TYPICAL AND ILLUSTRATIVE PROGRAMS IN RESPONSE TO ISSUES AND PROGRAMS

Local

Since **November 28, 1999**, KXLT Television, Inc. licensee of SagamoreHill Broadcasting of Minnesota, has broadcast the following programming in response to the issues and programs need for this quarter.

* **FOX 47 News @ 9**

Locally produced

News @ 9 M-F, Sun 9p-9:30p

Latest information and periodic in-depth background stories, which air during the news. All appear in 9:00 pm news unless otherwise noted, with possible rebroadcast, in original or re-edited form, in subsequent reports.

1. Economic & Downtown Development/Jobs/Tourism

7-15 Those in favor of high speed rail in southeast Minnesota met in Dodge County this morning... and they were greeted with some concern. The Dodge County Rail Authority wanted to make sure Olmsted County isn't playing a bigger role than it is in the federally-funded high speed rail study. As more talk begins about using passenger and freight rail on the same line... the Rail Authority wants to make sure a bypass line is not part of the deal. The Rail Authority is against the idea of bringing new train tracks through Dodge County.

7-22 Companies in Dodge Center are making a slow and steady comeback from the recession, but with a new outlook. This afternoon three local companies... McNeilus Steel, RDM of Minnesota and SOMINN opened their doors to customers and those interested in metal processing.

7-23 After recent struggles in the ethanol industry... a new study shows a promising future. The annual report from the Minnesota Department of Agriculture says Minnesota's ethanol business generated more than two-point-five billion dollars in 2009 and supported 68-hundred jobs.

7-26 The monthly housing data for June in Rochester leaves many wondering about the future of the housing market. Interest rates are at record lows... buyers have a wide range of home choices at favorable prices... but instead, the number of sold listings in the city is *down* from a year ago.

7-29 Leaders in the community want to make bio-business an economic development priority. The big four -- IBM, Mayo Clinic, Hormel Institute, and U of M Rochester --educated Chamber members and others about their vision to create a bio-business community. The partnership is crucial to support bio-business efforts in Minnesota.

8-12 What started out as a simple bridge construction project turned into something much more in Zumbrota. MN/DOT workers stumbled upon a time capsule from 1932 while renovating the Highway 58 bridge a few weeks ago.

8-19 Anybody who has walked around Oak Park Mall in the last year or so has probably noticed the "SPACE FOR LEASE" signs on several store windows. But recently at least two new stores have set-up shop.

8-24 In May, Rochester made Kiplinger's list of the top 10 best cities for the next decade. One reason for making that list is partnerships with the bio-business center... Mayo Clinic... and IBM. Today's roundtable with area business leaders was meant to help make sure Rochester stays on that list. To be the best... it's important to be able to attract... prepare... and retain the people the city needs to succeed 10 years from now.

8-30 Before we know it the leaves will be changing to their fall colors ... and cooler weather will be blowing in. And as we approach the end of the summer season ... we complete another chapter in the summer tourist season in southeastern Minnesota. Kerry Klatt visited Lanesboro today to talk to folks about how successful the season was.

2. Political/Governmental

7-28 The Senate Appropriations Committee has approved \$48-million in federal funding for state road construction projects. Of that 48-million, about 400-thousand is proposed to remove two traffic lights in Cannon Falls along Highway 52. An overpass will replace the lights.

7-30 The countdown has begun in earnest for the three DFL gubernatorial candidates vying to be Minnesota's next governor. Tonight, the three debated the big issues in Mankato. DFL candidates Margaret Anderson Kelliher, Mark Dayton and Matt Entenza responded to questions and reacted to comments during the 90-minute debate.

8-9 Just nine hours to go until Minnesota voters decide who the DFL gubernatorial candidate will be. Unemployment, taxes, health care reform and education are all major issues on the table tomorrow. Chris Conte is live now with where the candidates stand on taxes for the state.

8-11 It was an overnight stand-off for the DFL nomination for Governor. Mark Dayton who was the predicted front-runner was lagging early behind Margaret Anderson Kelliher.

8-11 There was a big shake-up in last night's primary election for the Rochester School Board race. The two incumbent board members on the ballot didn't even make it through the first round. Fanna Haile-Selassie is on this story... and joins us live with candidate reaction.

9-23 The northbound lane of Highway 52 is currently closed near Pine Island... because of a culvert separation. This is just one of the flood-related road closures that Mn/DOT has been monitoring in the area. Jessica Wiens joins us live from Mn/DOT headquarters with the very latest on the conditions.

9-25 Visiting the Zumbro Falls as well is U-S Senator Amy Klobuchar. She also toured the damage in Faribault, Owatonna, and Pine Island. She says she is putting in her effort to get Federal Disaster aid to the Southern Minnesota counties.

