Trump gave illegals a discount price on flights back to their own countries, the Biden administration is giving discounted flights to bring them back, Tara breaks down what this means. Tara talks about how the cartels are controlling those that are coming over the border and says that Democrat policy is to blame. Hour 3: Apparently Antifa is not a domestic terrorist organization according to democrat leadership. Lee poses the following question: If they are not a domestic terrorist organization, then who is? She also talks about the shutdown of Dr. Seuss, and where it is going to from here. Hint.... It is not a good place. Hour 2: Who is really in charge of the White House? It does not seem to be Joe Biden as he has shown at times that he has no clue what he is signing into law. He even asked if he was supposed to take questions and the feed "mysteriously" cut out. Tara and Lee give their thoughts and analysis. Hour 3: Tara and Lee discuss why in the world is Joe Biden still wearing a mask? He has been given both doses of the vaccine. If the vaccine works, Lee asks the question: "why does he still wear the mask?" Hour 4: Americans are feeling as though we are close to losing our freedoms but Tara offers up some hope for the future.

Hour 2: Tara and Lee break down what is happening at the border and how the left is using this to benefit themselves. Tara also talks about how Ellis Island is going to be used and how it will change everything. Joe Biden's mic was cut off as soon as he offered to answer questions, why is that? Tara says

she knows why. Hour 3: Tara and Lee discuss the real reason as to why the national guard and wire fencing are still around the capital, Tara equates it to a hostage situation. She also dives into how Federalism is dead and she sees no way for it to return. Hour 4: Tara breaks down why the ban on Trans athletes in women sports is a good thing while using simple Biology to defend it. She also talks about the U.S. women's soccer team losing to high school boys.

- Monday 3/8/21: Hour 1: The trial of the police officer whose knee was on George Floyd's neck begins today and Tara gives her thoughts. Hour 2: Tara talks about why the Biden administration is preventing Joe Biden from answering questions or holding a press conference, Tara says it's not because Joe Biden does not want too, she explains. Meghan Markle is in the news again with her husband, Tara explains why this is more than just celebrity gossip. Hour 3: Tara talks about the problem at the border and points out that we have the problem because of a Republican president before the Trump and Obama administrations, you probably know who she is referring to at this point. Hour 4: Tara talks about the George Floyd case and says if they convict the police officer, they should arrest the Sheriff for putting the practice of putting a knee on a person's neck in the handbook.

- Wednesday 3/10/21: Hour 1: Tara and Lee talk about the incentivizing having children at the border and Tara explains why it is being used for obviously nefarious purposes. The problem is being helped with democratic leadership being quiet and Joe Biden seemingly not knowing anything about the crisis. Also, the left went crazy of kids in cages during the Trump Administration but remain silent on the issue with a democrat in office. Hour 2: Tara talks about how the left is using the crisis at the border to gain voters in future elections. She also refers to what they are doing as a "Coup". - Thursday 3/11/21: Hour 1: The media repeatedly called the Corona Virus, the Wuhan Virus but when Trump said it, it was all of a sudden "racist." Tara says they are all liars. Hour 2: Tara talks about the hypocrisy of the left and how they say something and then the next day will accuse you of being racist for saying the same thing the next day. Dr. Fauci was finally asked the science behind what he says and Tara says it was fancy way of saying that he doesn't know. Hour 3: Tara talks about the George Floyd case and how the media is fanning the flames of murder. What the media is not saying is that the officer used methods that were in the training manual. sexualizing of our youth. Social media apps are full of this stuff and is leading to kids coming out as gay when they aren't, they just want to be popular.

