JULY

July 1-2-3-21 Extreme Makeover Home Edition

The hit ABC show has come to Erie to build a new home for Clara Ward. Clara is wheelchair bound and for years has operated a community program to help feed, educate, and mentor youth from her modest old home. The demolition is complete, the new house is built. On July 1 producers of the show turned over the keys to Ty Pennington from EMHE. On July 2, the star shouted “move that bus”, and the new home was revealed. Hundreds of local residents gathered on the inner city street to be part of the homecoming. On July 3, we heard from Clara Ward and her family about their new home and the entire makeover project. This story appeared in all of our newscasts throughout the entire 7 day announcement, demo, build, and reveal. Our coverage also included a follow-up story about tax problems Clara Ward has had in the past in regards to her former home, which also served as a community center.

July 13-14-17-22-23-24-28-29 Pennsylvania State Budget Impasse

The Governor and Pennsylvania legislators failed to pass a new state budget by June 30. The impasse continues. Throughout the month on these dates, we featured a variety of reporting on the budget process, state workers going without paychecks, protests, opinions on progress from a variety of political leaders in Harrisburg. We kept our viewers up to date on progress towards a budget deal in many of newscasts on these dates.

July 7-9 Shriner’s Hospital Struggles for Survival

The Shriner’s Hospital for Children in Erie provides free orthopedic care for children in need throughout a multi-state region, and Canada. Because of the poor economy and reduced interest on the Shrine’s endowment, the Shrine is considering closing several of it’s hospitals including the one in Erie. A vote at the national meeting will determine the future. Our reporting on these two days revealed that the Shrine voted to keep the hospital in Erie open and reaction to that decision.

April 2009

April 15-TBD

Erie Cop on YouTube Video

An off duty Erie Police officer was video taped at a local bar, talking about his involvement at the murder scene of an Erie man. In the video he was seen and heard making fun and mocking the reaction of the victim's family at the scene of the shooting. He was also seen and heard in the video making disparaging remarks about the victim. The YouTube video posting was seen around the world, and sparked a huge controversy in the entire community, but especially in Erie's African-American community. The murder victim is black, the cop is white. The incident led to a police investigation of the incident, an internal investigation of the police investigation, concern and outrage from the NAACP and other black community leaders, and ultimately, to an external review of the EPD policies and procedures. The incident led to the cop being suspended, forced to attend diversity training, taken off the street while undergoing testing to determine if he is fit for duty, and being made to apologize to the victim's family. Our news coverage of the event continued throughout the month of April in most shows.

April 16-17-YouTube Video Revealed and reaction to it.

April 20- Interview with man at bar who videotaped Erie cop and posted it on YouTube

April 21- EPD investigation into YouTube incident / African American community leaders react to EPD investigation and YouTube incident

April 23 – National NAACP calls for Erie cops firing over YouTube incident and for the Justice Dept to investigate the EPD.

April 24-Local NAACP President and Erie Mayor spar over YouTube video incident

April 27-Erie Times News suggest EPD Chief should resign over YouTube video incident, but Mayor stands behind his chief.

April 28` YouTube incident discussed at a political candidates forum.

April 16-17

The End of Analog

On April 17, JET-TV shut off its analog transmitter, preparing for the switch to full power digital broadcasting. This ended a more than 40 year era of broadcasting an analog signal to TV views throughout the tri-state region. It also began a new era of issues with receiving digital transmissions. Some viewers, who never received a signal before, can now receive a signal over the air. While others who had always gotten an analog signal, can no longer receive a digital signal. Our coverage of this transition was extensive over a several month period. We had reports in all newscasts on 4/16 and 4/17, and covered the turning off of our analog transmitter live at 11:35pm on 4/17. Over the next several days we provided viewers with extensive coverage of tower crews removing our analog antenna and replacing it with a new digital antenna. Then on 4/23 we went

full power digital on JET-TV. On 4/28, we also removed our FOX analog signal from the air, have begun broadcasting in full power digital at an earlier date.

April 28

On Thin Ice

The contract between the Erie Otters Hockey team of the Ontario Hockey League, and the Erie Civic and Convention Center Authority is about to expire. Now the team stands to be lured and tempted by other communities who have built brand new larger and more modern ice arena's, or have facilities much newer than the aging Tullio Arena in Erie where the Otters play. This two part Target 24 special report takes a look at the ice arenas in other communities and how they compare to the one in Erie. It looks at what Erie has to do to compete, to improve, and to renovate Tullio arena to keep a team like the Otters. Could the future of OHL hockey, and the revenue it generates for downtown Erie be On Thin Ice?

