Station Call Letters: **WZZM**

Location (City, State): **Grand Rapids/Battle Creek/Kalamazoo**

For quarter beginning: October – December 2021

January 1, 2021

April 1, 2021

July 1, 2021

**October 1, 2021**

Attached are descriptions of issue-responsive programming broadcast by this station during the reporting period, on the days and times indicated. Each program regularly provides information or addresses current local issues of concern to viewers in the area where our station is located.

## LOCAL ISSUES ADDRESSED DURING THE QUARTER

The following are local issues of concern to the community. Programs that addressed these issues during this reporting period are listed on the following pages.

1. **Community** – The West Michigan region is comprised of several cities, each with its own identity and a real sense of community. WZZM is dedicated to covering the kinds of stories that allow each community to maintain its unique identity, while also focusing on the issues and stories that bind us all together.
2. **Crime/Safety** – With growth come challenges. The West Michigan region has experienced tremendous economic growth, bringing with it concerns about crime and personal safety.
3. **Diversity/Social Justice** – As the country grapples with issues of race and ethnicity, the movement toward greater social justice is very much a part of the conversation in West Michigan. Issues such as fair housing, racial reconciliation, diversity, equity and inclusion are all being addressed.
4. **Economic Development** – Grand Rapids and several lakeshore communities continue to experience healthy economic growth. From new businesses to expansion of long-standing community institutions, there is tremendous potential for further growth. At the same time, employers in certain fields are challenged to find qualified or willing workers. Families are looking for ways to make their personal economies healthier, becoming smarter consumers and spending their money wisely.
5. **Education** – Among the many concerns are funding for education, the achievement gap, declining test scores, Michigan’s third-grade reading law/falling literacy rates and preparing our future work force.
6. **Health** – West Michigan is home to the Michigan State Medical School, the VanAndel Research Institute and many local health care providers. Changes in healthcare and developments in disease research and treatment are breaking news in this medical community.
7. **Family/Youth** - Issues and stories that will strengthen the lives of children and families are critical to the health and well -being of our community.
