Each lively half-hour combines trusted, credible and unbiased information and extensive financial market coverage with insightful features, analysis and commentaries by noted economists and business experts.

3. Justice/Law Enforcement

The Color of Justice 2-part series (documentary and roundtable
4/16/13 8:00p.m. 60 Minutes
4/23/13 8:00p.m. 60 Minutes

Nationally, minority youth are more likely to come into contact with the juvenile justice system and are treated more harshly there than their White peers. This is called Disproportionate Minority Contact, or DMC. How do we ensure every child in Connecticut's juvenile justice system gets fair and equal treatment?

POV – Reportero

5/28/13 11:30p.m. 60 Minutes

Can justice be served if journalists are silenced? Reportero" follows a veteran reporter and his colleagues at Zeta, a Tijuana-based independent newsweekly, as they stubbornly ply their trade in one of the deadliest places in the world for members of the media. In Mexico, more than 40 journalists have been slain or have vanished since December 2006, when President Felipe Calderon came to power and launched a government offensive against the country's powerful drug cartels and organized crime.

Frontline – Rape In The Fields

6/25/13 10:00p.m. 60 Minutes

For the women who pick and process the food we eat every day, getting sexually assaulted, and even raped, is sometimes part of the job. FRONTLINE and Univision partner to tell the story of the hidden price many migrant women working in America's fields and packing plants pay to stay employed and provide for their families. This investigation is the result of a yearlong reporting effort by veteran FRONTLINE correspondent Lowell Bergman, the Investigative Reporting Program at UC Berkeley and the Center for Investigative Reporting.

4. POLITICS & GOVERNMENT

Thatcher: A Memoir

5/14/13 9:00p.m. 60 Minutes

This is a moving documentary about Britain's first and only female prime minister, Margaret Thatcher. A controversial figure whose politics, economic policies and social changes earned her the name "Iron Lady" she was loved and hated – often simultaneously. Through interviews with some of her closest colleague, the next generation of politicians she inspired and those who opposed her we get a deeper look at the remarkable politician that left her indelible mark on the United Kingdom.

The Hill

6/11/13 10:00p.m. 120 Minutes

The Hill follows the personal stories of the residents of the Hill, an African American neighborhood in New Haven, CT, as they fight to save their homes from destruction under eminent domain to build a new school.

5. SCIENCE AND TECHNOLOGY

Guts with Michael Mosely

4/17/13 10:00p.m. 60 Minutes

Using the latest in medical imagery and a tiny state of the art camera "pill" that he swallows at the start of the film, Michael Mosley takes viewers on a remarkable journey through his own internal system. At each stage he talks to medical experts and explains the amazing functions that happen without our conscious effort. This is one of the most fundamental parts of our bodies, controlled by its own nervous system and automatically providing our energy, water and nutrients; yet unless we get sick, we rarely think about what it's doing.

10 Buildings That Changed America

5/12/13 10:00p.m. 60 Minutes

This program tells the stories of 10 American architectural marvels, including a state capitol building designed by Thomas Jefferson, the original indoor shopping mall, the first airport of the Jet Age and a futuristic concert hall. You may not be familiar with all of these buildings, but they probably shaped the way you live, work, shop and play. Host Geoffrey Baer takes a journey across America and inside these 10 groundbreaking works of art and engineering.

NOVA Oklahoma's Deadliest Tornadoes

5/29/13 10:00p.m. 60 Minutes

On May 20th 2013, a ferocious F5 tornado over a mile wide tore through Moore, Oklahoma, inflicting 24 deaths and obliterating entire neighborhoods. It was the third time an exceptionally violent tornado had struck the city in 14 years. Yet predicting when and where these killer storms will hit still poses a huge challenge. We meet scientists in the front ranks of the battle to understand these extreme weather events. We also meet storm survivors whose lives have been upended, and learn how we can protect ourselves and our communities for the uncertain future.
