim Hallock) killed Flynn. White is asked about the possibility that Flynn's death was a result of something other than intentional murder. He says he believes the judicial system worked. **On-screen text graphic:** The Florida Attorney General's Office is fighting to uphold Crosley Green's conviction. They say Green failed to meet a filing deadline for his appeal. Interviewed: Crosley Green; Keith Harrison, Bob Rhoad, Jeane Thomas (Green's attorneys); Tim Curtis (bodyshop owner/friend of Chip Flynn); Joe Moura (private investigator/48 HOURS Consultant); Sheila Green (sister); Lisa DiMeo (criminologist); Mark Rixey and Diane Clarke (Brevard County officers); Christopher White (prosecutor); Bill Dillion (falsely convicted); Mike Pirolo (Dillion attorney); Wilton Dedge (falsely convicted). 48 HOURS: "Temptation in Texas" (10:00 - 11:00p) - a followup to "Temptation in Texas" (OAD: 05/03/14), a report about the 2011 shooting death of Greg Williams, and the question of whether he was killed with his own gun by an intruder inside his suburban Dallas home - as his wife Michele Williams has claimed - or if Michele herself was guilty of the crime. Investigation exposed a web of strained family relationships, bondage/domination allegations, claims of extramarital affairs, and estranged relatives, including Michele's own children from previous marriages. Michele changed her story to say that Greg killed himself and she cleaned up the scene to protect their young daughter from the truth. Police believed Michele was the killer, but with little physical evidence, the district attorney offered a plea deal - plead guilty to tampering with evidence and "deadly conduct". She accepted. While being interviewed by 48 HOURS for the original broadcast, Michele changed her story once again, contradicting herself. The judge threw out the deal and ordered her to stand trial for murder. During the trial, Michele changed her story again, this time saying it was a suicide. The prosecution used the 48 HOURS interview to their advantage, because she had added an additional fact, claiming that it was not only an intruder, but that she thinks she knew who it was. She was found guilty of murder. Following the conviction, Michelle Fletcher, Greg Williams' sister and the widow of his best friend, Brynn Fletcher, says that she now believes that Michele Williams was also somehow responsible for Brynn's death, also by gunshot, which authorities had classified as a suicide. She suggests that Fletcher was about to tell her brother truths which Michele Williams did not want Greg to learn about. Michele Williams denied any involvement. **On-screen text graphic:** Michele Williams was sentenced to sixty years in prison. She will be eligible for parole in thirty years at age seventy-four. Included are 2014 interviews with Michele Williams, Laura Cuisick (Michele's sister); Andrew and Lee O'Brien (Michele's sons); Gene Wallis (Michele's fiancé); Taylor Williams (Greg's daughter). 2015 interviews include: Jack Strickland (prosecutor); Michelle Fletcher (Greg's sister); Michael Williams (Greg's brother); Cody Cofer (defense attorney). 48 HOURS: "Mommy Dearest" - a report on the case of Linda Cooney, a woman who became the center of attention in two shootings - two decades apart - both with the same gun. Linda Cooney, shot her ex-husband, attorney James Cooney, while her 10-year-old son Kevin, peeked out of a hole in his bedroom door. The case rocked their exclusive Palm Beach, Florida enclave and captivated locals when the aspiring socialite went on trial for murder. Investigators say she was found not guilty, largely on the weight of Kevin's testimony. Locals believed she had gotten away with murder. Cooney left Palm Beach, ending up in Las Vegas with her sons. In 2011, Linda Cooney reported another shooting; this time her son Kevin had a gunshot wound to the neck and would end up being paralyzed. Investigation revealed the gun used to shoot Kevin was the same one that had been used to shoot his father. Authorities were shocked when they found out she had asked to have the gun returned to her after the acquittal. Prosecutors believed Linda Cooney was desperate to control her grown sons and tried to kill Kevin because he wanted to move out. The defense painted a different story: Kevin was mentally unstable and accidentally shot himself. But the story that Kevin actually tells about his mother at trial startles everyone -- he himself claims that it was an accident, even though he had told the nurses in the hospital the opposite. However, in the end, it is not enough and Linda Cooney is found guilty on all charges. On-screen text graphic: After the verdict, Bob Cooney tried to visit Kevin. Kevin refused to see him. **Updated 06/06/15 On-Screen Text Graphic:** After the verdict, Bob Cooney tried to visit Kevin. Kevin refused to see him. Both Kevin and Christopher feel their mother's verdict was just and hope it is overturned on appeal. Kevin and Christopher talk to their mother on the phone every week. Interviewed: Las Vegas Detectives Robert Schmidt and Lance Landholm; Las Vegas prosecutors Shanon Clowers and Michael Staudaer; Bob Cooney, brother of James Cooney; Palm Beach gossip columnist Jose Lambiet; Lt. Scott Smith; former girlfriends of Kevin Cooney, Karina Taylor and Clarita Kendall; Linda Cooney's attorney Michael Becker. 48 HOURS: "The Millionaire, The Model & The Hit-Man" (10:00 - 11:00p) - an investigation into the relationship between Dino Guglielmelli, a millionaire health supplement distributor/ wannabe rock star, his model wife, Monica Olsen, his business partner/presumed hitman Richard Fuhrmann, and the \$80,000 "hit" Guglielmelli ordered on his wife. In 2008, Olsen, a model-turned-housewife, wanted to re-start her career, Guglielmelli was not happy. He became very controlling, dating other women and eventually filing for divorce. He tried various schemes to discredit his wife. In 2012, when he couldn't get his way in the divorce, he confided his problems to business associate/friend Richard Fuhrmann, asking him to "take care" of his wife; Fuhrmann told Guglielmelli that he would take the job. Instead of murdering Olsen, he went to the authorities in Los Angeles, California, and agreed to wear a wire. In October 2013, Fuhrmann got Guglielmelli to repeat that he would pay \$80,000 to have Olsen killed. To the authorities, it was a clear-cut case of murder for hire; Guglielmelli was arrested. Guglielmelli, in a telephone interview from jail, claims he is the victim; he was conned by Richard Fuhrmann. Authorities agree that Fuhrmann is a con man, but the conspiracy to kill Olsen was very real. In a surprise move, they offered Guglielmelli a plea deal: plead guilty to attempted murder in the second degree and serve only nine years in jail. He accepted. In a telephone interview from prison, Guglielmelli discusses his decision. Olsen is proceeding with the divorce and worries about the future. Fuhrmann fears what will happen when Guglielmelli is released from prison. **On-screen text graphic:** Because Dino took a plea deal he cannot appeal his conviction. Interviewed: Dino Guglielmelli; Monica Olsen; Rick Fuhrmann; Emilio Guglielmelli (brother), Gino Guglielmelli (brother); Letitia Devine (Dino's ex-wife); Olya Banar (Monica's friend); Emily Cole (Deputy District Attorney) (C: Troy Roberts - P: Judy Rybak, Greg Fisher) (OAD: 01/31/15)

48 HOURS: "Wounded by Love" - an investigation into the death of Phillip Peatross, who was shot in the bedroom of his girlfriend, Caryn Kelley. Kelley claimed Peatross shot himself, but the police suspected foul play. After a night of drinking and arguing, Peatross left Kelley's Orlando, Florida home. Later that night, Kelley, believing an intruder had gained access to her home, drew her gun. She then realized the "intruder" was actually Peatross. Kelley says there was a struggle for the gun, with Peatross telling her "I'm not going to live my life without you," and then he shot himself. He was dead at the scene. Police were initially leery of Kelley's story and interviewed her on cell phone video immediately following the shooting. This video became important to the case when police claimed that she changed her version of what happened days later. Famed Orlando Chief Medical Examiner and reality show star Dr. Jan Garavaglia also had doubts about Kelley's version of events. Kelley was arrested and charged with Peatross' murder. Secrets then came to light regarding Peatross: he was still married, which was one of the reasons a previous girlfriend had left him, something Caryn Kelley was unaware of. Throughout her ordeal, Kelley always said that Peatross was responsible for his own death. In May 2013, the trial began, with prosecutors using what they said were Kelley's different stories, along with autopsy findings to build their case. Kelly's lawyer was able to use the cell phone video and differing forensic opinions to Kelly's

advantage, and she was found not guilty. **On-screen text graphic:** Caryn Kelly's gun was legal in Florida. The State does not require gun owners to register firearms. Interviewed: Caryn Kelly; Tamara Lawton, former girlfriend of Phillip Peatross; Diana Tennis, Kelley's defense attorney; Dr. Jan Garavaglia, Orlando Chief Medical Examiner; and Matt Conway, forensic scientist, Florida Department of Law Enforcement. 48 HOURS: LIVE TO TELL: “One Last Hug” (10:00 - 11:00p) – an updated report on growing dangers of dating and breakup violence, focusing on Melissa Dohme, who agreed to meet a former boyfriend, Robert Murton, for one last hug before they broke up forever. The decision nearly cost her her life: in an instant, she was stabbed 32 times and left for dead. Their relationship had started out lovingly, but Burton told her if she ever broke up with him, he would kill her. The couple eventually split up and Burton began calling her. He woke her up on the night of January 24, 2012 and begged her for one last hug. She agreed to meet him in front of her Clearwater, Florida home. After the attack, a police officer responding to the scene did not believe Dohme would survive. Melissa Dohme, police, EMS, doctors and Dohme's family describe their learning of the attack, Melissa's treatment, the hunt for Murton, her recovery, facing her attacker in court... and how this event led her to find a solid relationship and a new purpose in life. Also included is an interview with Audrey Mabrey, herself a victim of a domestic attack. Her husband, Chris, an NYPD officer, bludgeoned her with a hammer and set her on fire. Epilogue: the men who attacked Melissa Dohme and Audrey Mabrey will spend the rest of their lives behind bars with no chance of parole. Melissa and Audrey believe they were spared to help themselves and others. Both are advocates at Hands Across the Bay, an organization founded by philanthropist Julie Weintraub, whose goal is to prevent domestic violence and help families in crisis. **VIDEO EPILOGUE:** Eighteen months later, life has changed for the better for Melissa Dohme. 48 HOURS: “Kristen's Secret” - a report about Kristen Cunnane, a former All-American swimmer who kept quiet about years of sexual abuse by a trusted female teacher and how her decision to go public led to the revelation that she was not alone: by speaking out, she gave three other women at the same school the strength to come forward. Cunnane was a student at Joaquin Moraga Intermediate School in Moraga, California. She caught the eye of gym teacher Julie Correa and they became close friends. Two years later, Correa began her abuse; Cunnane felt powerless to do anything about it. Correa became increasingly obsessed with Kristen, even slipping into the girl's home and hiding in the closet. In 2010, Cunnane's memories resurfaced. She was diagnosed with PTSD (Post Traumatic Stress Disorder). Eventually, with the help of her former high school sweetheart, now-husband, Scott, she went to the police. Despite being in possession of physical evidence, the police asked her to call Correa and attempt to get her to confess to the abuse. She cooperated and Correa was arrested. Cunnane then went public with the story and as a result, three other women who also attended the same school came forward: the three had been sexually abused - in the same time period - by a different teacher, Dan Witters, a popular science teacher. It was discovered that administrators knew of Witter's abuse and did nothing. In the fall of 1996, Witters, in the midst of allegations of misbehavior, committed suicide and the story died too. The Moraga School District eventually paid out a multi-million dollar settlement to the women, and the current administration apologized to the women who were abused. Julie Correa worked out a plea deal and was sentenced to eight years in prison. Original on-screen text graphic: The School District paid out a total of \$18.65 million to Kristen Cunnane and the three other victims who filed civil lawsuits. Julie Correa is eligible for parole in 2018. In May 2013, Kristen gave birth to her first child, a baby girl. **On-screen text graphic for the 06/20/15 rebroadcast:** The school district paid out a total of 18.65 million dollars to Kristen Cunnane and the three Jane Does who filed civil lawsuits. 48 HOURS: “Devil's Island” (10:00 - 11:00p) - an updated rebroadcast on the disappearance and death of Yvonne Baldelli, a California woman who moved to Panama with her boyfriend Brian Brimager, an ex-Marine trying to make a go of it as a bar singer, but who turned out not to be as perfect to her as he seemed. Baldelli routinely sent happy emails to family members, but they suddenly stopped. About a month after the last message, Yvonne's sister Michele Valenzuela got a text from Brimager saying he was

back in the U.S., but without Baldelli. He had sent an email that he and Yvonne had broken up, which was somehow overlooked by her family. Police went to Panama and back to San Diego. The family learned that Baldelli and Brimager were not as happy as had been suggested. There were stories of heavy drinking and fighting. They learned Brimager was leading a second life and had gotten married to Kristin Werkoven. Even though Michele Valenzuela was sick with cancer, her hunch about the origins of an email allegedly from her sister Yvonne, set her on a mission to prove Brimager had murdered Yvonne. In Panama, police searched for a body. The FBI joined the investigation to search waters in Panama. Finally, forensic analysis yielded a positive result: Brimager was arrested by the FBI and is now in custody. Since the arrest, Yvonne Baldelli's remains have been found: she never left Panama. Original On-screen text graphic: Michele Valenzuela lost her brave battle to cancer last week. The United States is in talks with Panama to move the prosecution of Brian Brimager for Yvonne's murder to San Diego. **UPDATE:** In April 2015, five months after the death of Michele Valenzuela, and following complex negotiations between Panama and the United States, it was announced that the United States will prosecute Brian Brimager for the murder of Yvonne Baldelli, as a foreign murder of a U.S. national. Now, the family is one step closer to justice for Yvonne and to bringing her remains back to the United States for burial. **On-screen text graphic for the 06/23/15 updated rebroadcast:** Brian Brimager is due in court next week. A federal judge is likely to set a trial date. Interviewed: photographer Jack English; Yvonne's sister Michele Valenzuela; her father and step-mother Jim and Lillian Faust; Yvonne's niece Lauren Beyer; local bar owners in Panama: Stephen and Joan Crabtree, Penny Tom, Jeff Salzman; Brian's friend Jim Mertens; and ex-U.S. intelligence officer Don Winner. 48 HOURS: "Dangerous Beauty" - a report on the 2003 murder of Russel Douglas on Whidbey Island, Washington, and how the investigation led to the involvement of Peggy Sue Thomas, a one-time Washington beauty queen-turned-high-end limo driver. The investigation determined Douglas' marriage was in trouble, his wife Brenna was in debt, and that Thomas had once worked with Brenna. The case went cold until a tipster called police from Florida, saying that his friend and former bandmate, Jim Huden, who was also from Whidbey Island, had admitted to him that he killed Douglas and that Huden's then-girlfriend, Betty Sue Thomas, was also involved. Huden disappeared in 2004, and it was eventually discovered that Huden's wife, Jean Huden, had helped him to get out of the country. In the meantime, Betty Sue Thomas married Mark Allen, a multi-millionaire oilman and thoroughbred horse owner. The marriage was over in seven months with Thomas becoming a wealthy woman. By 2011, Jean Huden's life eventually fell apart, and she began cooperating with investigators. Jim Huden was arrested in Mexico, returned to the U.S., stood trial and was found guilty of murder. Betty Sue Thomas was also arrested. Just weeks before the trial was about to begin, Thomas was offered and accepted a plea deal on a reduced charge of rendering criminal assistance. She still claims she is innocent, but she wouldn't have gotten a fair trial. Original on-screen text graphic: Under the terms of her plea deal, even if additional evidence is uncovered, Peggy Sue Thomas cannot be charged with murder. Peggy Sue Thomas is eligible for parole on August 12, 2016. Jim and Jean Huden are still legally married. They have not spoken in years. **Updated 06/27/15 on-screen text graphic:** Peggy Sue Thomas cannot be charged with murder if additional evidence is uncovered. She is eligible for parole on August 12, 2016. Jim and Jean Huden are still legally married. They have not spoken in years. Bill has passed away in October 2014. 4/19/2015 6AM DAYBREAK SUNDAY	MARLA: ORANGE CRUSH AFTERMATH	because I walked a good bit on the beach and didn't see barely any. The main area where trash can be seen is the parking lot near the pier. There are still a good amount of folks out here wanting to see the sunrise, I asked them if they have seen anyone cleaning up this morning and they said not yet. I got out here around 4:50 and I have not been able to spot anyone myself, I'm sure they will be up working on this in no time though. Many people who have been to orange crush in the past say the level of trash this year is much lower than previous years. She says she heard a door slam and a car speed off but the big mystery is *how* did they steal the car without a key. She says she doesn't keep a spare inside and most millenium- made cars are made to where you can no longer pop out the ignition and use a screw driver to start it. sot- michael schwarz, owner of victory car care "with all the security and the pass locks that are on cars it is extremely difficult -- the easiest way to steal one would be to pick it up an tow it away." But Brooks says from the sound of it-- someone actually got in her car and drove off.sot- crystal brooks, car was stolen "they unlocked the car somehow and they hotwired the car and they stole it."Experts say while it can be done-- it's very difficult -- you've go to bypass the security system of a car and that takes very high-tech specialized equipment.. And you can't just make a copy of a car key anymore-- most millenium car keys have microchips inside that must be programmed specifically for the car. Experts say if you're like Brooks who kept her doors locked and never left a spare key inside -- you may want to look at adding an *additional* security system to your car or steering wheel lock. sot- michael schwarz, owner of victory car care "if the thief knows it's going to be tough-- they are going to find another car"...	1:43

