CHILDREN'S PROGRAMMING CERTIFICATION SECOND QUARTER
(April 1, 2019 Through June 30, 2019)

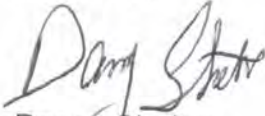

This is to certify that the list set forth below identifies all programs and series aired by Three Angels Broadcasting Network, Inc. during the above-referenced calendar quarter that were originally produced and broadcast primarily for an audience of children 12 years old and under. As a standard practice, we formatted and aired each of the children's programs and series identified below so that the total commercial time (including local ad avails, promos for non-educational programs and adjacent ads running before or after the program within the same clock hour) did not exceed 10.5 minutes per hour on weekends and 12 minutes per hour on weekdays, in compliance with the Children's Television Act of 1990 and the rules and regulations of the Federal Communications Commission (the "FCC"), the "Regulations").

None of the following programs or series included any commercial spots (including local ad avails, promos for non-educational programs and adjacent ads running before or after the program within the same clock hour) that contained references to, characters or actors from or that offered products related to, the underlying program or series. Any instances in which the children's programming commercial limits were exceeded during the referenced calendar quarter are explained in detail below. I further certify that I have been designated by Three Angels Broadcasting Network, Inc. as the official responsible for oversight of compliance with the FCC children's programming commercial limits and I am familiar with the regulations.

See attached LMS form 2100 of the second quarter filing with the list of children's programs run during the calendar year.

I hereby declare under penalty of perjury that the foregoing is true and correct. Executed this 1st day of July, 2019.

Sincerely,

Danny Shelton

Re: Certificates of Compliance for the Children's Television Act of 1990

Dear Affiliate:

As of January 1, 1992, the Federal Communications Commission's rules ("FCC Rules") implementing the Children's Television Act of 1990 ("Act") require cable operators to maintain certain records regarding their compliance with advertising limits imposed on children's television programming. Accordingly, Turner Network Sales, Inc. provides the attached Turner Entertainment Networks' certificates of compliance for 2nd Quarter 2019. Please note that the Act's advertising limits are inapplicable to CNN, Headline News, TBS, Turner Classic Movies, TNT, TruTV, CNNI, and CNNE as these networks do not carry children's programming. If there are any changes in the programming policies of these networks, we will provide you with updated certifications reflecting such changes.

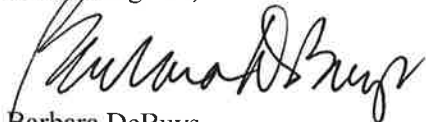

To comply with the FCC Rules, please place the attached certificates of compliance in your system's public file(s) no later than the tenth day of the current quarter following the quarter in which the programming aired.

For your convenience, the certificates of compliance are also available online for your review. Please follow these steps in order to download the certificates:

- 1. Go to the Turner Resources web site at www.TurnerResources.com. [Note – if you do not have a user ID and password, you will need to register online with the web site.]**
- 2. From the homepage go to "Technical" and scroll down to "Compliance Notices." You can download the Q2 – 2019 certificates by clicking on Kid Vid Certificates and following the prompts.**

If you have any questions, please contact me at (404) 575-9724 or e-mail barbara.debuys@turner.com. Thank you for your continued carriage of the Turner networks.

CIDLDREN'S PROGRAMMING CERTIFICATION

April 1, 2019 to June 30, 2019

This is to certify that the list set forth below identifies all programs and series transmitted during the above referenced calendar quarter that were originally produced and broadcast primarily for an audience of children 12 years old and under. As a standard practice, we formatted and aired each of the children's programs and series identified below so that the total commercial time (including local ad avails, promos for non-educational programs and adjacent ads running before or after the program within the same clock hour) did not exceed 10.5 minutes per hour on weekends, and 12 minutes per hour on weekdays, in compliance with the Children's Television Act of 1990 and the rules and regulations of the Federal Communications Commission (the "FCC").

None of the following programs or series included any commercial spots including local ad avails, promos for non-educational programs and adjacent ads running before or after the program within the same clock hour that contained references to, characters or actors from, or that offered products related to, the underlying program or series. Any instances in which the children's programming commercial limits were exceeded during the referenced calendar quarter are explained in detail below, I further certify that I have been designated by Inga Dyer as the official responsible for designation and certification of compliance with the FCC's children's programming commercial limits, and I am familiar with the Regulations.

Dear Hernan,

This communication is to confirm that the Utilisima network's operational system includes a two channel Miranda software solution that is ALC activated on the Miranda HCO-1822 protect switch at the end of the air chain, which is fully integrated into both the primary and back up signal paths of Utilisima's network origination system.

This system has been configured with a target value of -24 LKFS dialnorm and has been tested with a Dolby LM100 loudness meter, to confirm that the Utilisima network signal conforms to the Calm Act's technical guidelines under the ATSC's "Recommended Practice: Techniques for Establishing and Maintaining Audio Loudness for Digital Television" ("A/85 RP"). This testing, performed within the Encompass environment, demonstrated that the Utilisima signal has effective loudness control at the demarcation point of the Encompass system. Please note that downstream processing, such as may happen with distribution systems providing commercial insertion, are not under the control of Encompass and may affect the solution as implemented at Encompass.

Encompass has implemented this loudness mitigation system at Utilisima's request, in order to assist Utilisima in its CALM Act compliance efforts. As the service provider for Utilisima's network playout and signal distribution, Encompass is confident that the design of the network origination system provided by Encompass for the distribution of the Utilisima signal meets the current CALM Act compliance requirements.

Per your request, we will also provide an annual 24 hour compliance recording. Additionally, we understand that you may have additional documentation requests related to confirming CALM Act compliance; please send any such documentation for our review.

Should you have any further questions, do not hesitate to contact John Halpin in our business affairs department at 323-344-4747, jhalpin@encompass-m.com.

Sincerely,
