

Statement Regarding Filing Date of 2023 EEO Annual Public File Report

While attempting to access our Online FCC Public Inspection File to facilitate the filing of our 2023 EEO Annual Public File Report on June 1, 2023, we encountered severe issues with the operation of the FCC's website. In some instances we were entirely unable to access our files and in other instances the delay in switching pages, etc., was so long our browser would time out and we would have to log in to the website again. The Commission's website noted that technical issues were being experienced and were being addressed (see screenshot below). We contacted technical support for assistance and filed an e-request for help (see attached screenshot with case number). These technical issues with the Commission's website caused our filing to be made after the June 1, 2023 due date and required numerous attempts.
