Re: Radio License Holding CBC, LLC (RLH)
WRIE (AM), Erie, PA
Facility Identification Number: 32982
Special Temporary Authority (STA)
BESTA-20180508ACX

Dear Mr. Denning:

This is in reference to the request filed on May 8, 2018. RLH requests a further extension of the STA granted on November 29, 2010, to continue to operate with DA parameters at variance to allow time to file the required FCC Form 302 application to update all operating parameters.¹ In support of the request, RLH states that additional time is needed to complete a proof and file the application due to changes in the monitor point readings.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and RLH may continue to operate with DA parameters at variance and/or reduced power if needed to maintain all monitor points within licensed limits. RLH must reduce power or cease operation if

¹ WRIE is licensed for DA operation on 1260 kHz with 5 kW (day and night) using different patterns.

complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 6, 2018**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a final flourish.

Joseph Szczesny, Engineer
