

2nd QUARTER TOP TEN ISSUES REPORT FOR 2023

1. **ECONOMY** (Inflation, cost of living, credit)
2. **HEALTH CARE** (Covid-19, vaccine, insurance coverage, cancer, hospital safety)
3. **PUBLIC SAFETY** (Ukraine War, Covid social distress, crime, environmental hazards)
4. **EDUCATION** (school closings, in home education)
5. **GOVERNMENT** (taxes, federal/state reforms, election concerns, women's rights)
6. **IMMIGRATION** (citizenship, deportation, borders, discrimination)
7. **AGING** (home care safety for elderly, social security, retirement plans)
8. **ENVIROMENT** (pollution, recycling, changing climate, traffic)
9. **TECHNOLOGIES** (privacy issues, cybercrime, costs of being connected)
10. **ARTS/CULTURE** (tolerance. issues, maintaining heritage beliefs, cost of arts)

The above list was compiled by the following methods. Views, opinions by brokers, producers. Letters, Calls and emails from listeners. Staff and management analyst. Local and national news media as well As social media.

Many of the prioritized concerns of last quarter remain to be front and center for this second quarter of 2023. The **cost of living, economy, and violent crimes** are very much on the minds and concerns of our listeners. The service industry is struggling to find and maintain staff. Because of the Canadian forest fires, the United States eastern front environment was hit with harsh air quality issues that made some outdoor activities and events to postpone and reschedule. The Mid-west area got hit the week later with the same air pollutants. Since Covid, the population has concerns how this can affect your **health** in the long term.

2024 being an **election year** for the United States, all these issues become politicalized. A lot of finger pointing but not enough solutions. The Chicagoland area has been getting hit with the **immigration** overflow from the Mexican border crisis.

During this quarter, The United States for the first time saw a former President brought up on federal charges regarding the classified White House files. While many support this action many feel it is no more than political posturing. Also, the Supreme court ruled against the college tuition forgiveness plan, now many will have to resume payments again. Once again, the country seems divided on this decision.

Polnet feels that the importance of localized programming communicates all the issues mentioned above a local understanding for the benefit of the listener.

Media Tracks located in Des Plaines produces 2 localized programs (RADIO HEALTH JOURNAL and VIEWPOINTS). Both shows are syndicated nationwide and are nationally popular. But being based local, many guests are from local areas and information is of particular interest to this area. While these 2 programs not only fulfill the public issues needs for this period, the programs are of local origin and each program has multiple subjects being covered, just makes this an essential informative source to all our listeners.

Polnet is proud that all programming that originates from our Northbrook facility, is locally based in the Chicagoland area. The Chicago Greek Hours as heard on WEEF is based out of Morton Grove. The Entertaining and informative multiple Russian programming that airs on WKTA all originate in areas of Northbrook/Wheeling locations.

All these programs produce live news/community programming daily. Our brokers have the ability to inform of events and happenings in the home language of their broadcast. This is one of the reasons why free broadcast local radio is an essential broadcast tool to our specialized listening audience. Many of our producers have web streaming, publications, and direct phone lines so listeners can connect multiple ways with their news source.

Local community institutions still provide many free services and events which we provide information to our audience in a public service announcement form. Sources such as the Northbrook Public Library provide many seminar types of services open to the public as well as the Lake County Health Department will have free health screenings on various concerns such as high blood pressure and diabetes.

Polnet is always looking to bring the best quality of sound and information to its listeners. Therefore, we encourage listeners to communicate back to us so we can be more informed of their interests, thoughts and concerns, as well as events. Communication is key to our business and to our listeners.

Viewpoints

**Award-winning reporting on current issues, featuring
America's leading experts**

About Viewpoints

Viewpoints is an entertaining, highly-produced, contemporary radio magazine with two major stories weekly. Each week, *Viewpoints* features interviews with guests that have expertise and real-world experience regarding current events, social commentary, entertainment and more. The program is currently airing on over 650 radio stations throughout the country.

