Guest(s):

- Dr. Moises Issa MD
- Robbie Zamora -Owner of Brickell Bikes
- Captain Rafael Suarez of Miami Gardens Police

Hosted by: iHeartMedia's Enrique Santos (from WZTU-FM / Miami, FL)

Topics covered:

- ENGLISH
- Dr. Moises Issa talks about Hydroxychloroquine. What are side effects of hydroxychloroquine? What is hydroxychloroquine used for? How safe is hydroxychloroquine and Who should not take hydroxychloroquine?
- Robbie Zamora owner of Brickell Bikes talks to us about the huge increase in demand for bicycles, nationally because of COVID-19.
- Captain Rafael Suarez: As a member of the Miami Gardens Police Department, Captain Suarez has served as Captain and Major of Police in all the aspects of police work in the City of Miami and City of Miami Gardens Police Departments. He has served in both communities for over thirty-six years. Traveling two hours each way on a commute has become a norm in Miami-Dade and most of the promises of improvement are just that, promises. One of his priorities is to improve traffic, not just from traditional approaches, but from a different approach; while improving employee morale and facilitating a better environment. The concept, called "work flexibility", allows for the implementation of a 4-day week, 10-hour shift. The idea is not a fit for all Miami-Dade County businesses. For those willing participants, incentive programs can be created and implemented in the areas of tax credits or low-interest loans; as have been previously used in the past to other programs. The concept proved to improve traffic, productivity and employee's morale as it was studied and applied in Nashville, Tennessee, where an impact in traffic was seen, while also helping the environment. By reducing the amount of time vehicles spend on the road we reduced driver frustration and the carbon footprint of vehicles that would normally be sitting in traffic idling.
- SPANISH
- El Dr. Moisés Issa habla sobre la hidroxiclороquina. ¿Cuáles son los efectos secundarios de la hidroxiclороquina? ¿Para qué se usa la hidroxiclороquina? ¿Qué tan segura es la hidroxiclороquina y quién no debe tomar hidroxiclороquina?

- Robbie Zamora, propietario de Brickell Bikes, nos habla sobre el gran aumento en la demanda de bicicletas, a nivel nacional debido a COVID-19.
- Como miembro del Departamento de Policía de Miami Gardens, el Capitán Suárez ha servido como Capitán y Mayor de Policía en todos los aspectos del trabajo policial en los Departamentos de Policía de la Ciudad de Miami y la Ciudad de Miami Gardens. Ha servido en ambas comunidades durante más de treinta y seis años. Viajar dos horas en cada trayecto en un viaje se ha convertido en una norma en Miami-Dade y la mayoría de las promesas de mejora son solo eso, promesas. Una de sus prioridades es mejorar el tráfico, no solo desde los enfoques tradicionales, sino desde un enfoque diferente; mientras mejora la moral de los empleados y facilita un mejor ambiente. El concepto, llamado "flexibilidad laboral", permite la implementación de un turno de 4 días a la semana y 10 horas. La idea no es adecuada para todas las empresas del condado de Miami-Dade. Para aquellos participantes dispuestos, se pueden crear e implementar programas de incentivos en las áreas de créditos fiscales o préstamos a bajo interés; como se han utilizado anteriormente en el pasado para otros programas. El concepto demostró mejorar el tráfico, la productividad y la moral de los empleados, ya que fue estudiado y aplicado en Nashville, Tennessee, donde se observó un impacto en el tráfico, al tiempo que ayudaba al medio ambiente. Al reducir la cantidad de tiempo que los vehículos pasan en la carretera, reducimos la frustración del conductor y la huella de carbono de los vehículos que normalmente estarían sentados en el ralentí del tráfico.
