During the majority of the period July 1, 2021 through September 30, 2021, the above listed stations were on the air a minimum of 18 hours per day. During the quarter extensive work being done on the supporting tower required stations to operate at reduced power or shut down completely for the safety of the tower workers. These outages are noted in the stations' maintenance records.

During this time they have broadcast an average of at least three hours per week of programming produced within the Station's protected service contour, averaged over each calendar quarter. The station's local programming was:

Northwest Weather Show
Mid Valley Weather