- Friday 3/12/21: Hour 1: Tara and Lee talk about Joe Biden's address to the nation last night. It marked the 1-year anniversary of the pandemic and the speech itself was full of lies, says Lee. He also asks where the AP fact checker is right now? They constantly fact checked Trump but nothing on Biden. Hour 2: Tara talks about how there are "speech codes" being developed to get rid of certain phrases like "Mom", "Dad" and "parent"? Why are they doing this? Tara explains. Hour 3: How dare Joe Biden tell us that we cannot meet with other people and grill out with friends until July 4th when he is allowing thousands of migrants to cross the Mexico border every day. Hour 4: Tara talks with Pressley Stutts who was at the capital riot and tells a very interesting story. Hint: It involves Antifa.....
- Monday 3/15/21: Hour 1: Tara talks about how Dr. Fauci's lies are finally being brought to light and finally a senator, Rand Paul, came out and called him on it. Studies show that being 3 feet apart was good enough for social distancing. Lockdowns clearly don't work, California who completely locked down has similar numbers to Florida who was one of the most open states. Hour 2: Tara talks about the apparent emergency at the border now with the White House calling in FEMA to handle the problem at the border. Tara points out that a lot of the things going on down there would have been a national crisis had Trump been president. Hour 3: Tara and Lee talk about how the government is stepping in on the fitness test in the military. They are trying to figure out why the majority of men pass and most females fail. Tara says the answer is kind of obvious but "we don't want to offend anybody". Hour 4: Tara talks about how there needs to be fines for people who try and dictate what people can say. The censorship has got to stop; they do not have the authority to censor anyone but we allow them to anyway.
- Tuesday 3/16/21: Hour 1: Tara talks about the real reason as to why she was put in Facebook jail for three days. It is because she is closing in on the truth and they want to censor the truth. She also talks about the Chinese currency may become the world's economy. Hour 2: Tara talks about whether or not China released the virus as a chemical weapon. Also, the Biden administration is still refusing to call the crisis at the border a "crisis" because it is his fault. Hour 3: Tara and Lee talk about the George Floyd case and why the police chief should be on trial. She talks about a juror that was dismissed because he was afraid for his family's life and the judge agreed. Hour 4: Bobby Cox joins the show to talk to Tara about 2nd Amendment rights and future Bills that would involve your right to purchase a gun. Tara explains why she will not talk about stories that the national media comes out with. They constantly lie and she does not want to miss inform her audience.
- Wednesday 3/17/21: Hour 1: Tara and Lee break down why the Democrats are viewing the border crisis as a "problem." Lee sounds off on Democrats that blame Trump and says the former president is the one who was preventing this from happening. Hour 2: Tara talks about the kids around the Greenville County Schools that are failing. Her kids are in the virtual program and says it works great for her kids and hopes the district doesn't take the program away. Studies show that men having a few extra LBs and rocking the Dad bod are the most attractive. Tara gives her input and more. Hour 3: Tara talks with Tomi Lahren of Fox News to talk about her upcoming visit to Clemson and how the BLM movement there is already trying to stop it. They also talk about the crisis at the border and why the Biden Administration would never let Tomi into the facilities down there. Tara also apologizes to the listeners if she ever encouraged giving your kids a cell phone

with all the filth that has been discovered on them. Hour 4: Dave Schwartz joins the show to talk to Tara about gun legislation and why SC law makers are so passive when it comes to gun laws. Tara also dives into how in the world does Kamala Harris not know enough information about what is going on at the border to make any type of comment.