Meet the hosts

Marty Peterson

Marty became co-host of *Viewpoints* in 2008 and brings a unique background to the program. After earning a bachelor's degree from Dartmouth College and an MBA from Northwestern University, Marty entered the broadcast field in 2003, and since then has done numerous projects for outlets including National Geographic, The History Channel and the Weather Channel. She also serves on the Women's Board of a variety of non-profit organizations including the [American Red Cross](#), the [American Heart Association](#), and [American Cancer Society](#).

Gary Price

Viewpoints co-host Gary Price is a veteran radio programmer and voice-over talent. He has been the program director of legendary stations such as WOKY/Milwaukee and Chicago's WLS-FM, WCFL, WTMX, and WMET, as well as operations director for Infinity's WJJD-WJMK. Recently, Gary has done numerous projects for outlets including the United Nations, NASA, the Smithsonian Institution, and the New York Stock Exchange.

PSA - COMMUNITY ANNOUNCEMENTS - ALERT NOTIFICATIONS

As with all multi-language stations} there is a specific and unique audience that is supporting and listening to its airwaves. Our producers know that to keep their listeners "in the know" with events, programs, notifications, seminars, fairs ... is a way to connect the audience and return the audience and in return, the audience stays in tune with the program.

All the programs broadcast these entities mostly in the homeland language to make all information dear and timely to its audience.

Polnet Communications LTD] has always supported the PSA venders such as the:

AD COUNCIL

IBA

Lake County Health department and Lake County College

Along with other state and local non-for-profits organizations. Usually we are able to provide a 60 seconds spot on top of each hour along with the station legal I.D.

The following are a sample of resources and sources of materials used to provide our PSA and community announcement choices. We also do not manipulate our producers with announcement choices} we *feel* that they know what is concerning and is of importance to their listenership.

Also during our self produced programming (MUSICLINES) we run several spots of

PSA. material during these times.

Program 23-14

Air Week: 04/02/2023

Executive Producer: Amirah Zaveri

Production Manager: Jason Dickey

SEGMENT 1: SAVING YOURSELF: WHAT TO DO IN AN EMERGENCY SITUATION

Time: 1:50

Duration: 11:18

Synopsis: When Rebecca Fogg's toilet exploded, she knew she had to do two things: call 911 and stop the bleeding from her arm. But how would you react in her situation? An expert explains the most important steps to take when you're in a crisis that will give you the best chances of survival.

Host: Elizabeth Westfield

Producer: Kristen Farrah

Guests: Rebecca Fogg, Author, Beautiful Trauma; Dr. Claire Park, Consultant in Pre-Hospital Emergency Medicine, London's Air Ambulance Charity

Compliance issues: Ambulance, Emergency Medicine, Explosion, First Aid, First Responders, Healthcare, Patient Safety, Public Health, Paramedics, Pre-hospital Care, Trauma Victims

SEGMENT 2: HAPPY ACCIDENTS IN SCIENCE THAT CREATED THE PRODUCTS WE USE EVERY DAY

Time: 14:10

Duration: 8:21

Synopsis: Not all scientific discovery is on purpose. In fact, many important breakthroughs were by accident, like insulin and X-rays. Our experts discuss why we should look at failures as a starting point rather than the end of the road.

Host: Nancy Benson

Producer: Kristen Farrah

Guests: Erin Heath, Director of Federal Relations, The American Association for the Advancement of Science; Dr. Jean Carruthers, Clinical Professor of Ophthalmology, University of British Columbia, Pioneer of Cosmetic Botox

Synopsis: Currently, only about 40 percent of students in the U.S. take a personal finance course before graduation. This means that most teenagers leave high school knowing little about saving, spending, student loans and how to do basic adult tasks like filing taxes. This week, we cover the push to change education legislation so more school curriculums incorporate a standalone financial literacy class.

Host: Gary Price**Producer:** Amirah Zaveri**Guests:** Tim Ranzetta, co-founder, Next Gen Personal Finance.**Compliance issues:** Education, Education Policy, Financial Independence, Personal Finance, Retirement**Links for more info:**