Because of the change in the law, what used to be destroyed is now up for sale. sot- gene harley, CNT "we had a large amount of flexibility of what we could do with those firearms" Before the law changed in 2012-- law enforcement agencies would either destroy the guns that were used to commit crimes or they would put them to use within the department. sot- gene harley, CNT "some of these firearms would have likely been used by cnt and would have been put back into circulation-- ultimately cut down on tax payer cost but again we can only go with what the law says we can do." The law says they can no longer destroy or keep any of the guns they confiscate-- they must sell them-- but they may only see a fraction of the profit. In the last two years the county has made nearly \$7,000 from gun sales but that money goes into the county's general fund. And while the law was created boost revenue for local municipalities, there's still the lingering question.. what if these guns end up in the wrong hands again? sot- gene harley, CNT "you know every day firearms are illegally purchased so all we can do is operate within the laws of the state of georgia and hope that we don't recover these firearms again in yet another cnt operation....	1:23

5/20/2015 6 PM	DON: FACEBOOK THREATS	<p>Newlyweds Candace and Aaron Montover have a baby on the way. The message from her husbands ex girlfriend took Candace by complete surprise. She messaged me and said your baby shall die a slow death with a winky face. That was the most scary part to be honest. Aaron: The scariest thing is not knowing how serious it is and how serious it should be taken. After the shock wore off the Montovers reported the Facebook threat to the Effingham County Sheriff's Office. Candace: Her attacking me is one thing but he bring my child into is a whole other situation. Sgt. Don White, Effingham Sheriff's Investigator: As a parent. you don't ever want anyone to talk about your children in that type of light. but. Don White the father has to look at each case and each message, the language used. as Sgt. Don White. .Criminal Investigator. It's not what the law would consider a direct threat it's more of a generalized threat. Over the past year we've seen the lower courts rule on "true threats" on social media. Sgt. White: Nowadays .the courts recognize social media as that corroborating evidence and makes our lives easier. The level of violence varies .from the case of the Montovers to Atlanta last month when a woman posted she thought about shooting every white cop and she was plotting to kill 15 the next day. This woman was arrested. That's Fifteen people she's talking about killing in a day or so so whether she is serious or not...that's something we have to take serious. Across the country -- we've seen an arrest after rap lyrics on Facebook were taken as a threat...and then a situation more than a year ago .right here in our own backyard. Women in Bryan, Bulloch and Effingham Counties who all received the same exact Facebook message from an anonymous user calling him or herself Mike Williams. .describing an ultra- violent family massacre. Each of those women made pleas to me on Facebook for help but not knowing who the person was .they told me authorities referred them back to Facebook to file a report. At the time .those women from Facebook told me there was nothing any law enforcement could do to help them out...but within the last year and a half Effingham County Sheriff's Office tells me they have added a Digital Forensics Unit with a bunch of new technology....</p>	3:56

5/27/2015	LIVE AT 5:00	TRACI: RIDGELAND KIDNAPPING	Avery Jones says he was getting some food from a gas station when a woman told him she needed help. Avery Jones: "A young lady approached my vehicle when I came out of the store. She said that she was kidnapped. She ran on the side of my vehicle and beat on the windows so when I stopped she opened the door and jumped in. She told me to get her out of there." He could tell something bad had happened to her. Avery Jones: "She was very in distress. Her eyes were swollen and she had blood on her legs and stuff like that where I could see there was a sign of trauma or distress." Jones agreed to take her to the Jasper County Sheriff's Office – he thought they were safe until he noticed a Honda Accord in his rearview mirror. Avery Jones: "Once we got on 17, he came out of nowhere with a lot of anger." Then the unthinkable happened – Raekwon Smart, the alleged kidnapper, was behind the wheel of the Honda Accord and he was targeting Jones' truck. Avery Jones: "When he approached me, he hit the back of my vehicle and sent me out of control three times. Once I gained control, I hit the gas, he knocked me out of control three more times. I accelerated and he couldn't catch me and by the time I turned into the sheriff's office he hit me head on into a sign." Jones' is being hailed as a hero for helping the woman escape – but he says that's not true. Avery Jones: "I'm not a hero. I would do that for anybody. Any mother, grandparent, baby or child. I'm just a good citizen."...	1:24

They're enjoying the beauty of this Island, they're on their way to go to lunch or to a park or something like that." One mother says their group takes steps to keep everyone safe while on their vacation. Jennifer Smith/ Tulsa, OK "Normally we have adults in front and back and we try to stay in a single file line and we look for cars and we kind of call out if there's cars-- we all stop and it kind goes down the line, cuz there's 9 of us" Babel is working to educate people across the island, from the fire department to the avid cyclers, on what they need to pay attention to as they enjoy more than 66 miles of public recreational pathways. Frank Babel (pointing to kiosk) "On it you'll see tips for safe cycling, welcome to the Island, information about the pathways." There's 30 of these information kiosks across the island--but people are still confused on what to do when they arrive at a crosswalk. Jim Thomas/ Part-time Resident-"The way I understand the law is that drivers are supposed to stop, for pedestrians in a marked crosswalk." Frank Babel-"The law is that motor vehicles have the right of way, but once a cyclist or a pedestrian is in a crosswalk, then motor vehicles have to yield to whoever is in the cross walk and even though some people are well intended and they want to help the cyclist or pedestrians get across, we encourage them to go through, and the cyclist just to be patient and wait until the traffic clears."	1:30
5/29/2015	11PM	EASTSIDE ALLIANCE MEETING	To start the meeting, the panel of speakers got an idea of how many people have been dealing with crime around their homes. "How many people in this room have been directly affected by crime?" Some more recently than others too. This woman's vehicle has a fresh bullet hole in it from a shootout this afternoon. "I was innocently going down 59th street in order to help a friend take care of her dog, and I was caught in the crossfire between two individuals shooting at each other." City and county leaders as well as police officials weighed in at times, interacting with the citizens during a question and answer time. Maj. Larry Branson, SCMPD-"We've got to put walking patrols in our neighborhoods. People want to see the police." Rev. Ben Gosden, Aldersgate United Methodist Church "Crime is an expression of a much deeper issue. One is poverty. What are we doing systemically to address the needs of this neighborhood?" Contact information for several of the city leaders, from police to school board members was exchanged with audience members several times throughout the evening as part of an effort to keep the dialogue going even beyond tonight.	1:07

6/2/2015	LIVE AT 5:00	PORT TRUCK PRESSER	<p>A community rocked with tragedy...10 dead just miles apart on the same highway...in both cases...authorities say truck drivers are to blame. Jerome Irvin: "the truck drivers here in Savannah...we feel the tragedy and we feel the remorse." But truck drivers have also heard the criticisms and they say the blame should be placed on a much larger group Jerome Irvin: "they are under pressure from all sides, the DOT, the trucking companies, the ports authority all play a role in this." The general message from them is if they were paid better and classified as independent contractors the pressures to make deadlines. ..drive longer hours to deliver more goods...all of that would go away. Carol Cauley: "I really do not think it is a matter of speed but I think it is a matter of if the companies were paying adequately than these drivers could run a little slower and actually get some rest to handle what they need to handle." Carol Cauley: "by the time it is over with, these drivers make less than minimum wage an hour so there things is they have to get back to get another load so they can recoup my fuel." They do understand they have a huge responsibility but also say the image people have of them is unfair...especially after the two horrible crashes on 16. Carol Cauley: "no matter what incident we are in...it is our fault." Carol Cauley: "I do not feel one driver is going to represent all drivers." Georgia Lawmakers have already said they are working on legislation that will restrict truck drivers more. ...lower their speed, reduce the hours allowed on the road John Jackson: "They are wanting to put stipulations on us as the drivers but really they need to be harder on these companies." John Jackson: "These companies are greedy...these companies have enough money...they could pay us a decent wage." 6/4/2015	NOON	AJIBADE DEATH RULING	<p>Conservative Blogger, Pamela Geller, is now at the center of what federal agents are calling a foiled homegrown terror plot...that unraveled in Boston Tuesday. Geller organized last month's art exhibit depicting the Prophet Mohammed in Garland, Texas...during which two men were killed when they opened fire on police.Sources tell CBS News, Usaama Rahim was originally plotting an ISIS-style beheading of Geller. They mean to kill everyone who doesn't do their bidding // This is a showdown for American freedom. Court documents allege Rahim discussed an immediate change in plans Tuesday morning with his accused conspirator, David Wright, of Everett, Massachusetts. You're attempting to go on vacation, I see - Wright said...allegedly referring to jihad. Rahim responded -- I'm just going to, ah, go after them. Those boys in blue. Authorities, who had Rahim under 24-hour surveillance, decided to move in and question him. They shot and killed him when, they say, he lunged at them with a knife. The case has renewed concerns in Washington about individuals radicalized by militant groups like ISIS through social media. The CIA says the terror group has lost a third of its forces...as a result of ongoing air strikes in Iraq and Syria. Mark Albert for CBS News Washington.</p>	0:28

When we first arrived, Alderman John Hall was talking with police trying to find out what happened. Alderman John Hall, Dist. 3 "I care. I have family, I have friends, and I live in this area. So there's a natural concern, to be concerned about what's going on and the safety and the welfare of all the citizens in this district." Colleen Sheffield Greene is one of those citizens, and lives a short distance from where the gunfire originated on Henry Street. She was walking her dog when it happened. Colleen Sheffield Greene, tired of hearing gunfire-"It sounded way closer than normal. And I immediately picked up my 90 pound dog and raced inside." Greene eventually ventured outside to see the police evidence markers covering the end of Henry Street. Colleen Sheffield Greene, tired of hearing gunfire "The nightly gunshots that we hear might not result in anything violent, but we're still hearing the gunshots. Pastor Ben Gosden was just down the street, and inside his church when the car crashed into it. Pastor Ben Gosden, Aldersgate UMC-"Actually I didn't hear a thing. My wife happened to be driving by at the time, said she thought she had heard firecrackers and said there was a commotion by the church. So I went around the building and found the car that had run into the corner of our church building, and some witnesses that were standing by." Gosden added no one was inside the car, and no damage was done to his church. He says this is the third shots fired-related incident within a year that's happened on church property. Pastor Ben Gosden, Aldersgate UMC "At least from what I hear, much of that crime does not live here, they actually just come here. So, our neighbors are very concerned and rightfully so. But this is a good, strong neighborhood. It's been here for many years. This church has been at the heart of the neighborhood for many years, and we don't plan to go anywhere."	1:55

Lawmakers formed a memorial processional this morning to walk in together- Their initial plan was to walk from the Senate office building- the Gressette building, and up the State House steps. 6/18/2015 6 PM	EDITORIAL SAL (THURS ONLY)	Throw the Book At 'Em!A Beaufort mother stopped at a local restaurant a couple of weeks ago and left her child in the car with the engine running and the air condition on. Another restaurant patron noticed that the child had been in the car for over an hour and called police. Fortunately the child was fine and Beaufort police told wloc that the mother was checking on the child periodically and the child was not distressed, nor exposed to the heat. Applying the relevant South Carolina law the Beaufort PD cited the mother for parking an unattended motor vehicle. Really? A parking citation when you leave your child alone in a running car for an extended period of time? In their statement the Beaufort Police deplored the actions of the mother but found no South Carolina law that had been violated. Now in Bluffton just a couple of days ago a man who left his dog in his parked hot car was charged with cruelty to animals by the Beaufort Sherriff's department. There seems to be a gaping inconsistency so let's make this easy: if you leave any living creature unattended in a car for more than 5 minutes – squirrels, babies, dogs, cats - we're going to throw the book at you. What do you think?...	1:09

6/18/2015	11PM	SEAN: MEMORIALS & VIGILS IN CHARLESTON	Mindy Schneider, Charleston resident "For something like this to happen where I work, people are just devastated. All walking around, with very sad faces." Mourners trickled in throughout the day to leave flowers, notes and other items for the nine lives lost. Some reflected on what could lead someone to commit such a terrible crime. Mindy Schneider, Charleston resident "to do something like this, what the motive was behind it, everybody wonders why would he do something like this? Why at this church, at that hour, who knows? I hope that will certainly come out in the end." Derrick DeSaussure, mourning loss of shooting victims "but one thing we do know is that he is full of anger. You have to have anger in order to do something like this." An interdenominational prayer vigil was organized just down the street from the church's front steps as the sun started to set in Charleston. Cress Darwin, pastor 2nd Presbyterian church "no matter how much we except the reality of something that might happen, the heinous nature of someone to come and see you and be welcomed into a prayer meeting, and to sit there with people, and then to pull a gun, to murder... It's horrific." And because of the churches historical significance, some believe that made the church at target. We don't believe that this was by accident, we believe that this was by design and he wanted to actually make a statement."...	1:28

6/19/2015	7AM DAYBREAK	WIS: DYLANN ROOF	We have learned that Dylann Storm Roof grew up in the Columbia area and attended schools in Richland and Lexington Counties. It would appear Roof bounced back and forth between school districts in the Midlands. Roof's parents are not living in the same location. That was confirmed by law enforcement sources when a WIS crew arrived at the home of his father in a neighborhood near River Drive in Columbia. That home at the time was being processed as a crime scene by SLED agents, who had been there we were told for several hours. Franklin Bennett Roof -- identified as Dylann's father -- declined to speak with reporters. There have been reports, one of them from our sister station WMBF--quoting the suspect's uncle---saying Franklin Roof gave a gun to his son as a 21st birthday present. It's not clear yet whether that was the murder weapon. Police say 21-year-old Dylann Roof was stopped and arrested after his vehicle was spotted by a woman in Shelby, North Carolina. They say Roof surrendered without incident. He waived his extradition and was later put on a plane for Charleston. The FBI's lead agent says an investigation is underway to determine if Roof will face federal charges in addition to nine counts of murder. Take a look here... 4 separate robberies this weekend..the first at MLK and Congress... the second robbery at Jefferson and Henry...the third at Montgomery and Waldburg and the fourth just down the road in the 300 block of Montgomery. But it is the second and third robberies that have police worried....in both cases folks were approached getting out of their cars by men who were cocked and loaded. Capt: Ben Herron: "you definitely want to shorten the amount of time with that interaction...really important for their safety." After studying the robberies police say it does change their approach. Capt Herron: "You will be surprised when you put those things out there someone will say, "hey I saw that," or "Hey I can probably help with that." It has been really helpful." Fred Hallaran: "It seems to be not any one group of kids but it does seem to be a younger group not an older element. I really do not know what the solution is."...	1:41

6/23/2015 6 PM	DAVID: STEPHANIE CUTTER	<p>If you are one of the lucky ones to have grown up in Savannah, to have seen this city though a half century of change, you have a lot in common with Stephanie Cutter. And for Cutter, it's finding common ground with her city council and you-its constituents that has become a trademark of her leadership style. To her city council, she is, unapologetic when it comes to her grip on the purse strings. David; "How conservative are you? How conservative would they say you are?" Cutter; "They would say I'm very conservative. I think. Because you know, elected officials, they dream big. You know I have to be realistic." David; "Economically, how's the city of Savannah doing these days?" Cutter; "Oh, quite well. You're here in Savannah and I'm sure you've seen all the growth and development underway. At one time, we had peaks and valleys in the tourism season but now it's constant."And the city is sitting on surplus. The threat of a deficit comes at the personnel level. david; "what's the biggest challenge for you as a city manager when it comes to public safety right now, today?" Cutter; "Recruiting and keeping good officers." david; "As a city manager, how do you combat this new culture of mistrust in law enforcement?" Cutter; "Those who are in place in managerial capacities, they must exhibit those standards. No matter what the situation is we have to set examples. We have to be leaders. Recognizing that there are some that can't get on board, then city of Savannah is not the place for them to be."Contributing its fair share to the crime rate in Savannah are gangs. Cutter is not shying away from the fact they are here and are being confronted. "We need to begin particularly with our youth, early on, to let them know that there are other opportunities outside of joining a gang with negative behaviors." "To this day I love home and I weather the storms of city manager because I am committed to making a positive difference in this city. No matter what, I can't give up. It's not a job for me, it's a calling."I spoke earlier of Cutter's management style. She'll be the first to tell you her look, the sound of her voice... intimidating? No. Disarming... perhaps. " You can be soft spoken and take control. Trust me." David; "Passive/aggressive?" Cutter; "I am who I am. Cutter; "They kid me about the look. I have a certain look when I've had enough."...</p>	2:16
6/26/2015 11PM	WMBF: PINCKNEY BURIAL WRAP	<p>After a week of mourning and prayer... those looking to remember Clementa Pickney tried something else today. Frankie White "People can't cry no more, They've already cried out. So now we're rejoicing, we're happy, we're glad." That happiness and admiration went hand in hand with patience. Hours before Pinckney made it to his final resting spot, dozens came by to wait. Some knew him well, but even more wished they had a chance Shirley Wiggins, came hours early: "Just hearing him and all of the things that he had done in his young life and I just wanted to be apart of it." The closer it got to Pinckney's arrival... the more that celebration came out. Betty Chestnut, attending: "The spirit of God just flowed in and we just felt like this was the time." Mary Jones, school friend: "You can see from all the crowds, that everybody loved Clementa. Everybody." In that crowd was Mary Jones... she went to school with the late reverend and says he changed her life. She made sure she saw Pinckney one last time today. Mary Jones: "He always made us feel that we was worth more than what anybody else said. And I just love him for that." So as Pinckney was finally laid to rest next his mom, grandmother and more...those watching thought about what he meant to them. Some pointed to his love of god and some to his love for his people... but each was its own kind of special for that person thinking it. 4/2/2015	LIVE AT 5:00	LYNDA: PBA ON DEMERGER	Robert Santoro speaking on Behalf of the Police Benevolent says a de-merger of the Savannah Chatham metro police department would have a major impact on how we fight crime in the city. 243 A lot of the former county officers are some of our more seasoned officers and investigators and supervisors. In a demerger the bigger city department would lose that group of officers which is very valuable leadership core. That will be a concern for officers and group. The loss of Seasoned leadership is just one of the concerns raised by the PBA in statement released today urging city and county political leaders to agree on a merger. 530 "You are talking about a department that merged ten years ago. if it demerges officers that are looking for a career and a pay scale, that would give them security in the job that would be gone and then you are looking at years of ironing out the issues again and the uncertainty of what will happen. "Mayor Edna Jackson says she welcomes the support of the PBA but says the city is simply sitting at a gridlock with the county. mayor edna jackson 151 "We know the best thing for our community is to continue the merger. We have fought very hard we just need the county to come on board and work with us. we have presented many plans. when we felt fair now and then we go backwards. that is the frustration I am seeing right now." County Commissioner Dean Kicklighter says they county just wants guaranteed policing for the unincorporated areas. "They are overtaxed they have no elected representation and they overpay for a service in which they have no guarantees "	1:34