- Thursday 3/18/21: Hour 1: Tara talks about how Democrats are proposing reforms that would significantly downgrade how long attempted murders and pedophiles would spend in jail. Tara explains just how dangerous this is. Hour 2: Do you really know what is on your vegetables? Tara shares that there may be more pesticides on your vegetables than you realize and she shares which ones have the most. She also explains that what is going on at the border is what Joe Biden wanted all along. Hour 3: Tara talks with Mark Meckler, acting CEO of Parler as they talk about why he is in South Carolina and the need to fight back against Tyranny. Tara talks with Jennifer Black to talk about a bill being introduced to ban male born athletes from playing in female sports and why some Republicans are not supporting it. Hour 4: Tara talks about the new criminal reform Democratic cities are planning. It is completely radical says Tara and is going to get ugly if it is passed. Tara also talks about how Florida has been thriving through the pandemic being in the middle of the pack in Covid cases while blue states suffer.
- Friday 3/19/21: Hour 1: Tara talks about the filth on the internet that came into her home via her kids and their phones. She says you will not believe what your kids are exposed to now days and she had to take drastic measures. The Corona Virus came from Wuhan and the media for weeks on end called it the “Wuhan Corona Virus” but when Trump said it, it all of a sudden became racist? Why? It helps the narrative they are trying to create. Hour 2: Can Joe go anywhere without VP Harris? Tara and Lee talk about Joe Biden’s cognitive state. Putin is taunting the president by offering a sit down meeting for both countries to watch after Biden claimed he looked into Putin’s eyes and told him that he was a killer. Hour 3: Tara talks about the ban of Transgender women being allowed to play in female sports and Republican legislation killed the bill in SC. Hour 4: Tara talks about the inflation that is happening in our budget and says if we keep spending money, were in deep trouble. She tells a horrifying story of a man in Canada whose parental rights were ripped away with his 14-year-old daughter who was told she is actually a male. He was even arrested for not referring to the daughter by the “proper” pronouns.
- Monday 3/22/21: Hour 1: Tara and Lee breakdown what happened over the weekend including the NCAA situation over the difference between the weight rooms for Men and for the women. Tara also talks about the border crisis and why the left wing media is trying to portray conservative as racists? Tara explains. Hour 2: Tara talks about how no one is fighting for us right now, the leader of the Republican party, Donald Trump, is silenced across all media platforms. Trump announced over the weekend that will change and that news gets Tara excited because we might have leadership standing up for conservatives again. Hour 3: Tara talks about the joke that is the Biden administration and his “voter drive” at the border. China gave it to the Biden Administration and basically showed how weak Biden is as the Chinese no longer have to listen to the U.S. Hour 4: Tara talks about China took the Biden administration to the cleaners and how it was an absolute humiliation. Trump was cutting China off at the knees and came at them from a position of power but now with Biden, China has all the leverage. Tara explains that China’s economy is growing more so than our economy and the implications of this in the future.
- Tuesday 3/23/21: Hour 1: Tara has an urgent message to all conservatives, what is going on at the border is not a crisis, it is a voter drive and the democrats are not hiding it. She

says that right wing media needs to wake up or the Republicans may never win anything again and the U.S. will become a one party system, just like China. Hour 2: Studies show that we spend over 30 hours a year researching stuff online. Tara calls it going down a rabbit hole and before long, you just wasted 20 minutes. We can probably all relate to this. She also talks more about the voter drive going on at the border and pleads for officials on the right to understand that. Hour 3: Is it safe to take the Covid vaccine, Tara says she is going to wait as long as possible. She is doing so because she wants to see more data on the shots because the U.S. bypassed a lot of steps in order to push the vaccine out. She also plays an interesting interview involving UFOs, there's someone's technology out there and it does not belong to the U.S. Who does it belong too? Hour 4: Tara and Lee talk about the Biden administration about to spend over \$3 trillion and the impacts that would have on the economy.

