

WHPK, Chicago
Q3, 2023 Programs and Issues

For most of the quarter, the studio and control room were unavailable due to construction in the building which blocked entrance. Programs were produced remotely and played out via the station's automation system.

Issues were identified and short announcements created/played to address these issues, including Covid, bullying, local hunger problems, and fatherhood involvement

Two lists below are 1) Announcements originated while station was on full automation (including those from off-site-produced programs and, 2) originated by in-studio talent.

1) WHPK Q3 2023 Public Service Announcements
