

## KOTA/KEVN FCC for July through September 2022

Gray Television Rapid City continued its commitment to covering issues impacting the local community across its platforms KOTA-TV and KEVN-TV.

During the last quarter, that included emphasis on numerous issues such as:

- Consumer: Consumer stories often focused on prices – gas, groceries, etc – and the impact on a viewers wallet.
- Public Safety: logging almost 700 stories, we focused on crime, drownings, and a local bomb threat.
- Economic: More than 500 stories were listed as economic. They covered new businesses and the economic impact of events in the area.
- Environment: Zebra mussels and mosquitos played a big part of our environmental coverage
- Local Government: taxes and city council decisions made up a majority of the almost 300 local government stories.
