At Issue FCC Report

3rd Quarter 2019

July 7 – Governor Tim Walz signed a bill into law aimed at fighting the opioid epidemic in Minnesota. The new bipartisan law puts a fee on opioid manufacturers and distributors to help communities battling addiction. Minnesota prisons will also be able to hire 78 officers over the next two years, due to money set aside in the Public Safety Budget Bill. The top three priorities are to find more officers for Oak Park Heights, Stillwater and Faribault prisons. We're also learning about a new poll, showing Former Vice President Joe Biden leading the Democratic candidates in the 2020 race for president. Anchor Jackie Cain fills in for Tom Hauser this week.

July 14 – President Donald Trump speaks out over the Pledge of Allegiance controversy making headlines in St. Louis Park. He commented on Twitter: "There used to be a time when you could proudly declare 'I am a citizen of the United States'. Now they're trying to erase the existence of a very important word and a very important thing: citizenship. They're even coming after the Pledge of Allegiance in Minnesota." President Trump also went on to say he believes he win Minnesota in 2020, and said this controversy is an example of why. Tom Hauser talks to our analysts about the Pledge of Allegiance issue.

July 21 – President Donald Trump and U.S. Representative Ilhan Omar continued their feud this week. Omar was welcomed back to Minnesota the night before she hosted a Medicare for All town hall in Minneapolis. President Trump lashed out at the media for covering her welcome back event at the airport, calling it "staged". Tom Hauser sits down with our analysts to discuss the Trump-Omar feud, as well as some shakeups in the Minnesota Department of Human Services.

July 28 – Congresswoman Ilhan Omar has her first challenger for 2020. Chris Kelley is a 20-year veteran of the Minneapolis Police Department, who said he wants to continue public service in Congress as a member of the Independence Party. State Representative Steve Drazkowski is also now speaking out against Omar, calling her a fraud and a criminal. Drazkowski said Omar cheated on her taxes, lied about her marriage and profited from her campaign funds.

August 4 – The Hands Free Law is now in effect in Minnesota. The new law prohibits drivers from holding their phones. Minnesota Senator Amy Klobuchar has qualified to take part in the next round of Democratic presidential primary debates this fall. Klobuchar joins Joe Biden, Bernie Sanders, Elizabeth Warren, Kamala Harris, Cory Booker, Pete Buttigieg, Beto O'Rourke and Andrew Yang. Tom Hauser sits down with DFL Senator Matt Little of Lakeville and Republican Senator Scott Jensen of Chaska to talk about the progress of the Emergency Insulin Act here in Minnesota.

August 11 – A debate over gun control laws is making headlines around the nation after the mass shootings in Dayton, Ohio and El Paso, Texas. President Donald Trump visited both cities this week, where some people are calling on lawmakers to pass stricter gun control measures. This week, Tom sits down with our analysts to discuss the high cost of insulin, and how insurance company Medica is working on helping those who need insulin.

August 18 – Minnesota Congresswoman Ilhan Omar and Michigan Congresswoman Rashida Tlaib were both banned from visiting Israel this week. The two are among 17 members of congress who voted against a resolution condemning a boycott movement against Israel. Tom Hauser talks about this with our analysts. Tom Hauser also talks with three Minnetonka High School students about the way they're putting the focus on mental health issues among teenagers, after the death of 16-year-old Archer Amorosi.

August 25 – Tom Hauser reports live from the Minnesota State Fair. Minnesota Governor Tim Walz is a guest on the show. He talks with Tom about the issue with insulin here in Minnesota. Second District Congressman Jason Lewis has also announced he will be challenging Democratic Senator Tina Smith. Lewis served two years in the Second Congressional District. Tom talks with Lewis live on the show. He also talks with Minnesota Congresswoman Angie Craig about Israel's decision to ban Ilhan Omar and Rashida Tlaib from visiting the state.

September 1 – A Federal Election Commission Complaint has been filed over money Ilhan Omar's campaign paid to a consultant that court documents allege she was romantically involved with. Representative Omar said she has no interest in commenting on anything about her personal life. Wisconsin Representative Sean Duffy has announced he is resigning this month to spend more time with his family. Governor Tim Walz says he would support an independent forensic audit of the Department of Human Services. The department has come under fire for various reports of overpayments and allegations of fraud, waste and abuse.

September 8 – Former Republican State Senate President and Lieutenant Governor Michelle Fischbach has announced she will run against Congressman Collin Peterson. Peterson has held the seat for nearly three decades. It's the most Republican-leaning district in the country represented by a Democrat. Tom Hauser talks with our analysts about what that means for the district. Washington Political Consultant Tim Mynett is denying that he told his wife he was leaving the marriage for Congresswoman Ilhan Omar or that he was in love with her. A federal election commission complaint filed last month shows Omar's campaign paid Mynett's consulting firm more than \$200,000 since 2018.

September 15 – The 10 leading Democratic presidential candidates shared the debate stage this week in the latest presidential primary debate. Minnesota Senator Amy Klobuchar was among those candidates. Klobuchar had a breakthrough moment on the issue of health care. She took aim at fellow candidate Bernie Sanders, on his "Medicare for All" health care plan. Tom Hauser talks with our analysts about what Klobuchar could continue to do to try and be a standout candidate.

September 22 – Nearly 700 soldiers from the Minnesota National Guard are getting ready for their latest deployment to the Middle East. Members of the 34th Expeditionary Combat Aviation Brigade of St. Paul will support air operations focused on disrupting ISIS in both Iraq and Syria. New University of Minnesota President Joan Gabel has been sworn in. This week, Governor Tim Walz launched a "Biofuels Council" that could help reduce the dependence on foreign oil sources. Tom Hauser talked with our analysts about what this means for the state.

September 29 – President Donald Trump is scheduled to hold a rally at the Target Center on Thursday, October 10th. Political analysts say the visit will likely focus on President Trump's impeachment inquiry that's now causing a firestorm in Washington. Minneapolis Mayor Jacob Frey said he's working with the police department to plan for the visit. He said his goal is to make sure everyone is safe. The insulin

debate is taking center stage at the Minnesota State Capitol. Both the House and Senate heard testimony on two different proposals taking shape, ahead of a potential special session this fall. Anchor Matt Belanger fills in for Tom Hauser this week. Matt talks to analysts about the impeachment investigation against President Donald Trump and how state lawmakers are reacting.