9-28 FEMA crews are in Pine Island looking specifically at individual home and business damage. FEMA workers say they hope to have their preliminary assessment data ready to give to Governor Tim Pawlenty by the end of the week.

9-29 Governor Pawlenty returns to flood-ravaged areas today ... making stops in

Zumbro Falls and Owatonna. His message was short and to the point -- the state is doing all it can at the moment, to provide flood relief.

3. Health Care Developments

7-9 According to the Census Bureau... there are more physicians per capita in Rochester than any other metro area in the country. It should be no surprise in the Med City. The report says the Rochester area has more than 33-hundred doctors... which means there are more than 18-hundred doctors per 100-thousand people.

7-27 For several years now, Mayo Clinic has been very active delivering health care through social media... whether it's doctors explaining conditions or procedures on YouTube or giving patients a chance to ask the expert on Twitter. A new proposal meant to protect teenagers would ban indoor tanning for anyone under the age of 18. But does the regulation go too far?

7-27 A month and a half ago... a Kasson veterinarian's life was in the hands of some pretty quick-acting individuals. This morning... the Dodge County Sheriff recognized their efforts in keeping him alive. Fanna Haile-Selassie was at the awards ceremony... and spoke with some of the heroes.

8-22 He's traveled across the world for an operation that is desperately needed. And thanks to one local singing group... a young Vietnamese boy will get a life-changing surgery. Fanna Haile-Selassie has the story.

8-24 Walgreens in Rochester is already offering this season's flu vaccine. This year's flu vaccine includes the H1N1 vaccination as well. So now it's one shot ..but both vaccinations. The Walgreen's pharmacist we spoke with said even if you get the vaccination today it's still good for the whole flu season.

8-26 It's a first for the Minnesota State Fair. This year a research study on DNA is being conducted by the University of Minnesota. It's called the Gopher Kids Study. Faculty and students are helping collect samples from children between the ages of one and 11. The study has two main goals. Ideally the participants will return both next year and in 2012 for a follow-up to the study. Workers take blood pressure readings, weight, height and waist measurements and they're also collecting saliva samples. Optionally the kids could give fingernail and blood samples as well. For the children it's a way to contribute to science in a way that will help researchers understand genetics for the future.

4. Education

7-19 One Independence Party candidate for Minnesota Governor, Rob Hahn, stopped by RCTC Monday morning to unveil his educational proposal. Hahn's "PIE" or Partners in Education plan is a proposal to cut college tuition for students and corporate income taxes for participating businesses. During school... students would work part-time in their field of interest with partnering PIE businesses... earning tuition credit.

7-22 Trust. Leadership. Communication. Those are just some of the qualities some people in this community say are lacking when it comes to our Rochester Public School Board. This fall, four seats are opening--and 15 candidates are vying for the job. And they say they want to bring change!

8-4 Rochester Public School District officials say they think they've come up with a way to help generate money. The idea is to sell advertising space to prospective clients who want to advertise on school property. School officials said today that they're taking a policy that has existed for many years -- one that allows the district to sell ad space for athletic events and other activities for profit-- and broadening that concept so it fits the entire district.

8-6 For many families the pressures of the cost of school supplies can be a lot to handle. The United Way of Olmsted County's program "Running Start to School" will help provide school supplies for some of those estimated three out of ten who need it. Aubrey Helms reports.

8-11 AYP scores were recently released. The number of Rochester schools that made Adequate Yearly Progress... sunk this year.

8-17 Just before 9 o'clock tonight, the Rochester School Board voted to go-ahead with a revised referendum that would raise property taxes in order to give the schools the money they desperately need.

8-23 It's back to the books for RCTC students - a new school year began today. And for the second year in a row... enrollment numbers at the two-year college are looking impressive.

8-24 It's back to school for students at Studio Academy in Rochester. But the first day almost didn't happen... and the charter school's future remains uncertain. With the state delaying payments to the school... and decreasing enrollment numbers... the school's financial struggle has been building for a couple years.

5. Crime Prevention & Domestic Violence

7-8 City council members passed an ordinance last night 4-to-3 that would require panhandlers to get a free license in order to continue the practice. The license would also be a way to get information to panhandlers that would offer information for getting back on their feet.

7-30 A woman is injured... a man is now in custody... and a young child was right in the middle of everything. 30-year-old Mitchell Good was arrested Wednesday night following a man-hunt. On Tuesday, some people passing through Kalmar Township saw Good, a woman and a child. Witnesses say that Good said he tried to kill the woman. According to the criminal report he will be facing charges of 1st degree murder, second degree murder, 2nd degree assault, and two counts of terroristic threats.

8-5 Rochester residents who know the two accused terror suspects, say they are simply "shocked." The term "here-after" is commonly used by Muslims... it refers to the practice of helping out those in need... whether that means family members or friends. Federal authorities say both of these women claimed they were sending money and clothing back home to family members who needed it in Somalia. But that 11-page indictment says the goods were actually going to al-Shabaab, a terrorist group.

