

Issues-Program List, October-December, 2017

From the News Department

1. Dealing with Aging -- "DHS and AARP working to help North Dakotans stay at home as long as possible." Aired 12-8-17. Runs 1:27 by Dave Thompson.
2. Agricultural diversity -- "The number of acres certified organic in North Dakota is rising." Aired 10-23-17. Runs 2:30 by Dave Thompson.
3. Dakota Access Pipeline -- "DAPL company making donations to emergency management departments along the pipeline route." Aired 10-18-17. Runs 2:57 by Amy Sisk.
4. Carbon capture -- "North Dakota's lignite industry has ambitious plans to capture carbon dioxide emissions from coal-fired power plants." Aired 10-5-17. Runs 2:07 by Amy Sisk.
5. Unmanned Aerial Vehicles -- "UAV distance record set in ND." Aired 10-2-17. Runs 1:44 by Todd McDonald. (North Dakota is trying to be the leader in unmanned aircraft.)

From *Main Street* (public affairs show on weekdays at 3 and 7 pm)

Wednesday, October 4

306pm

12:35 duration

– "Bridging Cultures: Building Connections" will be held Saturday, October 14 at the North Dakota Heritage Center in Bismarck. Joining us is one of the presenters, Cheryl Ann Kary director of the Sacred Pipe Resource Center of Mandan. She'll discuss ways of bridging the cultural divide.

Tuesday, October 10

306pm

24:00 duration

– Prairie Public partnered with Blue Cross Blue Shield of North Dakota to produce a TV documentary on the opioid epidemic. Today we share an interview from this week's Prairie Pulse television show with Dr. Elizabeth Faust of BCBS as she discusses the problem with host John Harris. "The Opioid Epidemic: Seeking Solutions in North Dakota" premieres October 27th.

Monday, November 6

306pm

15:30 duration

– As part of Native American Heritage month, a number of events are taking place across the state, and that includes an appearance by Winona LaDuke at the Plains Art Museum this Thursday. Winona joins us to preview her talk and reflects on other issues facing Native Americans. ~~~

Tuesday, November 21

306pm

20:30 duration

– Cows, cattle, coal and oil are all major factors in North Dakota’s economy, and they all get blamed for contributing to global warming. Here with some perspective on those claims is Dr. Robert Howarth of Cornell University, who takes issue with papers that blame the livestock for increases in methane.

Tuesday, December 5

306pm

24:30 duration

– “Does Free Expression Always Make Us Smarter and Stronger?” That’s the theme of a lecture and panel discussion Wednesday sponsored by the Northern Plains Ethics Institute at NDSU. How should universities balance its values of free speech and non-discrimination? Is there a place for inflammatory language? The featured speaker is Dr. Jeff Snyder of Carleton College. He joins us to preview his talk, “Threats to Free Expression on Campus Undermine Teaching and Learning.”