Reports at 6 and 11

May 2009

May 1 and 3

Swine Flu Epidemic

Swine flu is sweeping the country. At this time, our report on May 1 indicated there is no swine flu being reported in Erie County. On May 3, we reported suspected cases of swine flu in neighboring Chautauqua Co New York. These reports on local conditions were in addition to regular, if not daily reports throughout the month, on the spread of swine flu throughout the country. Our reports focused on what it is, what to do about it, and how to protect yourself. Our coverage of the local swine flu status was featured in most of our newscasts throughout the news cycle on these days.

May 13-19

Buzz on YouTube/Election Coverage

Anthony Buzz Andrezeski is running for Erie County Executive. The Democrat faces the incumbent County Exec and a strong challenger. Buzz uses YouTube to criticize and accuse the County Executive of a variety of missteps in his handling of county business and funds. It's the first time YouTube is used locally in a political campaign. Our coverage reported on the accusations made on YouTube, the reaction to them from the candidates and the public, and we talked to the man who produced the YouTube videos. We also reported on campaign spending and how YouTube was saving Andrezeski money while gaining him much needed exposure prior to the May 19th election. Our coverage was in most of our newscasts throughout the news cycle on these days.

April 13- Buzz on YouTube

April-14-Interview with YouTube video producer

April 18-Campaign spending and YouTube and County Exec's reaction to YouTube.

April 19th- Election Day, coverage of the election process, coverage of results, live interviews with winners, and coverage of the defeat of incumbent County Executive Mark DiVecchio.

May 22 & 27

Penelec Strike

Union members at the electric company, Penelec, walked off the job on May 22 in a labor dispute. Hundreds of linemen and other union workers set up picket lines after failing to negotiate a contract with Penelec's parent company First Energy. Union workers say the issue is mostly about working conditions and scheduling, and not wages. On May 27th, workers moved their picket lines from the Penelec facility to a local nursing home, where electrical work was taking place as part of an expansion project. The picket line at St Mary's Home shut down the work for the day. Our coverage was in all newscasts during the news cycle on both of these days.

June 2009

June 2-5

Granada Apartment Fires/Fines

In March, fire destroyed an entire apartment building in the Granada Apartment Complex. Scores of residents were left homeless. At the time, many residents complained that their apartment building smoke detectors and fire extinguishers were not maintained by management.

Since the big fire in March, there are have several smaller fires. Investigations have revealed those fires to be arsons. Further investigation led to the apartment complex being fined for failing to comply with orders to update all extinguishers and smoke detectors in the complex. Our coverage was in most newscasts throughout the news cycle on these dates.

June 2- Another Granada fire

June 3- Granada fined by Millcreek Twp fire officials

June 5-Another Granada fire.

June 15-21

All America City

Officials of the City of Erie and representatives from various businesses, civic, educational and other organizations, made a pitch to have Erie named an All America City. This effort took place in Tampa, Florida. Erie was a finalist and one of several dozen communities invited to Florida to make its case as why it should be one of 10 to be given this status in 2009. Local colleges, the Chamber of Commerce, tourism officials, business owners, and the Mayor of Erie attended the event. We traveled to Florida to watch Erie and other cities strut their stuff and make the pitch. We also interviewed

former all America City winners to determine what this means for a community. Unfortunately, Erie was not selected.

Our reports featured live interviews with Mayor Joe Sinnott and taped reports throughout the week from Florida. They appeared on most newscasts throughout the news cycle on April 15, 18, 19, 20, and 21.

June 24-July 3

Extreme Make Over Home Edition

ABC's Extreme Makeover Home Edition came to Erie this month to build someone a new home. Our coverage has been extensive throughout the process. We reported on the solicitation of nominations, that Erie had been selected, that five families were finalists, what local contractor was selected to head the building project, people who volunteered to help build the home, the pep rally to motivate the community, the announcement of who would receive a new home, the weeklong building project, and finally the Move that Bus reveal, and then a follow-up news conference with the family after they had a chance to experience their new home. Our reporting touched on all aspects of the project before, during and after the build. We also reported on the Maleno Family to Family fund that will help continue projects like this, long after the ABC camera crews are gone. We were live at the construction in most every newscast throughout the week. We had reports in every show in the news cycle over the dates listed. It was a great project for Clara Ward, the recipient, but also for her neighborhood, the volunteers, and the City of Erie.

DTV CONVERSION PREP/PUSH BACK

THE ORIGINAL DEADLINE FOR TELEVISION TO GO ALL DIGITAL WAS ON FEBRUARY 17TH. HOUSEHOLDS THAT DID NOT HAVE CABLE BUT RECEIVED THEIR IMAGES THROUGH AN ANTENNEA WOULD NO LONGER GET A SIGNAL AFTER THAT DATE. DUE TO A FEW CONCERNS BY CITIZENS THE DATE WAS PUSHED BACK TO JUNE 12TH. JETTV WOULD TAKE ADVANTAGE OF THE DELAY AND GO DIGITAL IN THE SPRING.
