

# WZXI Issues and Programs

## Fourth Quarter 2021

During this Quarter, WZXI aired approximately 23 Public Service announcements daily M – F, approximately 12 minutes daily, not including weekends.

Also, The Kentucky Focus program schedule is attached. This program addresses a wide spectrum of issues that reach across the Commonwealth and region.

The Kentucky Focus program listings for the fourth quarter is herein included.

On November 4<sup>th</sup> a fire at the Lancaster Food Pantry broke out and completely destroyed the facility. The Food Pantry serves the needs of 5% of the county population and a much needed resource. WZXI coverage started while the fire units were on site. Coverage included an interview with Fire Chief Sebastian shortly after the blaze had been extinguished. Additional follow up announcements were coordinated with the Chamber of Commerce and others designating local drop off places for food and clothing donations as they were arranged.

The responses came from surrounding counties, across the state and outside the state. Several WZXI programs are popular with listeners beyond the actual coverage areas of the on air signals through the internet stream that has on occasion reached 500 connects.

WZXI worked exclusively with a local food store and promoted their drop-off location over the air. Mr. Gregg Cash, Director conducted several interviews and related to our audience that the result of our involvement at the local supermarket had produced two truck loads of items for the pantry.

WZXI's programming efforts have cultivated a very responsive audience within our community.

During the early morning hours of December 11<sup>th</sup> a series of two tornadoes traveled through Kentucky causing much death and destruction. Traveling over 200 miles on the ground the storm completely destroyed three hangers at the Danville airport only about 20 miles to the west of Lancaster. While monitoring the station off air, the National Weather Service office out of Louisville began sending alerts over NWS station KIH41, issuing alerts of possible severe storm/tornado activity. WZXI relayed these alerts continuously through the night over WZXI-AM, W238CN which has good coverage into Garrard, Lincoln and Boyle county that includes Danville. A second translator, W231DM also provided coverage to northern Garrard, Jessamine, Madison and parts of south Fayette county.

Our operations provided a means to interrupt normally scheduled programming and transmit storm advisories and information. WZXI was in regular contact with the EMS dispatch center in Lancaster throughout the storm event. Fortunately, most of our listening area suffered much less damage than those areas west of Lancaster/Garrard county. The cooperation of the staff at the Garrard EMS was and is greatly appreciated.

Copies of the NWS weather advisories are attached.