4/8/2015	11PM	SEAN: MERGER TALKS CONTINUE	Mayor Edna Jackson, asking for mediated City/County meeting"I'm suggesting that we get an outside person that has no loyalty to the city or the county, and that can be objective in their thinking."Mayor Edna Jackson says the mediator would be paid by the Chamber of Commerce, and no expense to the taxpayers. But she says this is an important step to finally bring the negotiation between the City of Savannah and Chatham County about various aspects of the police merger to the next level.Mayor Edna Jackson, asking for mediated City/County meeting" We have tried everything and nothing has worked. So it's time for us to go into mediation."In the letter to Chairman Scott, Mayor Jackson says "We have yet to hear a response from the County on the latest proposed framework. While that police officer is facing murder charges, the police report says the officer first tried to tase the man before he started shooting. Glemboski says this is the kind of protocol officers learn during training. sot- gary glemboski, director of global tactical training group "if he's following some type of continuum, he's going to go from the lowest level to the highest level" It's the force continuum guide that goes from a non-threatening level of an officer being present.... all the way to lethal force. Glemboski says officers are not required to go to each level or in this specific order--- it just depends on the threat. sot- gary glemboski, director of global tactical training group "i may be forced to draw my baton, i maybe forced to pepper spray you, i may be forced to tase you. If none of that works I can go to lethal force depending on the circumstances" And while it's called lethal force, he says officers are NOT trained to shoot with the intent to kill, officers are only trained to stop the threat. However, it's not unusual for an officer to fire more than one shot. sot- gary glemboski, director of global tactical training group "we train our guys to shoot until they believe the threat is no longer a threat to them or anybody else."...	1:36

5/7/2015 6 PM		ALYSSA: OFFICER SUSPENDED FOLLOW	<p>"we deny, absolutely deny the allegations made by the chief" In an interview today- Cpl Daryle McCormick's and his lawyer -denying accusations that he stole and mis-used funds while working on an ATF task force- Findings from a police internal investigation released to the public yesterday. "all of the property that was given to chief lovet- both the money and the tv and the cell phone was approved by ATF. ATF knew about all of this back in 2012." McCormick was even caught on camera -stealing these items from an undercover storefront operation set up by ATF called operation pullaski-- its a type of pawnshop -- set up in high crime areas-- to target traffickers of firearms and violent offenders by making purchases or sales for the weapons. - but McCormick and his attorney say he was aware of the cameras and not concerned because it was all approved. "he just trying to follow orders and do what he thinks he supposed to do in a very confused and loosely structured storefront sting operation. And the structure of these ATF undercover storefront operations has been under fire in the past-- in fact- a house oversight committee held a hearing on these types of operations about a year ago-- referencing problems with storefronts from several other cities. 'the report found- and I quote "an absence of comprehensive written guidelines and best practices of an undercover storefront was a contributing factor in many of the difficiencies in operation"- it also found that the primary cause of the difficiencies not being found and corrected was the failure of the case agent and the first line supervisors to report those problems. his attorney says all of this came time light when former chief lovet started getting in trouble-- and they believe McCormick is being used as a scapegoat for practices that no one questioned at the time. "daryle was simply doing what the chief at the time was asking him to do and what the atf at the time approved him doing. He's the guy who's out on the street and we don't think that's right."...</p>	2:00
5/10/2015 11PM WEEKEND		CONNIE DEPUTIES FIRED	<p>The D.A. says she's still in the process of interviewing witnesses, but she plans to bring this case before a grand jury sometime in June. If the D.A. decides to bring an indictment against one of the officers in the death of Matthew Ajibade, Georgia law requires her to notify the officers, in writing, 15 days before the grand jury meets. So far -- the D.A. *hasn't* said publicly whether she'll ask the grand jury use their *civil* powers to investigate Ajibade's death, as was the case in the September police shooting of Charles Smith, or whether she'll draw up a *criminal* indictment against one *or more* of the deputies working at the Chatham County jail the night Ajibade died. The D.A. Meg Heap saying quote: "I cannot try this in the court of public opinion. I have to try this in a court of law." Ajibade was charged with domestic violence battery January 1st after getting into a confrontation with his girlfriend outside a convenience store. The sheriff's office says Ajibade fought deputies during booking, breaking a female officer's nose and giving her a concussion. A taser was used, according to sources close to the investigation. Ajibade was placed in a restraint chair -- like this one -- where he died. Still up in the air, whether or not documents including the autopsy report, use of force report in this case, and video evidence of Ajibade in that jail before he died will be released before this grand jury makes its decision. A judge is expected to rule on that sometime next week. In the studio, Conny Cooper, WTOC News....</p>	1:30

That was the case for an Ardsley Park couple in March who had their gun stolen out of a drawer. Police say thieves look in the obvious places-- like under pillows, inside bedroom drawers, and side tables. It's fine to keep them in those places if you're home but if you're not-- they advise you to lock them up....</p>	0:27

Back in 2006 -- at Jimmy DeLoach and Benton Boulevard -- the *same* intersection where a metro officer was struck last night -- Effingham County Sheriff's Deputy killed when a minivan hit his patrol car. For law enforcement, automobiles are nearly as deadly as guns. Last year, 46 officers were killed by guns nationwide. 43 were killed by vehicles. Mark Renew, Pooler Police Chief: "People are so distracted driving nowadays. They just don't pay attention. Or they don't see the danger." Georgia law *requires* drivers to move over -- if they can safely -- for an officer, a big rig, a broken down motorist or a worker on the side of the road. If they can't move over -- they at least have to slow down to a near-stop. Taking a look in slow motion -- it's clear that the driver who hit officer self -- didn't. He pleaded guilty to failure to maintain lane and paid a fine. Two months later. Officer Self was back to work. Glad to be alive and -- Officer James Self, Pooler Police: "Glad to be lucky."...</p>	1:30

At today's city council meeting -- metro police announcing an apprenticeship program -- to employ at-risk youth from 8 am to 4 pm Monday through Friday. They'll be paid minimum wage. Assistant Chief Julie Tolbert, Metro police:"Even though \$7.25 may not seem a lot to people who are making a little more, to these kids it means everything."To qualify for the program, youth must be at-risk -- referred to the program by institutions like Juvenile Court or the Department of Family and Children Services. They'll have to pass a drug screen, go through four weeks of literacy development and get trained in job soft skills. Assistant Chief Julie Tolbert, Metro police:"They're going to get that on-the-job experience from businesses who might not normally give that opportunity to them."Alderman Johnson says the apprenticeships are a step in the right direction, but he hopes city leaders will consider imposing stricter curfews on youth during the summer months. Van Johnson, Savannah Alderman:"When I was young, I had to be in when the streetlight came on. And I turned out pretty ok. No good things can happen for a young person after dark."...</p>	1:15

5/29/2015	LIVE AT 5:00	SC DOMESTIC VIOLENCE BILL	Anna Zweede is a domestic violence survivor - -Anna Zweede/Domestic Violence Survivor: "I was strangled, I did think that I was going to die in that moment. Strangulation is one of the most lethal forms of abuse. When someone is being strangled, the abuser is the power to control that victim's next breath." Zweede says with the new bill, the law can restrict that power and control by punishing abusers, depending on the severity of the attack. Anna Zweede is a domestic violence survivor - "I think that we need this. I think that it's great that South Carolina has is fine looking at domestic violence and how to save lives."Theresa Lacey/CODA Lowcountry: "The more severe the crime, the more severe the penalties are going to be. Right now its just okay to say this is the first offense, second offense, third offense." The legislation is designed to increase penalties for repeat domestic violence offenders and even ban some from having guns. Theresa Lacey, with CODA of the Lowcountry, says the gun ban will make a big difference. Theresa Lacey/CODA Lowcountry: "There's been a huge commotion regarding the removal of guns from people who are convicted of domestic violence. A lot of times they think we're offending on second amendment rights. That's not what we're doing. We're trying to take guns out of the hands of people who have offended." South Carolina leads the nation in numbers of men killing women. Both Lacey and Zweede hope Domestic Violence Act can change, this statistic. Reporting in Beaufort County, Traci Washington WTOC News.	1:31
5/29/2015	LIVE AT 5:00	DOMESTIC VIOLENCE BILL	And here in Georgia - we've had our fair share of domestic violence issues. Georgia is ranked 9th in the nation for its rate of men killing women. In fact, between 2003 and 2014, 1,400 Georgians have died from abuse. Officials say guns were involved in 65 percent of the cases last year. Domestic violence advocates here in Savannah are hopeful Georgia lawmakers will follow in South Carolina's footsteps	0:23

6/4/2015	4PM News	GLENNVILLE POLICE TRAINING	The war on drugs gets plenty of attention these days, but plenty of law officers will tell you plain old drunk driving continues to be one of their biggest challenges. Deputies and officers from ten South Georgia departments got the latest rules and regulations on DUI laws and some of the science of how alcohol affects people. The three day workshop covers some of the signals they might get on the road that a driver's been drinking. Larry Mooney / Instructor They make contact with people for any one of a number of reasons, speeding, failure to maintain lane, improper turns. There are dozens of things we train officers to look for. Their action can help save lives of other people on the road. The class serves as a reminder to officers who've already gotten the original training. Things can change and we require officers once they've received the field sobriety training to get that updated every two years. Another big plus to the meeting in Glennville - time and money. The departments from here could send their officers to Glennville quicker and cheaper than they could to Forsyth. That means they can use that money somewhere else. Dal Cannady WTOC news.?	1:10
6/4/2015	6PM	SC BODY CAM BILL PASSES	The shooting death of an unarmed man last April in North Charleston may have been what led to getting a body camera bill passed by the South Carolina legislature. That measure, now headed to Governor Nikki Haley's desk, provides guidelines and possible funding for the cameras. If she signs it, local police departments have just 9 months to come up with body camera policies. Once those policies are approved, the agency can then apply for the money to pay for them. One catch to this bill is that it heavily restricts when the videos can be released to the media and the public.	0:34
6/5/2015	6PM	BSCO BODY CAMS	Ronald Douglas/Beaufort Co. Resident: "It's a good bill, I think it holds everybody accountable." Dayne Willis/Beaufort Co. Resident: "I think it's a good thing for everybody. The camera doesn't lie, the film is there." B Judith Ericksen/Beaufort Co. Resident: "I think it will help protect the police and also help the suspects because everything shown as to what's happening." Jeffrey Bilbo/Beaufort Co. Resident: "I don't see any drawbacks. I think it's going to help law enforcement, simply because there's nothing hidden." The Beaufort County Sheriff's Office has more than 100 patrol deputies - Cpt. Bob Bromage/Beaufort County Sheriff's Office: "At this point we do not have body worn cameras. We do have car cameras, audio and video." According to Cpt. Bob Bromage, deputies also wear body microphones that capture sound only - he says adding a video component could enhance their ability to prosecute. Cpt. Bob Bromage/Beaufort County Sheriff's Office: "The audio/video from the initial responder is great to have in trial because it could capture the investigation as it unfolds. They're the first one there, statements are made by witnesses and suspects and they're very effective for use in criminal trials." Unlike other states, South Carolina's law would put heavy restrictions on the rights of the public to see what police capture. Most I spoke with say they understand the need for added privacy. Judith Ericksen/Beaufort Co. Resident: "I don't think the public should know all of that, unless there's a problem that comes up with the arrest. I think if it comes up that there's a dispute between the suspect and the police, the public should be able to see it."	1:49

6/13/2015	11PM WEEKEND	EDITORIAL SALUTES	Broken Trust We were reminded again last week of the deteriorating trust between police departments and the communities they serve. In Texas what appears to be - at best - over reaction and at worst blatant racism is the cause for a national uproar. A police officer manhandles a teenaged girl and then draws his weapon in what appears to be a completely disproportionate response to the situation. What is absent from the video is the first action - the incident that prompted a police presence in the first place. That is a crucial - and missing - part of the picture. But it cannot be disputed that cellphone videos and the explosion of social media have created a pervasive credibility gap for police departments that must be addressed. We would suggest a starting point is in the evaluation and training of the police officers -clearly there are some bad cops out there alongside of a vast majority of good ones. We also applaud programs like national night out and a Beaufort initiative that puts cops and kids in trust building gatherings away from the tension of a crime scene. It might also be time to return to cop-on-the-beat policing. The editorial board believes that officers on foot patrolling neighborhoods could be both a deterrent to crime and a positive, relationship building presence in the community. But we're open to suggestions: what do you think?...	1:21

But I can't have them destroying other kids and other families.'" Last night... Mayor Fountain was monitoring the scanner -- as a high-speed chase crossed the county line. "I heard him when he got behind that vehicle. He said he was behind it. He blurted out that shots were being fired." Then... silence. Mayor Fountain rushed to the scene. "I got him out. Some folks jumped out and helped me load him onto the stretcher, and we put him in the ambulance." He knew his friend was gone. "I talked to him, but he weren't hearing me." Today... this mayor -- and this county -- are coping as best they can. "Just a tough scene. You lose a best friend. It's pretty tough."?...	0:55

More than 130 officers were officially promoted today to either Advanced Police Officer or Corporal. that comes with 5 percent raise. Cpl Jeremy Mcknight: "How things worked in the past was that the APO stripe really did not mean anything."In fact...During the 2005 Police Merger the department did away with the rank of corporal and the Advanced Police Officer grade was previously not considered a "rank" and did not come with a salary increase.Cpl Jeremy Mcknight: "we need to be able to advance within the department and move forward with the agency."Now the stripe on their arm has meaning. Chief Jack Lumpkin: "now we are saying that if you attain these sets of knowledge and skills than we will compensate you because they relate directly to the job." With the clear opportunity to move up in the ranks...they hope recruitment and retention will be much better. BUT the chief does say there is still a major problem that has to be addressed. 6/22/2015 6 PM	CONNY: JAIL TASERS	"Just as a safeguard, we're taking those extreme measures." Chief Deputy Roy Harris says no one working inside this jail will get their taser back until they undergo a fully battery of training. "Tasing someone who was fully restrained. Some people were trained that that was appropriate if they are resisting." Take a look at that video we showed you off the top. It was taken three weeks *after* Matt Ajibade was tased, put in a restraint chair and died at the jail. The surveillance shows *another* man -- being tased while wearing leg irons and handcuffs. The woman doing the tasing was suspended from the sheriff's office because of the incident. She appealed her suspension -- saying she thought what she did was okay... in her appeal the deputy wrote that she knew she couldn't shoot a taser's electric prongs into a restrained inmate -- but thought touching them with the Taser's stun gun was okay. "A taser is a useful tool. It's to keep an inmate from getting hurt during a fight but also the officers from getting hurt during a fight." Now... the sheriff's office has created an internal committee -- tasked with going over every tasing. A taser is supposed to be a tool -- chief Harris said -- not a punishment. "To ensure ourselves that that isn't happening. If we find that it's happening, then we'll take the appropriate disciplinary action..."	1:18
6/22/2015 11PM	CONNY: CHATHAM CO TASING NUMBERS	The death of this man -- Matt (a-GEE bah-day) Ajibade -- after he was tased and put in a restraint chair at the Chatham County Jail spurred the sheriff's office to do a full review of taser policies. 6/25/2015 6 PM	CONNY: COUNCIL POLICE RECRUITING	Tom Bordeaux, At-large alderman: "There is a hole in the boat of public protection here, and it is sinking the ship." Full staff for metro is 605 officers. As of Monday, there were 75 vacancies and an additional 20 officers on extended leave. Tom Bordeaux, At-large alderman: "If we keep at this rate, we will not have a police force." Metro is losing officers faster than its hiring them, according to the department's stats. It takes 44 weeks to recruit and train an officer and costs a little more than 71 thousand dollars. Bloomingdale, Garden City, Neither Port Wentworth NOR Thunderbolt has had to pay a to put a recruit through the police academy in the past FIVE years. Instead, they hire Metro officers. But if the council gives the department more money for officers, that could change. Chief Jack Lumpkin: "I was delighted in what I heard from Council, and I'm hoping my officers are hearing it." City Council saying overwhelmingly they want to raise officer's pay. Here's why. A new recruit in Cobb County makes a little more than 38 thousand. New Orleans: 36 five. Tallahassee 37 thousand. Metro, 32 thousand. Lumpkin: "The officers must know that some relief is coming. And our recruits must know. Our potential applicants must know that we're going to be marketable. We're going to be competitive."?	1:16

