

PBS NewsHour  
Monday - Friday 7:00p.m. 60 Minutes

Every weeknight, the Emmy winning newscast delivers the day's essential business and economic news. Each lively half-hour combines trusted, credible and unbiased information and extensive financial market coverage with insightful features, analysis and commentaries by noted economists and business experts. Stories included - Jobless Rate for Poor Black Teen Drop Outs? 95%; When Will the Fed Unwind?; Social Security and employment strategies.

### 3. POLITICS & GOVERNMENT

Constitution USA (4-part series)  
7/1/13 10:00p.m. 60 Minutes

Sagal explores the Constitution's most striking and innovative feature: its resilient brand of federalism. The framers created a strong national government while preserving much of the power and independence of the states. This delicate balance of power, seemingly hard-wired for disagreement and conflict, has served America well for more than two centuries. But it has also led to tensions throughout American history and still sparks controversy today over medical marijuana, gun control and "Obamacare."

Frontline – Wikileaks  
7/2/13 10:00p.m. 60 Minutes

It's the biggest intelligence breach in U.S. history --the leaking of more than half-a-million classified documents on the Wikileaks website in the Spring of 2010. Behind it all, stand two very different men: Julian Assange, Internet activist and hacker who published the documents, and Army intelligence analyst Bradley E. Manning, who's currently charged with handing them over. Private Manning allegedly leaked the secret cables -- along with a controversial video --in the hope of inciting "worldwide discussion, debates and reforms." Assange's stated mission has been to force the U.S. and other governments into maximum transparency through his whistle-blowing website. Through in-depth interviews with Manning's father, Assange and others close to the case, veteran FRONTLINE correspondent Martin Smith tells the full story behind the leaks. He also reports on the U.S. government's struggle to protect national security information in a post 9/11 world.

Charlie Rose Special Edition – Bashar Al-Asaad  
9/9/13 9:00p.m. 60 Minutes

Charlie Rose has recorded an interview in Damascus with Syrian President Bashar al-Assad. In the interview, airing one night before President Obama is scheduled to address the nation on his plans to respond to the situation in Syria, Rose asks Assad about the use of chemical weapons in his country.

### 4. SCIENCE AND TECHNOLOGY

Hiroshima  
8/6/13 8:00p.m. 90 Minutes

This drama-documentary does what no other film has done before- to show what it is like to live through a nuclear explosion, millisecond by millisecond. It was the defining moment of the 20th Century - the scientific, technological, military and political gamble of the world's first atomic attack. In August 1945, American missions killed 200,000 people and ended a war.

Side By Side: The Science, Art & Impact of Digital Cinema  
9/1/13 2:30p.m. 60 Minutes

This documentary investigates the history, process and workflow of both digital and photochemical film creation. It shows what artists and filmmakers have been able to accomplish with both film and digital, and how their needs and innovations have helped push filmmaking in new directions.

Interviews with over 70 filmmakers and industry professionals including George Lucas, David Lynch, Lars von Trier, James Cameron, Steven Soderbergh, Christopher Nolan, David Fincher, Robert Rodriguez and Walter Murch, reveal their experiences and feelings about working with film and digital -- where we are now, how we got here and what the future may bring.

NOVA – Ground Zero Super Tower

9/25/13

10:00p.m.

60 Minutes

NOVA returns to Ground Zero to witness the final chapter in an epic story of engineering, innovation, and the perseverance of the human spirit: the completion of One World Trade Center. In this update of NOVA goes inside the construction of the new tower's final floors and the installation of its soaring, 800-ton spire and beacon. NOVA also goes underground to see the construction of a multi-billion dollar transit center. Will the buildings be completed on time under competing business, environmental, and safety demands? And will the final product be a fitting site for national remembrance?
