QUARTERLY ISSUES / PROGRAMS REPORT 1QTR24

Below is a list of the issues that were given significant treatment on KXLA during the preceding three-month period and the programming that provided this treatment.

Issues:

- The following are local issues of concern to the community "CHIRLA" a 30-minute program on Sunday's, addressing current issues of local and community interest. Weekly topics vary, but include interviews with local community leaders, reports on topics of public health and safety, matters concerning education in the local community, and matters concerning changes to the nation's immigrations laws & regulations. Programs that addressed these issues during this reporting period are listed on the following pages.
- Deep-rooted in Los Angeles (the epicenter of immigrant life in the United States), CHIRLA TV is the immigrant voice seeking to educate and empower the community, with a discussion of topics that affects us. In a nation built by immigrants, with a strong history of diversity and integration, this program's commitment is to celebrate and honor the immigrant experience in all its many facets. Every week, the Coalition for Humane Immigrant Rights (CHIRLA) raises a different topic with guests who represent the immigrant voice.
- Philanthropy and Charity: Residents of Los Angeles and surrounding areas are constantly looking for ways to give back to the community and support different populations that require assistance. To educate viewers about opportunities for philanthropy and charity, KXLA broadcasts public service announcements several times a day for organizations that provide services in or near the communities. A list of the public service announcements broadcast on KXLA during the prior quarter is attached hereto.
