

## ISSUES-PROGRAMS LIST April-June 2014

1. SOLAR ENERGY  
Solar energy pioneer Neville Williams, author of “Sun Power, How Solar Energy from the Sun is Changing Lives Around the World, Empowering American and Saving the Planet.”  
Program: Mainstreet  
Aired: 4-22-14  
Time: 3:06-3:40pm
2. HEMP  
Some people believe the US is on the brink of a hemp boom. Joining us with the latest rules and regs for North Dakota farmers is Rachel Seifert-Spilde from the ND Agriculture Department.  
Program: Mainstreet  
Aired: 5-21-14  
Time: 3:06-3:30pm
3. COLLEGE SAVE  
“College Save”, the ND 529 college savings plan offers many advantages. Here with the latest information is College SAVE Administrator at the Bank of ND, James Barnhard.  
Program: MAINSTREET  
Aired: 5-28-14  
Time: 3:06-3:30PM
4. CLEAN POWER PLAN  
The Obama Administration is spending a lot of time defending their so-called clean power plan – new regulations on power plants aimed at cutting carbon dioxide emissions. The idea is to make sure CO2 levels in 2030 are 30percent lower than they were in 2005.  
Program: Morning Edtion  
Reporter: Emily Guerin  
Aired: 6-23-14  
Time: 6:30am 8:30am
5. BAKKEN CRUDE & TRAINS  
The state’s emergency management agency is sharing statistics with local emergency managers on how many trains carrying Bakken crude oil are going through the state. Local officials say they have plans to handle derailments, as well as fires or explosions from those derailments.  
Program: Morning Edition  
Aired: 6-26-14  
Reporter: Dave Thompson  
Time: 6:30am, 8:30am
