

**PROGRAM ISSUES REPORT  
FOR KSKN-TV**

**1<sup>st</sup> Quarter 2024**

**January - March**

**DESCRIPTION OF PROGRAMS PROVIDING  
THE MOST SIGNIFICANT TREATMENT OF COMMUNITY ISSUES**

**COMMUNITY ISSUES:**

This quarter's focus on seven areas: **Education/Youth/Teen Issues/STEM** - As education opportunities adapt to our changing workforce the need for consistent reporting and marketing grows. **Health**- The Inland Northwest continues to grow as a medical hub. This includes both health and wellness, mental health issues, and medical/business growth within the community. **Environment** - Locally, businesses, schools and individuals are working to reduce waste, strengthen our waterways and provide a healthier environment. **Social Struggles** - The Inland Northwest continues to work on social struggles that are both reflected in our national social issues and locally. This includes poverty, race-related issues such as discrimination, homelessness, drug use, etc. **Economy/Business**- Economic growth and development is key to an overall healthy community. Creating a strong business environment/culture is top of mind for business leaders. **Political / Government / Military** - This category supports our ever-changing political landscape (both locally/nationally). With a large employer being Fairchild AFB. **Crime/Violence** - As our region grows, so too, does crime and violence. As a community, we are looking for and learning ways to battle the increase in drugs, crime and violence that affect us every day.

In our efforts to serve the public, KSKN-TV wanted to accomplish this through several methods: Explain trends and events that may have affected our viewers and our region. Examine key subjects for new insight and understanding that the viewer deserves to know. Provoke thought and response through editorials and viewer opinion. Initiate results through tangible changes that improve life for our viewers as a result of the station's efforts.

**1) EDUCATION / YOUTH / TEEN ISSUES / STEM**

As education opportunities adapt to our changing workforce the need for consistent reporting and marketing grows. The concerns in our community in relation to education include K-12 basics, early learning, continued education, alternatives, non-traditional schooling, trades, teacher salary negotiations, and other education-based issues. STEM (or STEAM) continues to grow within our community. Education and business is closely working together to create a strong labor force within our communities.

159 PSAs ran focused on **environmental** issues. These spots promoted topics like supporting the National Parks and climate change issues.

**4) SOCIAL STRUGGLES**

The Inland Northwest continues to work on social struggles that are both reflected in our national social issues and locally. This includes poverty, race-related issues such as discrimination, homelessness, drug use, etc. Many of the schools in the INW reflect the social problems with high rates of free/reduced lunches and the need for extra family support. Our news and social outreach programs need to reflect these social struggles.