6/29/2015	6 PM	DON: VIDEO IN JAILS	Many of you have a lot of questions since the death and events unfolded surrounding Matthew Ajibade here at the Chatham County Jail. Some wanted to know if video cameras are used during use of force situations involving a restraint chair...and the answer was No...until this memo came out...given to me by the Sheriff's office...as of June 10th...the policy has changed. Mark Tate, Tate Law Group: I find it very surprising they wouldn't think it's a good Idea you may want to watch the people you tie to a chair. I think that's sort of offensive." Attorney Mark Tate isn't sure the presence of video cameras in the Restraint area would have saved the life of Matthew Ajibade...but thinks they would have answered a lot of questions. Insread...we know we have a where a suspect...still innocent until proven guilty -- died inside the jail...at the hands of his jailors. 3 of them were indicted for his death.Mark Tate: The DA can indict a ham sandwich if she decides to indict ...and whether you are knowledgable about the law you are violating is not really an excuse. The Sheriff's off declined comment other than offering this memo...But across the country...having a camera in the holding cells is a common practice in jails. In Santa Ana California...a man sued for 47 million dollars after he was atsed 11 times ... even after he had been strapped into a restraint chair. In Louisville -- the policy has kept metro corrections, and taxpayers, clear of frivolous lawsuits....and in Michigan...it proved deputies used force properly while a suspect was restrained. Mark Tate: I think it's excellent they have adopted it now because maybe the county will avoid massive liability in the future. But I think not having a policy observing the people you restrain i think is a bad sign for the way things have been run.Don Logana: So let's review the policy change -- Any events requiring the use of the restraint chair will be videotaped and documented. At no time will an inmate -- secured in the restraint chair -- be placed outside the vision and supervision of staff. All usage of the restraint chair must be reported immediately to the Watch Commander and Unit Manager. At The Chatham County Jail...Don Logana...WTOC News....	2:11

Two deputies and a healthcare worker at the jail have been charged in his death.Conny Cooper has been following this case from the very beginning and joins us live outside the Chatham County Courthouse, where a fight is brewing over what records should be released in the case. Conny? That's right -- and things are developing pretty quickly in this case today. An attorney for one of those deputies -- Maxine Evans -- just within the past hour filing a demand for a speedy trial. In the demand, that attorney claims a deputy kicked Ajibade in the head -- causing a brain bleed that killed him. But the only deputies who have been charged are Evans, who prosecutors say was supposed to monitor Ajibade while he was in a restraint chair -- and Corporal Jason Kenny, who, according to a deposition of the sheriff's department's Chief deputy Tased Ajibade "five times" while he was in that restraint chair. We're getting details of what may have happened through filings like these because -- thus far -- the D.A.'s office hasn't released Ajibade's autopsy or surveillance video from inside the jail. 4/27/2015	6 PM	CYREIA SWEEPS: KEEPSAKE SONOGRAMS	Dr. Arthur Baker, with Savannah perinatology Associates specializes in high risk pregnancies. He is very familiar with the new trend of keepsake ultrasounds. keepsake ultrasounds are ones that are done outside of a doctor's office for entertainment purposes Parents often pay cash for those services, and Dr. Baker understands why. when you go for a keepsake ultrasound they are going to spend more time getting those pictures you see on facebook or on the internet-- those 3d pictures of the face and nose. "there's actually at least one business in our area that does perform these types of ultrasounds. After numerous calls and emails I decided just to show up and knock on the door. The owner told me she couldn't go on camera because of the agreement with the company's franchise owner who I did reach out to as well but she did explain to me how exactly her business works. The owner of Cherished 4d in Savannah tells me she is a registered nurse, every staff member who does these ultrasounds at Cherished 4D has medical knowledge – which is *not* a requirement of the franchise. She says the sonographers actually work elsewhere at local hospitals, and they know how to operate the ultrasound equipment properly. She also told me clients are required to provide proof they're seeing a doctor for prenatal care. I found one mother, who *almost* decided to use those services at Cherished 4d. we had talked about it and some of our friends had gotten it done but we decided the doctors said you really shouldn't get more than medically necessary and we knew we would end up doing one or two extra so we didn't want to do another one and expose her to that. The reason her doctor said that, is because of a warning from the FDA. The fda acknowledges there *is* a lack of evidence of any harm due to ultrasound imaging, but the long term effects are unknown, and ultrasound scans should be done only when there is a medical need. Dr. Baker explains we believe we should only be doing what's necessary for the medical part of what we do. while we think it's safe, just like everything, there may be a threshold, there may be a point where too much focused ultrasound energy is harmful. But Mrs. Selan isn't ruling out having one of these ultrasounds for her future children. Maybe when they find out the gender and we do the scan next time we would consider doing that instead of a traditional one. And no matter your decision, experts urge you to keep your doctor involved in the process....	2:27

4/30/2015	LIVE AT 5:00	EDITORIAL SAL (THURS ONLY)	Take the Train to Tybee! Listen to what Tybee mayor Jason Buelterman tweeted Sunday night: "The Tybee road is ONCE AGAIN leaving motorists stranded and is impassable for emergency vehicles. Fix 80 now...not 10 years from now!!! Tybee shares a problem with Hilton Head Island: one way on, one way off. But Hilton Head has 4 lanes to move traffic and accommodate mishaps; Tybee only has 2. This weekend was a tipping point – accidents and hours tied up in traffic frustrated and endangered people who now have a new interpretation of the expression "a day at the beach". Now consider Tybee's other big problem: parking. On any big event weekend Tybee folks can count on cars in their front yards. Beachgoers are sure to get tickets or worse. So let's do something innovative and figure out rail service from Savannah to Tybee and relieve the traffic pressure, the parking pressure, do a little something for the environment and even add a little pizzazz to the adventure. It's time for a forward looking solution to a problem that won't go away. What do you think?...	1:01

Instead, Glemboski says to hold your keys like this. Gary Glemboski, WTOC safety and security expert "this key is not going to give now" He says you can use other small objects like pocket knife as well with a he says will ward off any attacker. Many beach goers say safety is their first priority. Crowds at Lowcountry beaches are expected to double this weekend. Mike Wagner, with shore Beach services will have about 60 life guards on the beach during peak swimming hours. Mike Wagner/Shore Beach Services: "Swim near a lifeguard. Make sure when you're going to the beach, find a life guard because they'll have all the information you need about the surf conditions or whether there's jelly fish in the water." Staying near a lifeguard limits response times in case of emergencies. Another big thing to remember - stay hydrated. Mike Wagner/Shore Beach Services: "Drink lots of water, we do have problems with people getting dehydrated really easily, so drink lots of water when you're out there." If you have or notice a problem on the beach contact a lifeguard. They are trained to help in any situation. 5/29/2015	4PM News	SC HURRICANE PREPAREDNESS MEETING	Beaufort was the governor's last stop on her coastal tour - she talked to local leaders about the importance of evacuation routes and having enough transportation to get everyone out safely if a hurricane is approaching. Forecasters are predicting a lower than-normal number of storms this season, and it's been years since the state has had to deal with a large hurricane. But emergency officials stress it only takes one hurricane to create an emergency.	0:27
6/1/2015	430AM DAYBREAK	COASTAL SUMMER HURRICANE SEASON	The summer tourist season is underway along the Georgia and South Carolina coasts and that brings a season of sun, surf and perhaps storms. Online sites will help visitors find public beaches along the coast when it's sunny and evacuation routes when skies turn stormy. With the official start of the Atlantic Hurricane season starting today, keep in mind, you can go to the WTOC website and the WTOC First Alert Weather app for information on evacuation routes and hurricane preparedness tips. 6/1/2015	6PM	2015 HURRICANE SEASON	"Clayton Scott our former director has some mighty big shoes to fill. I've learned a lot from him over the past years, and I anticipate continuing the focus he's had for the agency." Dennis Jones is hitting the ground running on his first day as Interim Director. He knows Hurricane season is an important time of year. Savannah felt the impact of a Hurricane since Hurricane David in 1979, and an evacuation since 1999. But Jones knows it only takes one Hurricane to devastate the area. Dennis Jones: We want citizens to understand what our hazards are, we want them to understand what the threat is from a Hurricane, and also to realize that we have one of the most significant storm surges from impact along the East Coast. That impact is why you need to be ready and prepared before a storm. Dennis Jones: Where are you going to go, where are you How are you going to get out of town. Go ahead and make those plans now. Put together an emergency kit. That Emergency kit should simple things like a can opener prepackaged food & Water, first aid supplies, don't forget your pets. Have a communication plan with your family. Prepare for gridlock. "We encourage people to leave early during an evacuation process. If you wait until the last minute, the roads are definaitely going to be congested with other people who have also waited until the last minute. and for those who want to stay and ride out the storm... remember you won't get any emergency help once a Hurricane Hits. "We tell our people to come off the road during the arrival of Hurricane force winds for their safety. Not going to be anyone available to assist you."	1:34

6/1/2015	11pm	YMCA POOL SAFETY PROGRAM	<p>Last summer, a four-year old died in an accidental drowning at an apartment complex in the Godley Park area. The boy's parents were nearby and pulled him out, starting CPR while they waited on an ambulance. After hearing about that incident, West Chatham YMCA Director Gina Casagrande wanted to start something that could prevent that tragedy from happening again. Gina Casagrande, West Chatham YMCA Director "Lets teach them safety skills. So that can include blowing bubbles, floating techniques, things of that nature to get the kids accustomed to the warning signs, or if there's danger." The pool safety sessions won't be swimming lessons, but valuable still for anyone using a public pool this summer, and will mirror to some degree the instruction given to lifeguards at the YMCA. Lifeguard Jordan Ferrera says part of that training is keeping an eye out for horseplay that could be potentially life-threatening. Jordan Ferrera, YMCA lifeguard "They like to play this game where they say, hey let's see how long we can hold our breath for. As soon as I hear that, I'm like, uh guys no. Let's not play that, let's play a different game. And that's a very serious matter and you never know when somebody can hold their breath and all of the sudden go unconscious." The breath holding game, according to the CDC, is one of the leading causes for accidental drownings. And the Children's Safety Network reports from 2008 to 2012, drowning was the leading cause of injury death for children one to four, and second leading cause for children ages five to nine.</p>	1:31

It's a good time for some reminders about keeping everyone safe in the water. 6/4/2015	LIVE AT 5:00	SUNSCREEN	<p>the biggest takeaway from the ewg sunscreen guide is that some companies can be deceptive in their marketing and labeling. even on days like today you have to protect yourself. i found out what you need to look for when picking a sunscreen for you and your family. dr. smith when you were young and you went to the beach and you really got sunburned that may be a problem later on before you start hitting the pool or beach on a regular basis this summer - dr. sydney smith, a dermatologist with the georgia skin and cancer institute, wants you to remember one thing.melanoma may be related to how bad your sunburns are only a couple of times which is why sunscreen is so important, especially for elizabeth st. clair, a mother of four. my third child is a redhead and very fair skin so i have to apply sunscreen every 30 minutes and it has to be at least 50 the environmental working group found a whopping 80 percent of sunscreens "offer inferior sun protection or contain worrisome ingredients." so, we asked dr. smith, what to look for when shopping for sunscreen. the best ones are the broad spectrum. so the fda came out and said if you're going to block everything say it's broad spectrum and if you don't then you can't say it's broad spectrum st. clair says when she shops for sunscreen, she tries to read the labels closel, looks at the ingredients, and takes extra precautions because she sometimes doesn't trust what meets the eye. that's why i protect with rashguards as well, hat maybe, i am always curious, are they being truthful in their products.and as far as chemicals go, dr. smith says..there's more risk to not using a sunscreen then using one with a chemical you might be concerned about last but not least, he also adds..when it comes to the number..50 is enoughyou've seen some that go up to 100 beyond 50 it doesn't make much sense the ewg also made a list of the best and worst sunscreens its posted on the solution center of wtoc.com, so you can check it out. in isle of hope cyreia sandlin wtoc news.</p>	2:04

6/4/2015	6pm	EDITORIAL	CATASTROPHE AWAITS Here's a worrisome new wrinkle in an already scary situation. Suppose we have to evacuate for a hurricane this year and get all of our people west via the same roads that can't accommodate the traffic on an average day. Since 1990 the lowcountry population has grown more than 95%, Effingham county - 100% and if you want to get an idea of what's happened in west Chatham County the best yardstick is to ride out I-95 any afternoon. Now imagine moving all of those people at the same time on the same highways. It's a catastrophe waiting to happen. This Saturday at 8 PM make sure you catch WTOC's Hurricane Watch; traffic, road repair and routes to safety are a major focus of the broadcast along with how to prepare to evacuate. You'll hear every single person on the show tell you to leave early. With the conditions of our highways and the population explosion those are literally words to live by because getting everybody out ahead of the storm is almost as scary as the hurricane itself. What do you think?	0:59
6/6/2015	7AM DAYBREAK SATURDAY	PROTECTING PETS IN A DISASTER	In a pet emergency go kit you want to think of any of the supplies that are going to be necessary to keep your pet comfortable for 2-3 days. So their pet food - either wet or dry or some small cans with pop top or a can opener - don't forget that part. a carrier if it's a small pet or a safety harness with a leash if it is a larger pet - litter for a cat with a collapsible or disposable litter pan - a bed or a blanket or a toy - those types of things and don't forget your pet's medication as well. Well the first thing of course is critical to plan - nobody wants to think about a disaster -- and the best way to make sure you and your pet are safe is to plan out what you are going to do. Separation is everyone's nightmare when you have a pet -- so I would start with a microchip - make sure all of your pets are microchipped. Make sure the information is up to date with a cell phone number because that will be with you - rather than a home phone number - and make sure you always update it - that's the most crucial information. But on top of that a collar with a tag - go back to very simple things and make sure there is a tag on there that also has an up to date phone number. and as Dr. Lowery says it is important to have medical records -- once a year - that's like changing your smoke detector -- make sure you have proper medical records or something with you -- and a photo. that is one of the most critical things you can have in case you get separated from your animals.	1:23
6/8/2015	NOON	RIP CURRENT AWARENESS WEEK	Rip current awareness week is underway at beaches nationwide -- including our own Tybee Island. This is a live look at the beach now through our WTOC Ken Nugent Skycam. We talked to one woman who was stuck in a rip current about how scary they can be.	0:22
6/8/2015	11pm	MOSQUITO TESTING	If you live in Chatham County mosquitos from your back yard can be found in this freezer getting ready for testing. Jeff Heusel - Chatham County Mosquito Control Director "We bring them in and we put them in the ultra low freezer when takes them down to minus 80 degrees." Collected and put on ice, all to find out more about the diseases they have potential to carry. 700, 800, 632, 732, we have had up to 2000. All in one days trapping. South Georgia is a haven for these insects. But how's this year's outlook compared to last? "That is always one of the big questions, it is what kind of season are we going to have, there really is no way of predicting." The real concern is West Nile which also can't be predicted but it is heavily monitored by those with Mosquito Control. "We have a very proactive program that is targeting west Nile virus." Research is going on right now while regular aerial spraying is also taking place. But cutting down on mosquitos is your responsibility as well "Think like a mosquito for a lack of a better way of putting it. Check anything that looks like it might hold water." And dump it out. The 41 different types of mosquitos we have in Chatham County can't survive without it. "Go around your house look for anything that maybe holding water, it actually can be anything as small as a bottle cap." If you have a mosquito problem or you want some more information you can go to our website WTOC.com and click on this story on the solution center. Reporting in Savannah, Marla Rooker WTOC news	1:28