- Wednesday 3/24/21: Hour 1: Tara and Lee breakdown the Democrats once again waiting for a shooting to try and take guns from gun owners. Tara explains that had the current gun laws been enforced, this would not have happened. She also talks about the cartels at the border and the fact that they have more control of the border than the U.S. Hour 2: Tara and Lee talk about the crisis going on at the border and how Kamala Harris seems to be a bit socially awkward because she laughed at a serious question about the border. Lee seems to notice a trend in how the VP answers questions that she may not have an answer too, trying to buy herself some time. Tara also talks about how if the government continues to spend money like they are, it could collapse sooner rather than later. Hour 3: Tara and Lee talk about a bill being introduced in Columbia by Senator Tom Corbin that could overrule any gun control law at the federal level. Tara says that with our state legislation, it is more of a stunt than anything. Also, there are plenty of predators and monsters that are coming over the border with these kids and claiming to be their parents. For a matter so serious, why is the vice president think it is a laughing matter? Hour 4: Dave Schwartz joins the show to talk to Tara and her listeners about corruption bills and the people who are promoting it. He also gives you a way in which to tell your legislators to stop it and voice your disapproval directly to them.
- Thursday 3/25/21: Hour 1: Tara and Lee talk about the overcrowding of the detention centers at the border. There are people that are having to sleep on top of one another. Remember when the leftist media accused Trump of killing people by allowing people to gather? Now, we have people in spaces so crowded and jam packed, where is the media outrage? Nowhere to be found. Hour 2: Tara talks about how the federal government actually has no control over the borders. Tara says that only state governments have the authority to enforce immigration. Also, Tara is convinced that higher up officials knew that locking people down in their homes would be a super spreader for the virus, but they did it anyway. Hour 3: Democrats know that in order to win future elections, they know that the legislation put forth by Republicans because they know that they would lose voters. Tara says those people are dead voters that the left could use to win future elections. Hour 4: There are plenty of people that are so quick to jump to a conclusion that everything is a race issue. Tara says they will continue to do so just to try and fit their narratives.
- Friday 3/26/21: Hour 1: Tara and Lee breakdown Biden's first press conference as president of the United States. The presser included Biden not sure if there is even going to be a Republican Party in 2024? What does he mean by that? Tara explains. Also, Tara explains why top Republican leaders deserve Emmy's for their performance at the border because they truly don't support Conservative values. Hour 2: Tara talks about how the

FBI and the left are colluding to try and root out “extremists”. You can be put on the no fly list based off stuff that they should not know. Tara says, this is extremely dangerous. Hour 3: Tara and Lee breakdown the utter failure of the FBI to stop mass shooters. Tara goes through multiple names of mass murderers that the FBI was warned about or who were flagged but the FBI either ignored or failed to screen properly. Hour 4: Tara and Lee talk about the facts that are coming out about Hunter Biden, but you won’t hear anything from the media. Tara explains that Hunter is being used by his father, Joe. This may explain Biden’s response to a reporter who asked him about a child who walked from Honduras to the border by himself.

- Monday 3/29/21: Hour 1: Jim Bohannon steps in for Tara this morning as he talks about the people coming across the border and people who would just love to volunteer, especially Democrats. He reiterates what Tara has been saying in that what is happening down at the southern border is strictly a voter drive. Jim also talks about the voting laws in Georgia and the left going crazy even though the law seems to be common sense. Hour 2: Jim talks about the upcoming trial of Derek Chauvin over the death of George Floyd. He talks about the ins and outs of the case and what each side is going to present in the trial. Hour 3: Lee Rogers joins Jim to talk about the Biden Administration asking for volunteers down at the border. Lee brings up the point that all religious organizations should or could offer to help in any way they can. Hour 4: Jim talks about the government’s spending budget balancing the budget.
- Tuesday 3/30/21: Hour 1: Tara and Lee talk about the voter drive going on at the border. Tara adds to it by talking about the kids that are being brought here could be voters in the next presidential election. This is why they are allowing anybody with a kid in, because all the left sees are voters. She also talks about the Derek Chauvin trial. Hour 2: Tara talks about how the Republican leadership does not care about what is going on at border leading Ted Cruz to step up and stand against what the left is trying to push on America. She also talks about how kids that are coming from the border are being used by the left and it is pure evil. Hour 3: Tara and Lee talk about how the CDC has said that the Corona Virus came out of a lab, they both give their thoughts. Is the U.S. copying China’s social system? In China, you cannot travel if you do not have enough social credits for not being a part of what the government wants. If we are not careful, Tara says something like that could come here with the new “extremists” term. Hour 4: Tara talks about how schools in the Midwest that are closing more now because of teachers having side effects from taking the vaccine. Tara says that she is not saying to not take the vaccine but to be very cautious because the media will not tell you everything, especially if there are deaths.
