UNITED STATES OF AMERICA FEDERAL COMMUNICATIONS COMMISSION

ANTENNA STRUCTURE REGISTRATION

Part 17 of the FCC rules requires you to: (1) immediately provide a copy of this registration to each FCC licensed tenant of your structure (although not required, you may want to use Certified Mail to obtain proof of receipt); and, (2) display the Registration Number in a conspicuous place visible near the base of the structure (unless a government entity objects, in writing, to the display near a historic landmark). SEE INFORMATION ON REVERSE.

Owner: PARTNERS FOR CHRISTIAN RADIO INC BOB LUBELL 5512 RINGGOLD RD STE 214 CHATTANOOGA TN 37412	Registration Number: 1060540	
	Issue Date: 03/12/99	
Location of Antenna Structure: 9 KM E OF TRENTON GA ON LOOKOUT MOUNTAIN HIGH POINT GA	Ground Elevation: 701.0 meters	
	Overall Height Above Ground (AGL): 57.9 meters	
Latitude N34-51-48	Longitude W085-23-35 NAD 27	Overall Height Above Mean Sea Level (AMSL): 758.9 meters
Painting and Lighting Requirements: NONE		
Special Conditions:		

NOTICE

This Antenna Structure Registration is not an authorization to construct radio facilities or transmit radio signals. It is necessary that all radio equipment on this structure be covered by a valid FCC license or construction permit.

Owners are reminded that, with the exception of certain historic structures, the Antenna Structure Registration Number must be displayed in a conspicuous place so that it is readily visible near the base of the antenna structure. Materials used to display the Antenna Structure Registration Number must be weather-resistant and of sufficient size to be easily seen at the base of the antenna structure. See 47 C.F.R. 17.5(g)-(h).

The antenna structure owner must file FCC Form 854 to reflect any changes in the information set forth on this Registration after completion of construction or change in ownership. Furthermore, the owner must file FCC Form 854 within 30 days to notify the FCC of the dismantlement of the structure described on this Registration.

The owner is responsible for compliance with all applicable FCC obstruction marking and lighting requirements. These requirements are set forth in 47 CFR Part 17 of the FCC's Rules. The owner may obtain a copy of Part 17 (Construction, Marking and Lighting of Antenna Structures) by contacting the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9371, or by calling (202) 512-1800. The owner should be particularly aware of certain provisions of Part 17. For example, Part 17 requires that the antenna structure be repainted as often as necessary to maintain good visibility. In addition, Part 17 requires that the obstruction lighting be observed at least once every 24 hours in order to detect outages or malfunctions. When any top steady-burning light or flashing obstruction light goes out, regardless of its position on the antenna structure, the outage must be promptly reported to the nearest FAA Flight Service Station, unless corrected within 30 minutes. The FAA must again be notified when the outage has been corrected. A failure of a steady-burning side light should be corrected as soon as possible, but reporting to the FAA is not required.

We have estimated the third party burden requirement associated with this collection of information to be 1 hour. This collection has been assigned an OMB control number of 3060-0139.