6/10/2015	LIVE AT 5:00	NEW SIRENS IN RINCON	<p>Fun in the Summer sun can quickly turn cloudy and dangerous. Wesley Corbitt, Rincon City Manager "Tornado can drop out of the sky real quickly." And while Effingham County Emergency Management has text alerts - Rincon - one of the fastest growing areas in the Coastal Empire wanted sirens to warn the city - but there was a hiccup. Wesley Corbitt, Rincon City Manager "They're so expensive, talking about 100 thousand for the system we have here. There's a city in north Georgia, Winder, Georgia, and we have a relationship with the city manager up there and they were removing their sirens, and we made contact and they've given them to us." Reprogramming and installation did cost the city about 30-thousand dollars - money one mother and daycare owner says is well worth it. Takara King, Rincon Daycare Owner "Especially for me, being a provider of other people's kids not just mine, so when they're out playing, it'd be good they'll hear the sirens and they'll know what's going on, so I think that's awesome. Jamie: This is last of four sirens to go up. This one's going to go up on Giles Avenue off 9th Street at Macomber Park. And another important note is that even though a lot of thunderstorms rolled through Effingham County last night - these sirens are only set up for tornado warnings and there's a reason for that. Wesley Corbitt, Rincon City Manager "Not a tornado watch because then people will take it for granted and won't seek shelter. When they hear this alarm go off, there's a tornado sighted in the county; that means it's just a few minutes possibly from you house; seek shelter." When a tornado is sighted the sirens will blast for three minutes and will continue to blast in the tornado threat is over. In Rincon - Jamie Ertle - WTOC News.</p>	1:42
6/11/2015	LIVE AT 5:00	CHATHAM CO. SPAY & NEUTER	<p>Savannah-Chatham Metro Animal Control wants animals in Chatham County spayed and neutered by January 2016.The proposed changed would require animals over six months old to be spay or neutered. There are exceptions for a licensed breeder, animal's health condition or if it's a rare type of animal. But others say -- they're all for it. sot- danielle gaydos, savannah "i mean i think it's better for a general population of dogs to be spayed and neutered because there are so many that don't have homes." Daniel Byrne/Burton Fire District: "With the airshow coming up, we have an influx of a lot of people coming in the area and we have a lot of aircraft in the sky doing acrobatics so the potential for something to go wrong is there."Something did go wrong in 2007, when a Blue Angel pilot was killed in a fiery crash during the airshow. The student's mother isn't satisfied with the punishment. Johnita Anderson says her 7-year-old son put too much tissue in a toilet at school. "He said that the teachers told him to go into the bathroom to take the tissue out of the toilet." She says feces were in the toilet too. One of the teachers stood over him to make sure he did it. "He said mom I felt disgusted." Anderson called her son's teacher. She says the teacher initially denied it. Johnita Anderson/ Parent: "They were very dishonest about it in the beginning. They lied to me and told me it did not happen." That's when she contacted the school's principal, who launched an investigation. Dr. Karen Wicks/ Royal Live Oaks Academy Principal: "There were two other children who were present because they were in line for the bathroom. They confirmed it. It was just a stupid decision. It was one of those things. There is a penalty for that of course." Dr. Karen Wicks would not comment on how the teachers were punished. Anderson says, whatever it was, it wasn't enough. "How can you trust what they have to say when they lied on a 7-year-old. If I move him he's going to say 'Wow, something happened, I told my mother and now I'm the one being punished. I believed that the teachers should have been fired for that.' Now, she has a message for other parents. 6/2/2015	LIVE AT 5:00	BEAUFORT CO. TEACHER PAY	Katelyn Roberts/ Exiting First-grade teacher "I was really worried about paying the bills each month and a few times, I overdrew my account a couple times after paying all the bills. And that's when I got my first extra job as a server." Roberts is native to Ohio and says that the allure of Hilton Head Island is what drew her to take the job. "The environment, the climate, the beach. I had grown up in Ohio, stayed in Ohio for college, so I just decided to get away and why not go south to the beach."Unfortunately, after a short four years, and maintaining three different jobs at one time, the cost outweighs the benefits and Roberts is moving home to Ohio Jill McAden/Principal Hilton Head Island Elementary School "They went into this field as a profession, not as a job in order to have a second or a third job to sustain their first jobs. They want to be a teacher, they want to spend their off time writing lesson plans, they want to spend their off time planning for their kids, and that's a shame that many of them are unable to do that." Last month, School district officials approved an extra bonus for teachers next school year, but first, county council must approve of the budget for the next fiscal year. Jim Foster/ Beaufort County School District Spokesperson "The Superintendent has proposed and the Board of Education has approved a locality supplement, essentially an additional thousand dollars will be added to the educators check for that year. And it would increase one thousand dollars for a total of five years, for a total five."	1:31

6/3/2015	LIVE AT 5:00	EFFINGHAM COUNTY TEACHER RAISES	Randy Shearouse, Effingham Superintendent: "It's a very competitive job market, and I believe it's going to get more competitive." That's why last year -- Effingham Schools gave teachers a 3 percent bonus on their annual salaries. It was the first pay increase teachers had been given in six years. Randy Shearouse, Effingham Superintendent: "That's the good news, that we are not raising taxes." But next year -- the school board is considering upping that yearly bonus to five percent -- and giving lower paid staff a five percent raise -- a raise that will keep going up for the next two years. Randy Shearouse, Effingham Superintendent: "We have to be competitive. We want the best folks possible driving our busses. We want the best employees preparing our food for our students." Right now -- pay for Effingham's *teachers* falls right in the middle of surrounding counties. Last year, a starting teacher in effingham with a master's degree made 41 thousand, four hundred ninety six dollars a year. That's part of the reason school board member Beth Helmy questions whether Effingham's teachers prefer a smaller bonus -- so the school board can afford to hire more teachers -- and reduce class sizes. Beth Helmy, Effingham School Board: "To sit here and say I might give up a few dollars here or there but then I could have another person -- I might be wrong. They may crucify me. But I think a lot of people would like to have some extra help sometime."	1:25

6/24/2015	11PM	SEAN: SCHOOL BOARD MEETING	And money still will go toward those things, just twenty-five percent less of it.Cornelia Hall, Dist. 3 Board Member"We have a state government that wants ambitious things to happen for our children. On the other hand, they're not willing to give us the funding to go along with that ambition. So we have to do what we can at the local level to make sure that our children can succeed."But not all board members saw a full mil increase as necessary. And five of the nine voted it down. The remaining four were not happy. Irene G. Hines, Dist. 5 Board Member"When it comes to improving the schools, if the funds are not there, we're talking about raises for folk who have not received them in several years. And here we are, backing down."Next the board tried a half mil increase... shot that down and bumped it up to three-quarters. That worked.The idea of increasing taxes before passing a budget is new to this board. And change is hard for some. Larry Lower, Dist. 6 Board Member"If we're gonna talk budget, then let's talk budget. Then let's talk the funding for whatever budget we pick out. This is all backwards what we're doing here."Supt. Thomas Lockamy, SCCPSS"It was a little bit awkward for the school board, but they knew that. So I think it worked out, I think next year they'll probably do it the other way, the way we've always done it."Lockamy and those who managed to squeek this millage increase by are pleased with the outcome... moreso because it means your students will see the benefits of a budget that will help the entire system thrive....	1:30

Robert Smalls International Academy's logo for the 2014-2015 school year had a half-black, half white face.Claudia Scott/Robert Smalls Alumni:"It's offensive in a way because it's not the real person. We need to see a real face that shows exactly who Robert Smalls is. He's a black man and we need to see that."James Warren/Robert Smalls Alumni:"I can't say that I personally found it offensive. I found it to be a multicultural type of look, but other people may have a different view." School district officials met with the Robert Smalls Association .Jim Foster/Beaufort County School District:"We worked together with the association. 6/17/2015 6 PM	ELIZABETH: SCCPSS FLEXIBILITY VOTE	Right now-- Savannah Chatham County Public School System gets waivers from the state -- for things like larger class sizes -- the strategic waivers option would allow the school system to operate much like it does right now. Should they choose a non-waiver system-- the school system would no longer be able to apply for any type of waivers which could be detrimental to the budget. sot- kurt hetager, SCCPSS spokesperson "so if you can't waive that class size-- you got to bring in more staff and that's upwards of 17 million dollars and that doesn't even include the operational side for facility adjustments" And becoming a charter school system would mean transforming nearly 55 schools in the county under the charter model.sot- kurt hetager, SCCPSS spokesperson "there would need to be 55 well established school councils" And while the school system has several charter schools established and is supportive of the model- they worry about having too many schools under that type of model.sot- kurt hetager, SCCPSS spokesperson "folks that are against that feel that you would have 55 schools going in 55 different directions and a possibility for a lack of equality across the district"...	1:10

We've been talking about this for over a year."But there were some in the audience who voiced opposition to having a Strategic Waiver district, favoring instead the Status Quo, or No-Waiver system.Several board members pointed out that legislation passed at the state level some time ago set school districts down this path, to make these tough decisions.Cornelia Hall, Dist. 3"If we do not vote, then we take what comes down the hill and we have to make the best of it."Mary A. Snowden, Chatham Association of Educators"When it comes to a head like this has done, where finally their long-term goal comes to fruition, then we go, ah. Look what they did to us. But we let it happen."Snowden went on to say that she feels the majority of board members' votes did not reflect what the public wanted, which was the no-waiver system.With the resolution reached, the letter of intent will be sent to the capital before deadline, and the process enters it's second phase.Kurt Hetager, SCCPSS spokesman "Moving to phase two now, which is the planning phase, where you basically pursue the waivers that are out there and work to come together to form the contract which would need to be in place by the fall of 2016."...	1:27

6/8/2015	6PM	SUMMER BRAIN DRAIN	they call it a summer brain drain and it is a real thing a lot of studies show that most kids on average lose about two months of reading and two months of math skills over the summer Dr. Ben Spitalnick with Pediatric Associates of Savannah says you'd be surprised how crucial those summer months are in your child's development. what you do with your child over the summer really does affect their overall academic achievement We spoke with a few parents who understand this, and try to do their best to make sure their kids minds stay engaged over the summer. you don't want to see them backslide over the summer How can you this? There are several ways! The first one is probably the most obvious. the biggest thing i can think of that we do off the top of my head is the summer reading program at the chatham county library Dr. Spitalnick says this is an excellent program for children of all ages. a child should be reading over the summer but the child should feel motivated give them a reason give them points find some way to celebrate the fact that they finished a book make it worthwhile to them While reading *is* fundamental, there are plenty of other activities as well... take your child to things that are fun and educational here we have oatland island we have great places to go learn about ecology learn about animals learn about biology Elizabeth st. clair says for her family, it's all about getting them outside. we don't really have any video games in our home so i want them exercising their brain and being creative outside they're playing around at the beach, the pool, the children's museum Even sporting events can be educational! baseball games..physics and math...you can talk about the score, statistics, trajectory of the ball Overall, Dr. Spitalnick says summer should not be an extension of everyday classwork, but instead.. it's not just about sitting down and continuing school its about finding ways to learn in the real world CYREIA: In this area there truly are is an abundance of resources - many of them are free! We have a list of ideas for you and your family posted online just click to the solution center on wtoc.com. In Savannah, Cyreia Sandlin, WTOC News.	2:21

5/13/2015	NOON	HEALTH MINUTE: HEALTHY KID HABITS	building healthy eating habits are crucial when it comes to kids.. "kids will eat what we give them. so when we are feeding our kids- we need to start by feeding them healthy foods."and when it comes to heart health.. the sooner the better..that's according to researchers at northwestern university's feinberg school of medicine.."you actually can develop coronary heart disease - plaque in the heart arteries-as early as 8, 9, 10 years old.obesity, cholesterol, blood pressure, eating the wrong things.. and then things like sedentary lifestyle- those are all very firm, hard fast risk factors for heart disease. "so what should parents do?"your kids are going to do what you do - they are not necessarily going to do what you say. so if they see you planning your meals around fruits and vegetables they will be more apt to do that themselves./you enroll the kid in their own health and they will take that with them as they grow older."and get them up and moving.according to the national institutes of health.. kids need about an hour of physical activity every day..and if parents join in.. those healthy habits will be formed in no time.holly firfer, cnn, atlanta....	1:08

"i know a man who can set you straight" ..outside the supreme court as the justices hear arguments in historic same-sex marriage cases. the high court is weighing whether states, particularly michigan, ohio, kentucky and tennessee must allow same-sex marriages - and if it's not required, whether all states must recognize same-sex marriages performed in other states where they are legal. travis weber is with the family research council. <i>sot: travis weber/family research council</i> "we believe the supreme court should leave this decision in the hands of the states and allow the 61% of americans who believe that states should be free to define marriage to have their voices heard." <i>standup: craig boswell/cbs news/the supreme court:</i> the cases being heard include jim obergefell's. the ohio man went to maryland to marry his partner - then his home state would not recognize their union. <i>sot: jim obergefell/plaintiff</i> "i absolutely feel like i'm being tried like a second class citizen. as someone not worthy of the same rights as the person standing next to me." shortly after the marriage obergefell's husband died from als - ohio refuses to list him as the surviving spouse on the death certificate. <i>sot: jim obergefell/plaintiff</i> "i think, i know he's proud. and i know he would thank me for living up to my promises to him." the court is expected to issue a ruling in june. craig boswell, cbs news, the supreme court....	1:28

4/28/2015	4PM News	SCOTUS SAME SEX MARRIAGE ARGUMENTS	<p>when it comes to deciding whether same sex marriage should be in the hands of the courts or state lawmakers ... division outside the supreme court is all about predicting division inside the court. "we really feel it's going to go in our favor." "we think it's important to keep marriage the way it is." court watchers listened for indications from chief justice john roberts and justice anthony kennedy--widely seen as the deciding votes. "you say join in the institution. the argument on the other side is that they're seeking to redefine the institution." "this definition has been with us for millenia, and it's very difficult for the court to say, oh well, we know better." but both asked tough questions of both sides...making it difficult to predict their votes. other justices seemed more predictable in their questions. "there is one group of people whom they won't open marriage to. so they have no possibility to participate in that fundamental liberty. that is people of the same sex who wish to marry. and so we ask, why?" justices also considered the question of whether a same-sex marriage legally performed in one state must be honored in every other state. greg burke, plaintiff: "we don't feel like we should have to leave our state just so that we can get the same treatment that other couples get in other parts of the country"...</p>	1:18

"all night, all day, we're gonna fight for freddie gray." the focus now will be on friday. that's when police will wrap up their investigation into freddie gray's death. they'll hand that information off to the state's attorney's office, who will then decide whether or not to press charges. that's the latest from baltimore, i'm ryan nobles reporting....</p>	1:17
5/18/2015	6AM DAYBREAK	GA RELIGIOUS FREEDOM BILL	<p>Georgia Republican delegates want a state law preventing government infringement on religious beliefs, while opponents say such measures are a shield for discriminating against gay or transgender people. The bill passed the Georgia Senate this year but stalled in the House when lawmakers adjourned in April. It remains active for the 2016 session. Gov. Nathan Deal and House Speaker David Ralston have said they could support a version that clearly bars the measure from being used as a defense of discrimination....</p>	0:31

6/12/2015	NOON	EDITORIAL SAL (FRI ONLY)	Broken TrustWe were reminded again last week of the deteriorating trust between police departments and the communities they serve. In Texas what appears to be - at best - over reaction and at worst blatant racism is the cause for a national uproar. A police officer manhandles a teenaged girl and then draws his weapon in what appears to be a completely disproportionate response to the situation. What is absent from the video is the first action - the incident that prompted a police presence in the first place. That is a crucial - and missing - part of the picture. But it cannot be disputed that cellphone videos and the explosion of social media have created a pervasive credibility gap for police departments that must be addressed. We would suggest a starting point is in the evaluation and training of the police officers -clearly there are some bad cops out there alongside of a vast majority of good ones. We also applaud programs like national night out and a Beaufort initiative that puts cops and kids in trust building gatherings away from the tension of a crime scene. It might also be time to return to cop-on-the-beat policing. The editorial board believes that officers on foot patrolling neighborhoods could be both a deterrent to crime and a positive, relationship building presence in the community. But we're open to suggestions: what do you think?...	1:21
5/17/2015	WEEKEND 630 PM	EQUAL PAY FOR WOMEN	The fight to get equal pay for women has dragged on for decades. Although the gap is getting smaller, it's still large enough to have a major effect on women across the country and their families. A new study by the National Women's Law Center takes a look at how the wage gap hurts women and families. On average women earn 78 cents for every dollar a man makes. 6/19/2015	4PM News	WBTV: NAACP IN CHARLESTON	This memorial site continues to grow- along with it is the sense of unity people living and visiting Charleston have. It's a sense of support for the community, and a sign the holy city will heal Randi Olson, visiting from Ohio: "it will heal. And it will heal because of the people" It will take time to get there, but this city is determined Larry Olson, visiting from Ohio: "it's not a reflection on Charleston. Unfortunately, it is a reflection of many foolish people in the country and to think something this ignorant could happen in this day and age" The act of evil doesn't represent Charleston – but the united community does. Friends of victims killed spend time here helping others Constance Gilbert, lost a friend: "someone may be out here that needs a hug, an encouraging word. So that's why I came" Her friend's name, Reverend DePayne Middleton-Doctor, waves in the wind on one of nine ribbons lining the church gate – one for each life lost. Onlookers are brought to tears in front of the makeshift memorial. 45 The Tarver family, visiting memorial: "we want to support our brothers and sisters. It's important to bring Jensen, our son, because this is history. And although there is evil in the world, there always will be, we're here to pray and support the people" tag While these flowers and signs are temporary- they show a permanence in the loss- a balloon for Father's Day really represents that empty seat at a family table every night. 6/19/2015	6 PM	ELIZABETH: HATE CRIMES	To hate is not a crime but according the FBI-- it is --if you commit a crime that's motivated by your own biases. The most recent data the FBI has available is from 2013-- hate crimes are broken down into race, religion, sexual orientation, ethnicity, gender and gender identity. In 2013-- there were nearly 6,000 incidents nationwide-- that number is down compared to the year before and has dropped significantly since in 2005 when there were nearly a thousand more. However-- the majority of these crimes continue to be driven by race. In 2013-- 66 percent of the offenses were against black people, 21 percent against whites and four percent against asians. And while the statistics indicate hate crimes continue to happen-- it's rare that they happen to this extent-- in fact only five people lost their lives nationwide in 2013. And believe it or not -- you're less likely to see hate crimes in the South. California ranks number with more than 1,000 incidents last year... followed by New York, New Jersey, Ohio and Michigan. Our area was further down the list, there were only 72 incidents in Georgia and 59 incidents in South Carolina....	1:07