8-6 A Plainview man was cited earlier this week... for offering his services as a prostitute. Rochester police say 40-year-old Steven Scott Miller was cited in a sting at a Rochester hotel Wednesday. Investigators were alerted to Miller after he allegedly sent a letter offering "intimate services" to a Rochester woman he had never met. Investigators responded to that letter via text message.

8-9 A northwest Rochester neighborhood is on-alert after two drive-by shootings over the weekend that injured two. And as more details of the shootings become available, there are growing concerns about gang activity in the Med City.

8-18 "It's been worse than we've imagined possible." Karen Duncan is the Chief public defender for the southeast Minnesota 3rd district. She says in the past few years she has seen her budget AND staff reduced, and her work load stack up beyond control.

8-25 A child abuse case more than 3 years old came to a close this morning... today a judge sentenced Valerie James for a gross misdemeanor charge for child neglect. Her boyfriend at the time, and father of their baby Jordan, Robert Heck, was sentenced two weeks ago to 14 years in prison for causing 24 bone fractures in Jordan. The baby was in Rochester to be separated from his conjoined twin.

8-29 Rochester police say a 14-year-old boy is responsible for at least a half dozen burglaries in the city. That teenager was arrested Friday in Northeast Rochester around 2:30 in the afternoon. Police were called to the scene of a burglary in progress. When they arrived, they found the teen with a group of young people and took him into custody.

9-27 While the flood clean up continues... the rebuilding stage is not far off for Pine Island residents. Now city officials are warning homeowners about unlicensed peddlers.

9-29 We have new details involving a standoff at a mobile home park in Stewartville. Olmsted County authorities have surrounded a home in the Southern Hills Mobile Home Community. The Olmsted County Sheriff's Office says a person has barricaded himself inside his house after making terroristic threats.

6. Elderly/Handicapped/Minority Groups/Racism

7-6 A vision to help more people in need...is becoming a reality in Rochester. This morning, the Salvation Army broke ground on a new "care building." The facility will replace the existing facility for the licensed day program to help adults who need assistance with daily living.

7-13 Bob Bardwell, the Executive Director and founder of Ironwood Springs Christian Ranch in Stewartville, represented the Twins at tonight's game for People magazine's "All-Stars Among Us." The program represents people who serve their community in extraordinary ways. In 1973, an accident left Bob paralyzed from the waist down and since then he has made it his mission to give back.

7-22 Two weeks ago, the Rochester City Council approved a domestic partnership registry for the city. Tonight meet the first couple to make it "official" in Rochester. The ordinance is meant as a way to allow hospital access for committed, but non-married couples. It's intended for same-sex couples, but technically could apply to non-married heterosexual couples as well.

8-12 A University of Minnesota police officer is on a mission to bust all those who illegally use handicapped parking permits. In the last five years, Officer David St. Cyr has written more than a half-million dollars worth of tickets. He's cited more than one thousand drivers during that time. The permits are only to be used by the holder or someone driving the permit holder, but a lot of people use them to try to get a better parking space or avoid paying for parking.

8-16 Brianna Broitzman, one of the two women accused of physically and sexually humiliating nursing home patients in Albert Lea, reached a plea agreement earlier today.

8-23 Some shut down, others feel hurt, the word is sensitive, and the issue of "race" is powerful. Today, Dr. Yolanda Moses was in town to talk about just how to talk about how to open up when it comes to race.

7. Environment

7-6 They're a nuisance...and they've come back over the past couple of weeks. We're talking about mosquitoes. Steph Anderson more on a city that's trying combat them. Some cities say spraying isn't always the answer... Stewartville's approach seems to be working.

7-15 BP officials and the President said today it's too early to celebrate. Still though, Gulf Coast residents and local BP gas stations are finally breathing a sigh of relief.

7-26 These are called channel catfish... some of them weigh up to 12 pounds. Officials haven't figured out why they're dying... but they are certainly the talk of Lake Zumbro right now.

7-26 Today was a great day to get your boat out on the water... but many Mississippi River boaters have run into trouble thanks to a green mess. "Coon-tail"... long strands of thick weeds... are painting the water green. The heavy plant can take a toll on boat motors. The clear water this year has allowed more sunlight to reach the bottom and encourage growth.

8-24 It was the highest number tornadoes that have ever touched down in Minnesota in a single day. The June 17th storms caused millions of dollars in damage... and people across the region are still cleaning up. Chris Conte has more on the recovery efforts.

8-26 Our crisp air outside may have you thinking of the crisp apples that come with fall. Minnesota Orchards are harvesting 7 to 10 days earlier this year than usual. Apple lovers can thank an extremely warm spring for the early pickings.

