#### **CAFFEINE BUZZ**

Decaffeinated coffee is now more popular than ever. Some people drink decaf coffee for health reasons, others because they just do not want the buzz from caffeine. How do you know that, when you buy a cup of decaf coffee, you're really getting a cup of decaf coffee? "20/20" puts the decaf cup of coffee to the test.

#### **GROWING TALL**

Today some doctors are recommending human growth hormones (HGH) to children who are too short. Although these treatments, relatively new, can have side effects and the long term risks are unknown, they are becoming popular with some kids to narrow the gap between them and their taller peers, in part to boost not only their height, but their self esteem.