Mississippi's House Speaker has called for the confederate battle emblem to be removed from the state flag -- saying it offensive. In Tennessee -- GOP and democratic lawmakers are calling for a bust of Confederate general and early KKK leader Nathan Bedford Forrest to be taken from outside of state chambers. The history of the confederate flag in Columbia goes back to the 1930's. We have the entire timeline online at WTOC.com....	0:32
6/23/2015	6 PM	WMBF: FLAG RALLY	Today's vote does not remove the flag – it is simply the first step necessary for the senate and house to begin the conversation- and it means that conversation will have to take place before the end of the summer session. That could take a few weeks – but supporters hope the conversation is sooner RATHER than later so lawmakers do not lose focus and FORGET THE NINE PEOPLE KILLED IN THE Charleston church shooting – an evil act, lawmakers say, that has sparked this debateREP. Patricia Henegan, (D) District 54 "people need to remember the 9 that died and the reason why they died – because of hatred and evil. Senator Clementa Pinckney answered the call to preach at the age of 13 and received his first appointment to pastor at 18 years old. The late Senator served in both the House of Representatives and the State Senate for a combined 19 years. Sheheen says Pinckney believed in the dignity and respect of people -- wherever and whoever they were. He says the Senator was a quiet person but spoke up loudly when there were issues that affected people who did not have a voice. But Sheheen adds he was a gentle man, who was not wealthy, but wealthy in spirit and in kindness. And Sheheen says Pinckney was a person who brought people together -- even through his death....	0:45

6/24/2015	LIVE AT 5:00	CYREIA: CONFEDERATE FLAG ISSUE	Don neuman is the commander of the savannah militia camp of the sons of confederate veterans. He says the goal of the national organization, found in 1896, is preserving monuments, cemeteries,symbols, trying to make sure the true history of the south is told He admits, some of that history is ugly, my ancestors owned slaves and i'm not proud of that. i didn't live then and i don't think i need to apologize for their actionsAnd while he denounces the horrific shootings in Charleston last week, he doesn't think the negative attention surrounding the confederate flag right now is justified i don't appreciate that. it grieves me when i see these fringe organizations if you will using our battle flag for some type of symbol of hate it certainly is not.But some would disagree. For at least the past 60 years, many have viewed the confederate battle flag as just that - racism, bigotry and segregation. This opinion is especially strong at the south Carolina state capitol. "it's enough. It's time for change. It's time for it to happen. It's time to tell the people who use that sign for hate they do not run south Carolina."In georgia, the confederate battle flag has a rocky history. There have been three state flags since 1956...with all of them bearing some type of nod to the confederacy. The version with the battle flag was eradicated in 2001. Neuman says when this happened, it felt like a slap in the face. i felt like my ancestry was being assaulted. i felt like we were moving away from our roots and it was being challenged to no good end.Although he says he is pleased with the current version Georgia's state flag, he does admit, he is nervous for what's to come wil it be thomas jefferson's monument in dc..he was a slaveowner..i see where it's begining, but where does it end? in savannah cyreia sandlin wtoc news...	1:49

There are no words to express our outrage at the hatred of Dylann Roof's actions, no words that will console Sen. 4/28/2015	4PM News	SCOTUS SAME SEX MARRIAGE ARGUMENTS	<p>when it comes to deciding whether same sex marriage should be in the hands of the courts or state lawmakers ... division outside the supreme court is all about predicting division inside the court. "we really feel it's going to go in our favor." "we think it's important to keep marriage the way it is." court watchers listened for indications from chief justice john roberts and justice anthony kennedy--widely seen as the deciding votes. "you say join in the institution. the argument on the other side is that they're seeking to redefine the institution." "this definition has been with us for millenia, and it's very difficult for the court to say, oh well, we know better." but both asked tough questions of both sides...making it difficult to predict their votes. other justices seemed more predictable in their questions. "there is one group of people whom they won't open marriage to. so they have no possibility to participate in that fundamental liberty. that is people of the same sex who wish to marry. and so we ask, why?" justices also considered the question of whether a same-sex marriage legally performed in one state must be honored in every other state. greg burke, plaintiff: "we don't feel like we should have to leave our state just so that we can get the same treatment that other couples get in other parts of the country"...</p>	1:18

6/12/2015	NOON	EDITORIAL SAL (FRI ONLY)	Broken TrustWe were reminded again last week of the deteriorating trust between police departments and the communities they serve. In Texas what appears to be - at best - over reaction and at worst blatant racism is the cause for a national uproar. A police officer manhandles a teenaged girl and then draws his weapon in what appears to be a completely disproportionate response to the situation. What is absent from the video is the first action - the incident that prompted a police presence in the first place. That is a crucial - and missing - part of the picture. But it cannot be disputed that cellphone videos and the explosion of social media have created a pervasive credibility gap for police departments that must be addressed. We would suggest a starting point is in the evaluation and training of the police officers -clearly there are some bad cops out there alongside of a vast majority of good ones. We also applaud programs like national night out and a Beaufort initiative that puts cops and kids in trust building gatherings away from the tension of a crime scene. It might also be time to return to cop-on-the-beat policing. The editorial board believes that officers on foot patrolling neighborhoods could be both a deterrent to crime and a positive, relationship building presence in the community. But we're open to suggestions: what do you think?...	1:21
5/17/2015	WEEKEND 630 PM	EQUAL PAY FOR WOMEN	The fight to get equal pay for women has dragged on for decades. Although the gap is getting smaller, it's still large enough to have a major effect on women across the country and their families. The gap amounts to nearly \$11,000 a year that women and their families are being shortchanged....	0:26

6/19/2015	4PM News	WBTV: NAACP IN CHARLESTON	This memorial site continues to grow- along with it is the sense of unity people living and visiting Charleston have. It's a sense of support for the community, and a sign the holy city will heal Randi Olson, visiting from Ohio: "it will heal. And it will heal because of the people" It will take time to get there, but this city is determined Larry Olson, visiting from Ohio: "it's not a reflection on Charleston. Unfortunately, it is a reflection of many foolish people in the country and to think something this ignorant could happen in this day and age" The act of evil doesn't represent Charleston – but the united community does. Friends of victims killed spend time here helping others Constance Gilbert, lost a friend: "someone may be out here that needs a hug, an encouraging word. 6/19/2015	6 PM	ELIZABETH: HATE CRIMES	To hate is not a crime but according the FBI-- it is --if you commit a crime that's motivated by your own biases. The most recent data the FBI has available is from 2013-- hate crimes are broken down into race, religion, sexual orientation, ethnicity, gender and gender identity. In 2013-- there were nearly 6,000 incidents nationwide-- that number is down compared to the year before and has dropped significantly since in 2005 when there were nearly a thousand more. However-- the majority of these crimes continue to be driven by race. In 2013-- 66 percent of the offenses were against black people, 21 percent against whites and four percent against asians. And while the statistics indicate hate crimes continue to happen-- it's rare that they happen to this extent-- in fact only five people lost their lives nationwide in 2013. And believe it or not -- you're less likely to see hate crimes in the South. California ranks number with more than 1,000 incidents last year... followed by New York, New Jersey, Ohio and Michigan. Our area was further down the list, there were only 72 incidents in Georgia and 59 incidents in South Carolina....	1:07

6/24/2015	LIVE AT 5:00	CYREIA: CONFEDERATE FLAG ISSUE	Don neuman is the commander of the savannah militia camp of the sons of confederate veterans. He says the goal of the national organization, found in 1896, is preserving monuments, cemeteries,symbols, trying to make sure the true history of the south is told He admits, some of that history is ugly, my ancestors owned slaves and i'm not proud of that. i didn't live then and i don't think i need to apologize for their actionsAnd while he denounces the horrific shootings in Charleston last week, he doesn't think the negative attention surrounding the confederate flag right now is justified i don't appreciate that. it grieves me when i see these fringe organizations if you will using our battle flag for some type of symbol of hate it certainly is not.But some would disagree. For at least the past 60 years, many have viewed the confederate battle flag as just that - racism, bigotry and segregation. This opinion is especially strong at the south Carolina state capitol. "it's enough. It's time for change. It's time for it to happen. It's time to tell the people who use that sign for hate they do not run south Carolina."In georgia, the confederate battle flag has a rocky history. There have been three state flags since 1956...with all of them bearing some type of nod to the confederacy. The version with the battle flag was eradicated in 2001. Neuman says when this happened, it felt like a slap in the face. i felt like my ancestry was being assaulted. i felt like we were moving away from our roots and it was being challenged to no good end.Although he says he is pleased with the current version Georgia's state flag, he does admit, he is nervous for what's to come wil it be thomas jefferson's monument in dc..he was a slaveowner..i see where it's begining, but where does it end? in savannah cyreia sandlin wtoc news...	1:49

5/14/2015	NOON	MANAGING DAY CARE COSTS	new parents often get the nursery, clothing, car seats, and strollers ready in advance of baby's arrival, and a plan for child care doesn't come into place until it's needed.but child care referral website care-dot-com, recommends starting the search as soon as parents get the good news.(donna levin, care.com co-founder) the moment you find out that you're expecting and you're gonna have a new bundle of joy, you should definitely start to budget. so depending on the type of care and your options and what you can afford, there are some great things that you can do. one of the first things that we recommend is that you stop off and talk to your employer. your employer may have programs to help find child care, maybe even subsidize or discount care from certain providers, which can help during the crucial early months. (donna levin, care.com co-founder) infant care tends to be much more expensive, the great news is the cost of care goes down as your child gets older. but for a newborn baby, if you're considering child care, a child care center, its going to be costly because of the ration of teacher to infant, is much lower. to keep costs down, consider a nanny share, where neighbors split the cost of a caregiver. or tap into existing networks like churches and other local nonprofits that may offer day care for less than the cost of private child care businesses.and keep in mind that those care costs run about 18 percent of the overall spending on raising a child.for consumer watch, i'm karin caifa....	1:24

It's been a problem since 2006.Chuck gold/gold's honey: you'll go out to your hive one day and there won't be no bees or whatever in your hive. I mean that just die out in the wild and never come back.No one is sure the exact cause, but entomologists say it could be due to mites, a virus, or pesticides.Chuck gold/gold's honey: don't get stung!No matter the cause, chuck gold/gold's honey it's just part of life. 5/29/2015	6PM WEEKEND	GROCER STORE CLOSING AFTER 95 YEARS	Today is one of the store's last days and folks have been coming into his store, buying things and reminiscing on what the store meant to them growing up. It's been in Beaufort since 1920 - and customers say it has always been a place where they can go to buy necessities and even if they didn't have the money, Mr. Pruitt would still take care of them. 6/11/2015	LIVE AT 5:00	TRACI: ESTILL DRUG STORE CLOSED	For nearly 30 years, Hanna's Discount Pharmacy has serviced the Estill community. Evan Brown/Estill resident: "They are very nice people. The service is good. I'm surprised that it's closed." Like many customers, Evan Brown found out the pharmacy was closed when he stopped by to pick up a prescription, and saw the sign on the door. "I'm highly disappointed because this is the place I always get my prescriptions filled and now I'm wondering where I'm getting them filled now." What's even more frustrating to customers is the next closest pharmacy is in Hampton – 13 miles away. Evan Brown/Estill resident: "26 miles, to go back and forth, to go from here to Hampton and come back. So if you've got to do that a couple times a month, that's a lot. To go 26 miles, that makes a big difference on your pocketbook. That's your gas, your time, and everything." The town administrator says Estill's senior citizens are going to be affected the most. Danny Lucas/Estill Town Administrator: "80 percent of the clientele are mostly geriatric patients and they are to some degree of less means, and so they don't have private transportation typically." And the town is working right now, to find a solution. Danny Lucas/Estill Town Administrator: "We're going to need a pharmacy, and having the citizens drive 13, 20, 49 miles for pharmaceutical services is not the best way to go about it." Evan Brown/Estill resident: "I hope someone else opens up. It would be good for the community." The pharmacy did leave a message to its customers – a note on the window thanking the community for their support throughout the years. Reporting in Estill, Traci Washington, WTOG News....	1:38

6/11/2015 6 PM		MARLA: PEACH FEST ON TYBEE ISLAND	Tommy Jordan - Tybee Resident "We clean their mess up and they come down here on our island and that is why nobody likes them, some people may like it but I am not one of those people." Tommy Jordan runs the bait and tackle shop at the end of the pier and he has seen it time and time again but he is concerned about peach fest because of what happened at this year's orange crush. "And this year they are shooting, it gets worse and worse every year." A shooting that shocked the community, many say they never thought it would get *that* bad. Others say it is just one person who ruins it for everyone and they wish the event had a more positive image. Jessica Thompson - Savannah resident "I think it is a good experience for the young people to get out, to me Savannah doesn't have too much to do, for them to get out and do that is a good thing but at the same time there is no drama." Jessica Thompson works for a transportation company that regularly brings beach goers to Tybee, she's seen the trash and heard of the violence but doesn't think we should look forward to such things happening in the future. "You really can't prevent it, shootings happen anywhere, it could happen in front of a church." But city officials will prepare for the worst, working to make sure everyone is safe. Jason Buelterman - Tybee Island Mayor "We will be cooperating with state patrol as we do now and metro police to make sure there are not any negative incidents." The launch of peach fest was quiet last year, Mayor Buelterman says it may not be as bothersome as some think. "So this has been promoted in the past and nothing really came of it, Tybee welcomes everyone out to the beach."...	1:36

I got on my running shoes and im ready to go. : it's the best. We wait every year for this. We are here 365 days a year. Waiting on this and New Year's. We bought them last year. It's the return business that is helping. This year South Carolina businesses say they have seen no decline in fireworks sales, since Georgia will go legal on Wednesday.Misty Simmons: We are watching because hey they are competition, we've got to look out but we are not worried. Times may be changing But what hasn't changed is quality and service. Workers say year in... year... out... It's the quality of product and knowledge of employees that brings back the customer. We are the best.. I think we are the best, we still have people coming in from 20 years ago, so there must be something about us.I've been here 13 years, we have 2 fireworks, so we just don't just sell them we know them. That in itself helps us out. Thank you bye.....</p>	1:05

4/8/2015	LIVE AT 5:00	FAMILY FINANCE: FOUR THINGS BEFORE TAXES	cyreia: while millions of americans can expect to get money back from uncle sam this year, some people will end up owing money to the government. if you end up falling in the second category bankrate has some tips on what to know before you pay. first, this one is pretty obvious, but know the date. taxes are due the 15 and if you file an extension...you still have to pay by that deadline. next, know where and how to pay. the irs recommends using direct pay which deducts money from your bank account securely. you can also send a check or money order. but if you do pay with a credit card, beware! you'll be charged a fee that could be up to 2.37 percent. debit card fees on the other hand usually don't have a fee higher than \$3.50. (credit vs debit?) lastly - realize you have options. you *can* get an extension of up to 120 days and the irs does offer payment installment plans. (know your options) cyreia: there are a few more tips you need to know before you pay the government. to read them go to the solution center on wtoc.com....	0:57

4/10/2015	NOON	EDITORIAL SAL (FRI ONLY)	Should we build the offshore pipeline? Should we allow a pipeline to be built off the coast of Georgia and South Carolina? That topic is being hotly debated currently - as well it should be. On the pro side is the possibility of creating something which facilitates economic expansion and lessens America's dependence on foreign oil. On the negative side the potential for environmental disruption - if not environmental disaster - looms large. It's a crossroads where we have to balance such things as the price of transportation and industrialization against the interest of fishing and tourism and the potential environmental impact that we've seen have disastrous effects. The fact that the question has gotten the public's widespread attention is an encouraging sign. Our question is: what do you think?...	1:46

6/10/2015	6PM	BEAUFORT AND NON PROFITS	<p>city Manager Bill Prokop says there is a substantial amount of tax revenue the city isn't allowed to touch.</p> <p>"The total value of their property is 1,044,512 dollars. They would generate somewhere between 346 and 356 thousand dollars depending on how it was applied." Prokop says these tax-exempt entities like hospitals or churches, own other properties or private businesses, that therefore do not pay property taxes or business licenses, but yet they still use the city's public services like water and police. "One example that we never thought of is one company or one group said look, we run a daycare, we're private, we're paying for it, but this non-taxable one runs a daycare, they have a competitive advantage, and they don't pay for their services, so that's what we are trying to do is level the playing field." Several cities around the state have already implemented this same plan, and Beaufort will talk to these organizations before the end of this year, to find out a fair way to have them pay for services, and hope to add it into next year's budget."All we're asking is for people to pay for a fair service. They have maybe hundreds of employees, and thousands of square feet of property, and they pay nothing. That we don't think is fair." Reporting in Beaufort Jessica Knight WTOC News.</p>	1:16