9-23 As the water continued to rise in Pine Island... residents frantically were trying to keep up with the pace of the water. Homes and businesses off of Main Street were the first priority.

9-23 Nearly 24 hours of heavy, pounding rain have made dozens of roads across the region impassible. There have been numerous evacuations and in some places the water is still rising. Chris Conte was in hard-hit pine island... he's live now with more.

9-24 Tonight, in some areas even though the rain has stopped coming down... the water is **still** going up. The DNR has been using air boats all afternoon to evacuate people from places like Theilman and Millville...where residents are just hoping to catch a break.

9-25 Clean- up efforts will start in the community of Zumbro Falls tomorrow. The Mayor says state agencies are helping the city get dumpsters. He says they will use any and all means to control mold and mildew growth. Although the waters have receded, the city is still in shambles.

9-27 A lot work has to be done before residents can re-enter to start the *cleaning* process... as for today, It was a difficult afternoon for so many as they got a first look at what's left in the city... Many of them realizing they have very little if anything at all that survived the disaster.

9-28 today we are getting a closer look at some of flooding devastation in hammond. 39 of 75 homes were affected by flooding... 20 of them are completely destroyed. in some places... Water rose to 7 feet high. streets were washed away... Leaving a muddy mess. but neighbors are helping each other keep their spirits up.

9-29 We're getting our first look at a community essentially wiped out by Thursday's floods. The town of Jarrett sits just between Millville and Hammond... 65 people live there... and most residents don't know if they'll ever be able to return home.

8. Youth

7-2 The camp sites are loaded up here at Chester Woods... people have come to spend their holiday weekend camping. For many Americans, the fourth of July is about being with family ... eating good food and enjoying the summer weather.

7-13 The Minnesota D-N-R is making an announcement that could help young people develop an interest in the outdoors. And it comes in a special early youth deer hunt season.

7-23 Imagine spending seven hours on a bike -- riding over 100 miles in the heat and humidity we had today. Well 14-year-old Ian Torchia did just that. The teenager is helping to raise money for Hanna Hughes. We updated you on Hanna's story Wednesday night. 16-year-old Hanna is suffering from a severe form of bone cancer, and doctors were forced to amputate her right leg last month.

8-4 The Olmsted County Sheriff's Office is looking for help in finding two vandals who have been leaving their mark... all around the community of Stewartville. Official say at least two "young adults" have been caught rummaging through garages... but the homeowners were able to chase the kids away. Other reports include vandals taking toilet paper from Brin Park on the 500-block of 5th Avenue Southeast and throwing it around the park.

8-9 Girls are getting excited this week at IBM! Middle school girls are taking part in the EX.I.T.E camp... more specifically...Exploring Interests in Technology and Engineering. It's an annual summer camp that's hosted by IBM...geared to keep middle school girls interested in math, science, and technology.

8-19 You could call these girls inventors of the future ... Today young girls at Rochester's Girl Scout Troop House participated in the Innovative Science and Technology Camp called Robotics. No they were not inventing the theory of radioactivity like Marie Curie.. but they were learning about physics.. innovation.. and how motors work. The girls ages 9-12 spent three days designing their own pulley system and on the last day of camp they showed their designs off to the group.

8-26 A new study published in the Journal of American Medical Association says the number of teens with hearing loss has increased significantly. Comparing teens of today to teens of the 80's and 90's... The study found one out of 30 students is hard of hearing. Hooked to i-phones and other gadgets... The teen ear is receiving more noise in closer proximity.

9. Substance Abuse

7-13 There's a new change at Goodview's LaCanne Beach... alcohol and glass are no longer allowed on the sands. City council members voted on the ordinance change Monday night... after a growing number of complaints about vandalism, drunken beach-goers, and increased litter.

8-11 A scary scenario in Winona County. A 12-year-old girl, behind the wheel of a car, driving while intoxicated... crashes. Her passenger... a 19-year-old man... had also been drinking.

8-13 Two people have been arrested after a mobile meth lab was found near Zumbro Falls. Deputies pulled over a suspicious vehicle on Wednesday, and inside they found an LP tank that held anhydrous ammonia.

8-30 The Rochester Downtown Alliance plans on meeting next week to discuss concerns about downtown drinking. As the city has continues to grow and more bars have moved into town, businesses and people who live in the heart of the city are worried about more problems. For the most part, officials say this past weekend was pretty quiet.

But in the past they've dealing with noise complaints, littering and public urination problems.

Network Programming

In addition to our locally produced programming specifically designed to respond to the issues and problems of our viewing area, network programs often cover issues relating to our local problems and needs.

- ***FOX News Sunday***

FOX Network

Sundays 8am 60 min

7/4/2010

Topic: Foreign Policy/ Oil Spill

Guest: Senator Joe Lieberman, Kenneth Feinberg, South Carolina Senator Jim DeMint
