

EXHIBIT 3A

**DOCUMENTATION OF RECRUITMENT EFFORTS FOR THE VACANCIES
DESCRIBED IN THE PUBLIC FILE REPORTS AT EXHIBIT 2**

Documentation is organized by the job title and job requisition number reflected in the EEO Public File Report. For each position, the attached documentation generally includes, as applicable, the postings to Scripps-controlled websites, email correspondence with local and national recruitment sources, and evidence of posting to “aggregator” sites such as Handshake and eQuest. The individual sources to which eQuest disseminated the job postings are reflected in the EEO Public File Reports at Exhibit 2. All listed vacancies were posted on Scripps’ external website – scripps.com – where those job openings are picked up by other aggregators such as Indeed.com and disseminated over a wide range of job recruitment sites.

Scripps also notes that in a limited number of instances, multiple individuals were hired (with each listed under a different requisition number) from a single recruitment effort. Specifically, recruitment efforts for positions JR027294 and JR026810 are both included in the documentation for JR026810; recruitment efforts for JR027425 and JR026932 are both included in the documentation for JR026932; and recruitment efforts for JR027290 and JR027720 are both include in the documentation for JR027290.

About Us

WTXL, the Scripps ABC station in Tallahassee, FL is hiring a Broadcast Engineer! The Broadcast Engineer performs preventative maintenance, emergency repairs and operations of video, audio and radio frequency (RF) systems, including satellite and microwave equipment. #LI-NS1

This job description applies to all employees but may vary depending upon union agreements

WHAT YOU'LL DO:

- Provide world class customer service to all business partners internal and external to the Scripps organization with a positive "can do" attitude.
- Support, maintain, and install the full range of broadcast, Radio Frequency (RF), and production systems based on both Serial Digital Interface (SDI), and Internet Protocol (IP) based architecture.
- Setup and enhance software, hardware, server, automation and workflow systems, projects and equipment to enable our teams to be both productive and efficient. Ensure all meet current industry standards and comply with Company policies and expectations.
- Partner with the news department to develop, build and support content workflow and support systems including integration and problem-solving software, hardware, networking and infrastructure. This will include support and integration of audio and video, cameras, editing systems, streaming content management and workflow.
- Use company purchasing management system to purchase and track assets and services as well as replacement cycles. This will include contributing to budgeting planning with the team and Director of Engineering to support business needs.
- Drive and assist in the operation, support, and maintenance of mobile live trucks which may involve work in confined spaces and on top of vehicle with the use of mobile work platform. Live truck technology may include microwave, satellite, cellular bonding, and video/audio equipment.
- Resolve complex problems not covered by existing procedures or practices independently, often under pressure.
- Design improvements to our operation.

JR027045

WTXL, the E.W. Scripps owned ABC affiliate in Tallahassee, Florida is looking for an Executive Producer to join our team.

About Us

The Executive Producer must be a proven newsroom leader who knows how to execute content strategy and also win breaking news and weather coverage on all platforms, maintain a strong sense of urgency with our newscast production and newsroom culture, and knows how to balance serious journalism with lighter moments critical to the success of our newscasts. The successful candidate will have overall responsibility for newscasts or local programs, including oversight on story selection, content, and production, ensuring that the station is competitive within the market.

WHAT YOU'LL DO:

- Manages newsroom content and showcasing across multiple platforms, to improve the quality of our product and the growth of our audience as measured by ratings and analytics.
- Collaborates with producers, field crews, content coordinators, real-time desk editors, anchors, and other managers to select stories for coverage.
- Oversees and edits writing for all platforms, including stories, newscast teases, web headlines and social posts. Reviews digital and broadcast stories, ensuring accuracy and journalistic balance.
- On occasion, will produce newscasts.
- Hires, schedules and manages team of newscast producers to deliver and continuously improve the quality of our news programs.
- Develops and supervises effective workflow strategies and procedures for multiple programs and platforms.
- Provides regular coaching and feedback to individuals and larger groups.
- Operates with senior editorial authority in the newsroom when supervising managers are not available, and know when to call a supervisor for assistance with higher-level decisions.