5/14/2015	LIVE AT 5:00	EDITORIAL SAL (THURS ONLY)	Buy a Chopper!The construction on I-16 is frustrating, the traffic bottleneck at the new Tanger outlet isn't as bad as we feared, but for a real mess it appears you have to go to highway 204. Vance McFarland wrote us about the routine 20 minute drive to Savannah Mall on 204 that took him an hour and a half the other day. A lot can be questioned in the planning - or lack thereof in such a situation, but sometimes there isn't really a workable solution to the problem. In those instances Mr. McFarland asks a reasonable question: where are the police officers to keep the traffic flowing as best it can? WTOC First Alert Traffic Expert Jamie Ertle says that we might just have to suck it up and plan for a little longer commute on I-16 until the work's finished in August. She says that the maintenance is necessary to keep from having to do much more disruptive work in the future. The transportation crews have heard the public outcry to work at night when there's less traffic and they're doing that. But I-16 is dark and - wouldn't you know it - twice already cars have driven into the wet concrete and disrupted traffic even more. Jamie does suggest that people learn alternate routes to get to their destinations. And plan to leave a little earlier. What do you think?...	1:14
5/14/2015	6 PM	ALYSSA: TOUR GUIDES	Taking a tour in downtown savannah is one of the most popular things to do for tourists every day. Carry Smith is not only a history professor but an experienced savannah tour guide-- who gives both trolley and ghost tours regularly-- and says she takes pride in knowing her facts. and its upsetting to her when the information gets botched by others who may not know their stuff. Carry Smith- Tour Guide "it does frustrate a lot of people. There are a couple of anecdotal stories that you can embellish a little. But to be correct is a must because it gives people a bad taste about savannah and about the tour guide. Smith is a permitted tour guide- which is required by the city-- that means she has past a tough test on savannah's history -- and passed a thorough background check. The city of savannah says this is a process in place to make sure you get the best experience possible- This city says the tourism industry is continuing to grow- and right now they are in the process of updating the ordinance that regulates it.Bidget Lidy- Tourism Management - "we are in the process of reviewing every aspect of the ordinance and will be making periodic updates throughout the course of the next year."Carry Smith- Tour Guide "savannah is a place where for over a 281 year period rich in history. 6/5/2015	4PM News	ALMA BLUEBERRY FESTIVAL	<p>Tons of people will come here to Goldwasser Park in downtown Alma for the fun of the festival, but also celebrate the crop that has become the lifeblood of this community. Crews pack blueberries at shed like this all over Bacon County. Blueberries now top peaches as Georgia's largest fruit crop. Albert Wildes / Pres. - Ga. Blueberry Growers' Assoc. Last year we grew more than 90 million pounds of blueberries and that had an economic impact of about one billion dollars in the state. Much of this land once grew tobacco. As that crop faded, the UGA extension service and research centers studied a crop to replace it and advised farmers what would grow here. Dr. Gary Black / Georgia Agriculture Commissioner What we're seeing now is the return on the investment you and I make as tax payers in the university research and how it pays off down the road. Now health studies galore praise the antioxidants and other values for blueberries to fight diabetes, obesity and more. As there's more research and more of that information gets published, we can keep growing. We could get to the point where people are eating as many blueberries as they're eating strawberries....With live music and other entertainment here this weekend, there'll be plenty to see, plenty to do and plenty to eat...including tons of blueberries, if I don't eat them all. 10-Jun	6pm	TIMESHARE ON HUTCHINSON	<p>Some might think Hutchinson Island is prime realestate for development--land that overlooks one of the most busy attractions in Savannah--river street. But the majority of the land is untouched -- and no -- there are no restrictions to build. In fact the city had a vision for the island back in 2005--creating squares much like the ones in downtown Savannah but none of it got off the ground when the economy nearly crashed. - tom thompson, MPC exec. director "people that were thinking about retiring didn't retire -- people that might invest in a second home were holding back." And on top of that -- it's more expensive to build on the island because of the wetlands. tom thompson, MPC exec. director "often developers will go to places that are easier to build on or less expensive first" But engineers believe there's more to it. james collins, vp thomas and hutton engineering "one of the issues they consider is- you can stand on hutchinson island and look at downtown savannah and it is a gorgeous view-- they are wrestling with the connectivity issues there" Meaning the access to downtown savannah is not as convenient but one developer is willing to take that risk-- Edgewater Resorts wants to build a timeshare resort with more than 300 units on nearly twenty acres -- and officials say there are other projects in the works like a police and fire station and possibly a private marina-- all of which could be a good sign for the island. james collins, vp thomas and hutton engineering "there is more interest in hutchinson island than there was a couple of years ago"</p>	1:33

boot camp for a marine recruit is, by design, a physical and mental transformation... when the sign here at parris island says "we make markines," what it really means is we tear people down and completely rebuild them. you can't do that to someone who walks in with a "massive" disadvantage to special report | david klugh; " A recent mission readiness report indicated that between 70 and 75-percent of all the potential recruits who were showing up across all branches of the military were not qualified. Quite frankly, they were too fat to fight. But every so often an individual shows up here for their own transformation at Parris Island, only not before going through their own transformation before they ever arrive."that is phillip hutchins" story. by the time phillip reached his senior year in high school he had also reached a whopping 270 pounds. he was fat, unmotivated, and in no hurry to get anywhere.phillip"s mother described to me what she saw everytime he walked into a room.lori campbell | marine mom; "that he"s gonna have health issues, that he would have continued to gain weight, that he would, you ,know, he was just in a dead end career. he was just going no where."then at the age of 26, something clicked in phillip hutchins. it was, for lack of a better term, an epiphany."actually, the day we went to Parris Island to see his littler brother Jacob graduate. That was the day. That did it for him." standing next to his brother at a marine corps graduation convinced phillip it was time. but he was 26. quickly approaching the age limit for enlisted marines ... and he had a massive challenge ahead of him."his whole way of thinking, his whole eating habits. His motivation just went through the roof.""he started preparing his own meals separately. He started running, swimming, riding his bike, Just determined every day, rain, no rain."by the time phillip went back to try enlisting a second time. less than a year later, he was nearly 100 pounds lighter ... in peek physical conditino and ready for anything.the marine corps might see this kind of transformation in one out of a thousand recruits.phillip hutchins. | united states marine: "it would really be an honor if I could inspire anyone who had been in the position I was in before that had poor lifestyle habits, poor choices that lead to poor health. To be able to turn that around and do something with your life.jacob campbell | phillip"s brother: It's all about the mindset. You can turn your life around if you want to and he is proof. Living breathing proof right now that you can go from bad habits, bad conditions and completely do a 180given the challenge of finding qualified recruits, the marine corps can only hope more young men and women can find this same brand of motivation."A lot of pride right now. No words really. Amazing. Outstanding. They both are true success stories. Not enough words to describe how proud I am.

DAVID: TOO FAT TO FIGHT

6/26/2015

The mission seems simple enough: Lowering a basket into a boat to get an injured person quickly airlifted for medical help. But there' are a lot of factors riding on the mission's success.Michael Beach/ Communications Director, Fripp Island Sea Rescue" When the basket comes down the boat need to be very carefully going in the same direction and not moving around a certain speed and a certain direction into the wind so we practice that, and we also have to be careful because when that basket comes down it's charged with static electricity and it will shock you if you touch it, so there's a pole that they use to touch that basket before they drop it into the back of the boat."The crews have to work together, communicating by radio, and relying on each other's skills in the event of an actual rescue."We don't very often have to lift somebody up in a basket but once in a while the Coast Guard has to do that, so we need to be trained to provide them that capability off the water."The teams try to plan a monthly training session to practice these skills, and it is always timed close to sunset so the Coast Guard can practice maneuvering in the dark."We're scheduled to do training once a month, and we never know until the last minute, really if that training is going to take place, because they may be doing some other mission, rescue mission or search or something like that."Reporting from Fripp Island Jessica Knight WTOC News....

A project by the Army Airforce Exchange Services -- also known as AAFES (a-fees) that's been in the works for several years but no one knew. sot- anthony phillips, owner of advent dental"what they said to us was -- we sent out a notice to all the local dentists and we didn't receive a notice" Even Congressman Buddy's Carter's office says they weren't aware. "we don't have a record of receiving a letter so that's a concern. Local dentists say they just wish they could have known about the possible competition before making business changes of their own. sot- dr. tad jackson, dentist "about a year ago i started building a new facility -- it's now complete so i have two facilities. So if i don't have the patients to the support them- -then as a small business owner, i run the risk of going under .Anthony Phillips and his wife are former military. He says most local practices accept military insurance and accommodate to military needs. They recently spent 1.2 million dollars on a state of the art facility a mile from post-- but he if he had known about the plans.. sot- anthony phillips, owner of advent dental"we probably would have scaled back some" The practice on post will be a local dentist but AAFES will take bids and only select one-- whoever doesn't get picked will likely lose business-- for practices like Advent Dental, they could lose nearly 2,000 patients. sot- anthony phillips, owner of advent dental"people go to where it is easy access and if the facility is there-- they are going to capture that audience."...

"underneath all the corruption and stuff was the idea that we were there to set captive free..and I would do that again."When he says he would do that again he says it with the understanding of someone who knows what it means. -- Steve walked point in Vietnam -- that meant that he was at the front of the line of soldiers marching through the jungle where there were mines or booby traps or viet cong. -- He walked point - as they all did - in a grim roulette that sent the newest guys to the front because the senior guys had done their time in the crosshairs. -- Steve lost his leg and some parts of his sanity doing that and here's what he said about it:"I do believe in freedom and if I was called upon by my country to fight again...I'd give the other leg."For the Memorial Day celebration enjoy the beach and the cookouts and a frosty beverage perhaps -- but don't forget the Americans who the holiday is meant to honor -- don't forget the men and women like Steve Way....</p>	1:11

At the museum, a special display will open commemorating the centennial and visitors can see how the recruit depot began."When recruits were initially coming to island, they came to island by boat, and that existed for a good ten years into operations itself, so you can imagine being a new recruit, pretty uncertain, pretty uncertain times in our national history as well, you get off a train, then get on a boat, to come to an island, you really have a feeling of isolation"Now the base has thousands of recruits on any given week and spends 13 weeks shaping and transforming them into the Marines and leaders they will become."We've been here for 100 years. 5/5/2015	NOON	TX: ISIS CLAIMS RESPONSIBILITY FOR ATTACK	and we say to america, the defender of the cross. what's coming... will be even worse. an audio statement on isis' al bayan radio station warns the u.s. of more attacks like the one in garland, texas. it is the first time the terrorist group has claimed responsibility for an attack on american soil. the radio address hailed 34-year-old nadir sofi and 30-year-old elton simpson as heroes. -- but it's not clear if they had any direct connection to isis, or were just inspired by the organization. police say the two men arrived at this dallas area conference center where an art contest depicting the prophet mohammad was being held. they were armed with assault rifles and opened fire -- wounding a security guard. both men were shot dead by police. sot sharon soofi- nadir soofi's mom "i can't imagine what went through his mind." sharon soofi says her son was a devout muslim but she never thought he would hurt anyone. sot: sharon soofi/nadir soofi's momi mean to be convinced to do something like this is beyond—is just beyond me." the men drove a thousand miles from phoenix to this event space in garland texas. the building reopened today. the fbi started investigating simpson 9 years ago. as investigators searched the suspects apartment in phoenix for more evidence on monday, law enforcement sources say soofi was never on their radar. adriana diaz, cbs news, garland, tx....	1:22
5/8/2015	5AM DAYBREAK	CBS NSA PATRIOT ACT	the future of the national security agency's controversial spy program now hangs in the balance. on thursday --- a federal appeals court ruled the practice illegal. hours later -- senate majority leader mitch took to the floor to defend it -- calling it vital to national security: (sot mcconnell) not only have these tools kept us safe. there has not been a single incident, not one, of intentional abuse of them the scope of the program was not known until edward snowden leaked classified documents to the media two years ago. the former nsa contractor revealed -- since 9-11 -- the agency has secretly collected and stored millions of records of private u.s. phone calls ...under section 215 of the patriot act. but *that* - the court ruled - was never authorized by the statute. (sot sen. richard blumenthal d-ct) we can do both security and protecting constitutional rights but it takes a balance. with section 215 of the patriot act due to expire in three weeks -- lawmakers on capitol hill are now exploring new legislation that would essentially do away with the nsa program. one measure -- known as the u.s.a. freedom act -- would keep bulk records in the hands of phone companies. but allow the nsa to request records for terror investigations. while the obama administration has defended the legality of the program for that purpose. ...administration officials say president obama is encouraged by bipartisan legislation that would implement reforms. edward lawrence for cbs news washington....	1:26

NSA
PROGRAM
TO STOP
UNLESS
CONGRESS
ACTS

the obama administration says the n-s-a will have to start shutting down surveillance programs at four p-m on sunday. (loretta lynch / u.s. attorney general) "without action from the senate, we will experience a serious lapse in our ability to protect the american people." officials explain the n-s-a will actually start turning off servers and reconfiguring software by eight p-m sunday and will then be unable to reverse the shutdown. weeks ago, the house passed the u-s-a freedom act to reauthorize the programs which are set to expire at midnight monday morning, but added restrictions on some n-s-a surveillance programs became a sticking point in the senate and it failed by three votes. senator and republican presidential candidate rand paul has been one of the most vocal critics, of late, of the n-s-a's bulk phone data collection programs. (sen. rand paul / (r) kentucky) "our forefathers would be aghast." his opposition drew an eye roll from a fellow republican. it also helped force what will be an unusual sunday session of the senate this weekend, as the chamber returns from a week-long recess. even if deal-makers reach a compromise, this weekend -- an alternative to the u-s-a freedom act -- there are no plans for the house to come back to work before the deadline has already passed. i'm andrew spencer, reporting.

	NOON	NSA VOTE	<p>The Senate will debate a House bill that would overhaul how the National Security Agency gathers U.S. phone records to search for terrorists. Lawmakers refused to consider the same legislation 8 days ago but are now searching for an alternative plan after Kentucky Senator Rand Paul blocked a vote to extend the controversial Patriot Act. I'm not going to take it anymore! I don't think the American people are going to take it anymore. The GOP presidential candidate is leading the campaign to permanently stop the bulk collection of U.S. phone records...a practice that former NSA contractor Edward Snowden first revealed in his WikiLeaks documents. I think the American people actually do believe the government has gone too far. Paul faces opposition even from a number of fellow Republicans who believe the program is essential for national security. We shouldn't be disarming unilaterally as our enemies grow more sophisticated and aggressive. The new legislation, known as the USA Freedom Act...would prevent the NSA from gathering phone records but would allow the agency to search records held by phone companies and would preserve other less controversial surveillance programs. Craig Boswell, CBS News, Capitol Hill</p>	
6/1/2015	11pm	NSA SECURITY FAILURES	<p>the tests were controlled. undercover government agents went to american airports to see if t-s-a screeners could catch bombs and other weapons passing through security. the results -- troubling. the internal investigation shows t-s-a undercover teams were able to get the banned items through the screening process 67 times out of 70. chad wolf/fmr. tsa official: "to miss 67 out of 70 different instances is extremely alarming and i would say even dangerous." teams with the department of homeland security posed as passengers. they went through airport security with fake explosives and weapons. chad wolf/fmr. tsa official: "these are anomalies that tsa screeners and/or their equipment should have locate and at least flag for an additional screening." the department of homeland security says it "immediately directed tsa to implement a series of actions, several of which are now in place." it also says airport passengers are safe -- because of security measures both seen and unseen. an official report on airport screenings is expected later this summer. i'm mary moloney reporting.</p>	1:13
6/1/2015	4PM News	NSA VOTE EXPECTED TODAY	<p>"the motion is agreed to".. the senate quickly moved past a necessary procedural vote and began debating a house bill to overhaul the gathering of u.s. phone records to search for terrorists. people want to be safe, but they also want their privacy protected. craig boswell/cbs news, capitol hill house members who overwhelmingly approved the measure three weeks ago are warning against any senate changes. rep. kevin mccarthy/house majority leader the best way to make sure america is protected is for the senate to pass the usa freedom bill. the white house is also looking for action. josh earnest/white house press secretary time for the game playing to come to an end; the nsa stopped gathering phone records midnight sunday when lawmakers let the patriot act expire. a new bill needs to be signed into law before phone records can be stored again. craig boswell cbs news capitol hill</p>	1:05

6/2/2015	11PM	NSA SURVEILAN CE BILL SIGNED	<p>Just hours after The Senate passed legislation that overhauls the gathering of U.S. phone records to search for terrorists, President Obama signed it into law. It's the same exact bill overwhelmingly approved in the House 3 weeks ago. The new law enables the NSA to resume searching and collecting phone records for 6 months before phone companies take over. Sen. Harry Reid/Minority Leader It makes it so that people feel more secure about the intelligence operation we have going on in this country. Senators voted down several amendments that Republican leaders attached to the USA Freedom Act. Craig Boswell, CBS News, Capitol Hill Critics of the law including Senator Rand Paul and the Senate Majority leader say the program does not enhance the privacy protections of American citizens. Sen. Mitch McConnell /Majority Leader "and... it certainly undermines security by taking one more tool from our war fighters in my view at exactly the wrong time. The NSA stopped gathering phone records midnight Sunday when lawmakers let the Patriot Act expire. Craig Boswell CBS News Capitol Hill</p>	1:05
6/3/2015	NOON	NSA SURVEILAN CE	<p>The National Security Agency is getting the green light to resume critical parts of its anti-terror surveillance program...with new limits. President Obama signed the USA Freedom Act into Law Tuesday night...thanking the Senate -via Twitter- for finally passing the measure. in a 67-to-32 vote -- lawmakers agreed to the law that will allow wiretaps on terror suspects who frequently change cell phones. In six months, the NSA will lose the power to collect and store phone records.... but can still gain access to those records held by private companies -- with a court order. We have to protect American's privacy. We can do that and still keep Americans secure. Kentucky Senator Mitch McConnell says the USA Freedom Act is a step in the wrong direction... It does not enhance the privacy protections of American citizens. And it surely undermines American security by taking one more tool form our warfighters at exactly the wrong time." The controversial surveillance program was first exposed by former NSA contractor, Edward Snowden...who maintains it is not effective in preventing terror attacks. "if we don't reallocate our resources in a targeted way//we find we are spending resources for no benefit in terms of public safety." Officials say it could take at least several days to restart many of the anti-terror surveillance programs that expired Monday. Mark Albert for CBS News Washington.</p>	1:25
6/3/2015	4PM News	TERRORISM HEARING	<p>isis uses a slick social media campaign to recruit new members.....and lawmakers are concerned the u.s. is not doing enough to respond. rep. michael mccaull/r-texas we are no longer hunting an enemy who lives in caves. we are hunting an enemy whose messages are posted in real time on the internet.the terror attack last month in garland texas drew greater attention to the threat from isis in america. the obama administration says elton simpson and nadir soofi acted on their own...but after the incident a suspected isis member quickly posted more attacks P: rep. bennie thompson/d-mississippi we know the threats are not going away overnight. on tuesday, law enforcement shot and killed a man under surveillance by terrorism investigators. officials say he posted isis propaganda online and he is another example of individuals radicalized by social media. craig boswell, cbs news, washington</p>	1:18

