## AFFAIRS AND PROGRAMS LIST

### How Issues and Problems are identified

The following list of issues and problems was prepared by the Public Affairs Department of WPXY-HD2, Rochester, NY.

WPXY-HD2, on a daily and on-going basis, examines and attempts to determine the needs of the community during regular news coverage (includes TV and newspaper). Portions of public affairs programs are aired in actuality format in morning drive news broadcasts to bring additional awareness and to better highlight community concerns and issues during the most-listened-to portion of the station's broadcast day.

WPXY-HD2 airs a minimum of 60 minutes of local public service matter in the form of PSAs weekly. Whenever possible, exposure is given to significant issues and problems faced by the Rochester, Monroe County and Western New York area. There is no charge to air the PSAs.

The WPXY Public Affairs Department has listed a general overview of issues and problems for our coverage area. That overview for the FOURTH Quarter of 2023 is attached to this report. The list of programs that addressed these specific issues is also attached.

Also, be cautious while decorating for the holidays, as accidents can happen when using ladders and electrical equipment. Rich added that weather can change very quickly in Western New York so if traveling, have emergency contacts and local authorities numbers handy, and know the nearest medical facilities.
