Details:

FOX6 News is look for an experienced broadcast Meteorologist to join the state's top weather team. We've got more than 40 years of collective Wisconsin forecasting experience and we're seeking a dynamic meteorologist to add to our tradition of excellence. You need to do it all: television, online, social networking and community outreach. We've got state-of-the-art HD weather graphics, live HD Doppler radar and one of the premiere live weather site networks. All the tools are here! The person we're looking for will work all shifts, including morning newscasts where a dynamic personality is an absolute must. We're looking for more than just someone who figures out a forecast. We're seeking a great storyteller who uses all the technology to create dynamic, compelling weather segments, on-air and online. We get a good amount of severe weather in both spring and winter, so hard work is a given in this position. We've got Milwaukee's only outside weather deck – so many times you'll be "in" the weather while reporting on it. We're not looking for someone who hypes weather events. That's not us. But we are all about connecting with the community and being the premiere weather team in town that people can depend on.

Requirements:

You must be an AMS sealed meteorologist.

Experience:

4 to 7 years on-air experience to qualify for this position.

Details:

FOX 6 News is seeking a creative, multi-tasking photojournalist to join our team. Every day you will use state-of-the-art technology to shoot and edit the best HD-quality footage in town. You'll collaborate with reporters, producers and managers to obtain the best visuals, the best "moments," the best sound, the best news story. You'll use live ENG/SNG/mobile gear, sometimes all in the same day! This is not a job for beginners - you need at least two years experience working in commercial television news. And if you've already been working in the biz, you know there's no such thing as "9 to 5" so be prepared to work all different hours, days, shifts, and assignments. One day you might be covering the Green Bay Packers, the next you might be working closely with a reporter, live on the scene of a breaking news story, and the next day you're solo, putting together a photo essay on a topic you found interesting and know will be great for air and online. So if you want to work at a place where hard work, a strong sense of team and creativity is rewarded, this is the place.

Requirements:

A bachelor's degree is strongly preferred. You must have a clean driving record (we will check!) and a Wisconsin Driver's license. Background check and drug screen are required. You must be physically able to lift, carry and handle camera gear, and deal with the realities of a Wisconsin winter or summer.

Experience:

This is not a job for beginners - you need at least two years experience working in commercial television news.

Additional Information:

WITI is an Equal Opportunity Employer.