	NOON	TERROR ARRESTS	<p>Conservative Blogger, Pamela Geller, is now at the center of what federal agents are calling a foiled homegrown terror plot...that unraveled in Boston Tuesday. Geller organized last month's art exhibit depicting the Prophet Mohammed in Garland, Texas...during which two men were killed when they opened fire on police.Sources tell CBS News, Usaama Rahim was originally plotting an ISIS-style beheading of Geller. They mean to kill everyone who doesn't do their bidding // This is a showdown for American freedom. Court documents allege Rahim discussed an immediate change in plans Tuesday morning with his accused conspirator, David Wright, of Everett, Massachusetts. You're attempting to go on vacation, I see - Wright said...allegedly referring to jihad.Rahim responded -- I'm just going to, ah, go after them. Those boys in blue. Authorities, who had Rahim under 24-hour surveillance, decided to move in and question him.They shot and killed him when, they say, he lunged at them with a knife. The case has renewed concerns in Washington about individuals radicalized by militant groups like ISIS through social media. The CIA says the terror group has lost a third of its forces...as a result of ongoing air strikes in Iraq and Syria. Mark Albert for CBS News Washington.</p>	
6/4/2015	7pm weekend	TSA FAILURES	<p>that planes, trains, buses, highways and more under their watch, the tsa has sixty-two-thousand employees and a budget pushing eight-billion dollars. but the scathing new report of a 95-percent failure rate in detecting airport threats, backs what independent studies have said for years: taxpayers aren't getting much for their money. exhibit 1: in 2010, when back scatter scanners were deployed they were immediately assailed as ineffective, possibly dangerous, and needlessly intrusive... virtually strip searching passengers. despite spending more than 130-million dollars, within two years the t-s-a was pulling them out of major airports. exhibit 2: a congressional report found the t-s-a warehousing thousands of pieces of equipment it overbought or does not need; and wasting as much as one-hundred-million dollars on poorly planned shipping. such things make members of congress like florida republican john mica howl.. (rep. john mica, (r) florida) it's out of control! and exhibit 3: the t-s-a has spent around a billion dollars on a program to spot potential terrorists by their behavior...despite a government accountability office assessment that says it is virtually worthless. (chris edwards, cato institute) the tsa for over decade now has been a horrible bureaucratic agency. they don't seem to learn from their past mistakes. they have spent billions of dollars on things that don't work. there have embarrassments too: like videos of airport workers, including t-s-a employees, stealing from passengers' bags. it was supposed to be different. in the wake of 9-11, the newly established t-s-a was held up as a model of efficiency and safety...you know you're not a threat, show us by packing smart.and the agency has undeniably stopped some threats, so despite all the bad news...at the white house...(josh earnest, white house press secretary) the president does continue to have confidence that the officers at the tsa do very good work, that they continue to protect the american people, to protect the american aviation system. tom foreman, cnn washington.</p>	1:16

ISIS
STRATEGY

The U-S is expected to ship hundreds more military advisors to speed up the training of Iraqi forces The plan calls for about 400 more advisers. That's on top of the three thousand American troops already in Iraq. They will *not* be changing the plan already in place. That means no front-line advising or intelligence gathering to minimize the risk of combat deaths or capture. The new trainers will help establish a base in the Anbar province of Western Iraq where ISIS has made recent gains...including the capture of Ramadi in May. The president hinted additional steps were coming earlier this week during a meeting of the G-7 in Germany. President Obama/June 8, 2015 "WE WANT TO GET MORE IRAQI SECURITY FORCES TRAINED, FRESH, WELL-EQUIPPED AND FOCUSED." President Obama also met with Iraqi Prime Minister Haider al-Abadi at the summit. He said Iraq must do a better job of utilizing the troops that have already been trained and they need to step up recruitment. President Obama/June 8, 2015 "PART OF MY DISCUSSION WITH PRIME MINISTER ABADI WAS HOW DO WE MAKE SURE THAT WE GET MORE RECRUITS IN. A BIG PART OF THE ANSWER THERE IS OUR OUTREACH TO SUNNI TRIBES," So far...all of ISIS's wins have come in Sunni controlled areas. Republicans say there's a bigger problem Rep. John Boehner/(R-OH) Speaker of the House "THIS IS ANOTHER TACTICAL MOVE. AGAIN, I SUPPORT THE TACTICAL MOVE THE PRESIDENT'S TAKING, BUT WHERE IS THE OVERARCHING STRATEGY?" Boehner said training alone has not been enough to slow ISIS down. Mark Albert for CBS News, Washington.

Crystal Height was one of them-- most of her clients pay out of pocket for Applied Behavior Analysis -- also known as ABA therapy which treats children with autism spectrum disorders.sot- crystal height, founder of coastal autism therapy center "we teach them any human behavior that they need." Height says depending on the severity , a child may need anywhere from 20 to 40 hours a week of therapy which can cost anywhere from \$1,125 to \$2,250. Until now, only a few insurance companies would cover the treatment but Ava's Law will require all companies to cover it. And right now, of their 40 clients, only 2 get the maximum recommended treatment because it's so expensive-- but she expects that will change. sot- crystal height, founder of coastal autism therapy center "it's probably going to make us pretty busy" She says there's going to be huge demand for more therapy which means there's going to be a huge demand for more therapists. In fact, she's now looking to nearly double their staff. sot- crystal height, founder of coastal autism therapy center "it's going to be phenominal and the impact that it will have on their life because the more services they receive, the more intensive their ABA services are, the better the outcome is longterm." she anticipates that children with autism in georgia will be far more successful than they've ever been before. 4/20/2015	6 PM	EDITORIAL (MON ONLY)	Georgia/Carolina Need Another Look at Marijuana LawsThis week Georgia followed our neighbors in South Carolina in enacting a law that allows cbd oil - derived from marijuana – to be used legally in the treatment of some illnesses. We applaud the legislature for that move; cbd oil has proven effective in bringing relief to people suffering through the debilitating effects of epilepsy and other diseases. Unfortunately Atlanta also followed its friends in Columbia in not legislating a way to GET the cbd oil. The Georgia legislation doesn't include a provision to allow medical grade marijuana to be grown or sold. And since possession of marijuana is against federal law you can't just run out to Colorado and pick some up without risking arrest. For their part the feds have reliably looked the other way, but do you really want to be technically illegal on a day when a random TSA agent's in a bad mood? Let's get real, both states need to legislate a way to get medicine to the folks who need it. And the federal marijuana law needs to change to reflect what's happening in the states. What do you think?...	1:05

Visitors to the hostess city will pay an extra \$5-per-night hotel fee --- an add-on to the transportation law meant to make the budget balance. Take a look at this map to see how the people you elected voted for the bill. Two senators in our viewing area voted no. And four state representatives voted against the bill. The rest were for it. Molly Swagler, Tourism Leadership Council: "No ramifications were looked at before they passed this bill. They didn't look at what this would do to the tourism community. Marc Friday, Hotelier, The Planter's Inn: "I certainly understand what they had to do." Hotelier Marc Friday hopes he won't see a big impact on his downtown boutique hotel, the planter's inn. "The largest impact you're going to have is on conventions and meetings. And that is one of the primary areas that we're trying to attract to the town." But will \$5 a night really keep tourists away? Peter Oaks, Tourist: "We stayed at some Hilton hotel that was \$240 dollars. 6/29/2015	LIVE AT 5:00	WILL: CONFEDERATE FLAG DEBATE	Malik Stroman bears the 90 degree heat so drivers on Gervais Street can see what's on his sweat shirt- a Confederate Battle Flag, with a middle finger in the middle (blur finger).Malik Stroman- Flag Protester"I feel like that flag shoulda come down, that flag shoulda been down."That's one of many views on both sides of the flag issue. But despite calls from anti-flag activists and prominent state leaders, the Confederate battle flag *can't* come down, according to State Law.The statute which removed the flag from the State House dome and raised a different one on the Confederate monument- sets up strict rules for removing it- requiring any bill proposing removal to get a 2/3 vote in both the House and the Senate.And the bill, like any other one, needs three readings- or votes- in both Chambers to proceed.Representative Todd Rutherford- (D) Richland"If there was ever a bill that had momentum, this is it. The governor has come out and asked for the flag to come down. Almost every substantive leader in the Republican party has done the same, so it's time."But even with that momentum- House Minority Leader Todd Rutherford says the bill, which lawmakers will take up July 6th- has to push through subcommittees, full committees, and debates, and required rules in the House and Senate not known for moving quickly.Representative Todd Rutherford- (D) Richland"It's hard to predict any bill."While lawmakers debate- the flag has to keep flying, according to this *one* line in the state law, saying it must be on the flag pole at all times.The state's Budget and Control Board can remove a worn or dirty flag, but only to put a new one back up (show law).Staffers in the State House say there are as many as 6 backup Confederate flags in rotation at any given time....	1: 42

5/5/2015	11PM	EDITORIAL (TUES ONLY)	Take the Train to Tybee!Listen to what Tybee mayor Jason Buelterman tweeted Sunday night: "The Tybee road is ONCE AGAIN leaving motorists stranded and is impassable for emergency vehicles. Fix 80 now...not 10 years from now!!! Tybee shares a problem with Hilton Head Island: one way on, one way off. But Hilton Head has 4 lanes to move traffic and accommodate mishaps; Tybee only has 2.This weekend was a tipping point – accidents and hours tied up in traffic frustrated and endangered people who now have a new interpretation of the expression "a day at the beach".Now consider Tybee's other big problem: parking. On any big event weekend Tybee folks can count on cars in their front yards. Beach goers are sure to get tickets or worse.So let's do something innovative and figure out rail service from Savannah to Tybee and relieve the traffic pressure, the parking pressure, do a little something for the environment and even add a little pzazz to the adventure. 5/12/2015 6 PM	DON: SILENCE OF STREET SWEEPERS	<p>City street sweepers clean downtown once a week and once a month around the rest of Chatham County. But there's one problem. Joe, Lives in Unincorporated Chatham County: We've been trying to get a hold of them since October to come out and do the streets and no luck getting them to come out. Chatham County is in charge of the cleaning outside city limits and a rather vocal resident who'd rather remain faceless and nameless says he's called over and over since October. the lady told me the equipemnt is broke it's been wrecked or so old it is out of service and they will not be replacing it Joe's never had an issue in 16 years until now. Our street in front of our home is clean because our yard service came and did it just yesterday. What are you getting out of your tax money? I don't know I pay for my garbage recepticle. I don't know what we are getting out of it. Unincorporated Chatham County Residents besides policing mostly pay taxes in return for Special Services like public works. Why are we paying taxes for this and not having it done? Is there not rental equipment or lease equipment? We have unfortunetly not been funding capitol improvements as much as we should have. Public Works gave us permission to be here on their site where they are supposed to have three streetsweepers. Right now there is only one. And from what we are told by Enginer Robert Drewry .this one is only partly functional and taking a look at it...it's clear it has quite a bit of mileage on it .and it's not cleaning the streets right now. It's not full time it spends a lot of time in the shop. We are down to a part-time streetsweeper and we are aware of the problem. The public wasn't but they are now. Drewry says the second street sweeper was in an accident and a third is "beyond repair."The worry is you are not going to replace those sweepers at all. No we are in good position as long as we can replace those sweepers. We fully intend to get back in that program real quick. With the county on the record promising to get back to producing clean...</p>	3:02

5/14/2015 6 PM	CONNY: CITY COUNCIL	<p>Tony Thomas, Savannah Alderman: "I saw a car the other day that looked like the cow from Chic-Fil-A." Right now -- metro police have to wait years before they get a police car to take home. Alderman Van Johnson -- a former Chatham County police officer -- pointing out that he got one the day he was sworn in as an officer 20 years ago. Van Johnson, Savannah Alderman: "We drove those cars in our neighborhoods and our communities. We were required to be very visible in our communities." The city *just* approved raises for certain Metro officers -- a five percent hike for those who become advanced police officers -- another five percent when they become corporal. To get the raises though, officers must meet standards for professionalism, training, courtesy and safe driving. The idea... Chief Jack Lumpkin, Metro police: "To establish an opportunity for career development." Without a clear career path. Chief Jack Lumpkin, Metro police: "Officers will come here for two years or so and then move to another jurisdiction." Right now -- Lumpkin is making a push -- to stop officers from leaving and recruit new ones to the department. Mary Ellen Sprague, Savannah Alderwoman: "We are not competitive. We are asking him to provide 70 more officers. And we are making it impossible for him to do that." Savannah's city manager asking elected officials to be patient -- telling them change takes time. Stephanie Cutter, City Manager "Everything that you have expressed concerns about, we do hear you."...</p>	1:28

5/28/2015	6PM	CITY COUNCIL ARENA STUDY	Also late this afternoon - Savannah city council approved spending thousands of dollars to pay for a study on what we need in a new arena *and* what to do with the current civic center it will replace. The city plans to build the new arena at the corner of Gwinnett Street and Stiles Avenue. Voters approved about 125-million dollars in SPLOST funds for this project two years ago. City officials say it would cost about the same amount to renovate the civic center as it would to build a new arena. Today - they voted to pay the Barrett Sports group almost \$176,000 to narrow down the options.	0:34
5/28/2015	11PM	TYBEE CROWD CONTROL TASK FORCE	The beach rules and crowd control task force will be taking a closer look at things like traffic flow around the island and the size of the crowds on the beaches, and see what improvements can be made to improve public safety. Mayor Pro Tem Doyle says each year, festivals on the island are getting bigger, so she's also proposing a south-end festival zone. She wants to get that on the agenda for further discussion in the future. The task force has already met twice, and in September, they will present their findings to the Public Safety Committee.	0:32

5/29/2015	6PM STATE OF SAVANNAH TOWN HALL		<p>It's rare to have that many city leaders all in one place but that's exactly what's happening today as several of them come here to discuss the state of Savannah. A live band... a radio broadcast.. and several elected officials on hand to voice their opinion on some of the "hot topics" in Savannah "our focus is to inform the community about the community- that's why we're stopping the music today... we're shutting the city down, to talk about the issues that need to be discussed." One of the main issues on many people's minds-- crime. Rose Thompson, attended today's town hall "I'm very concerned about crime, just being able to find activities for our youth." Metro Police Chief Jack Lumpkin addressed that issue today, saying part of the problem is they still need to hire more officers. Chief Jack Lumpkin "we're working people as hard as we can right now, and right now we're working them on overtime." But he says they can't go at this alone-- they need the public's help to cut down on crime. Chief Jack Lumpkin "if they see something say something use the confidential lines to talk to us." Another big topic today -- the economy, which many say ties into the issue of crime. Brian Reese, 2014 Democratic candidate for U.S. House, 1st Congressional District "so more than anything else we've got to grow the economy. As you bring the poverty level down -- 28.6 down, guess what, the crime level goes down as well." And Metro Police Chief Jack Lumpkin says if we all work together.. we can start to see some positive changes in Savannah. Chief Jack Lumpkin-"shared responsibility between citizens and the police department and we can improve neighborhoods block by block." And of course organizers hope to have other town hall meetings like this in the future. Whitney Harris. WTOC News.</p>	1:47

6/14/2015	WEEKEND 630 PM	ELIZABETH: SPAY NEUTER FOLO	<p>dog barking Officials here at the humane society are barking at the idea of mandating a local ordinance that would require all cats and dogs to be spayed and neutered. Savannah-Chatham Animal Control proposed the ordinance last week to city council members because they continue to have issues with unwanted animals. But Human Society Executive Director Lynn Gensamer says while they support spay and neutering of animals-- pet owners in the city are not ready to handle this type of mandatesot- lynn gensamer, exec. director of humane society "we are way behind in terms of our community understanding why this is such a key thing for them to have their animals fixed" Gensamer says not only is the community not educated enough to know the importance of spay and neutering but there are currently not low cost options available. She says other communities that have mandated spay and neuter laws have implemented both education and low cost programs before making it a requirement.</p> <p>sot- lynn gensamer, exec. director of humane society "if it's ever going to be appropriate here- it isn't now-- we've got a lot of work we can do" But the decision is up to city council and should it pass-- it could cause more harm than good. Officials here at the humane society say they see about 2,500 pets a year but should this new mandate pass...sot- lynn gensamer, exec. director of humane society "our concern is that we will suddenly have an influx of animals." Without a low cost option-- it could cost a pet owner anywhere from \$200 to \$700 to fix their animal and if folks don't have *that* kind of money-- they could decide to give up or abandon their pet. But Gensamer is hoping for the best -- praying this ordinance will not pass at all. Reporting in Savannah, Elizabeth Rawlins, wtoc news....</p>	1:44
