ENDICOTT COLLEGE

INT100/200 Internship Learning Agreement

The Internship Learning Agreement is a mutual understanding among the student, the Internship Site Supervisor and the College (the Faculty Supervisor). The purpose of this agreement is to allow the student to establish, in conjunction with the supervisor, a plan for the duration of the Internship experience.

The goal of internship at Endicott College is to enhance the learning experience from the classroom. This document provides a basis for students to discuss with supervisors the opportunities for learning that an organization can provide. The Learning Agreement assists the Intern in making a meaningful contribution to the organization, as well as to set goals to continue professional growth and development. The College reserves the right to approve or reject Internship sites and Internship Learning Agreements.

This document is not inflexible. It is written with the understanding that all Internship organizations are subject to market forces that may result in increased responsibility, new goals and altered objectives for the student that may not have been discussed when the contract was originally written. The agreement can be rewritten or amended to account for any major changes in the Internship site and their impact on the student Intern. The Learning Agreement is an important tool for both the supervisor and the student to use as a "progress check" throughout the Internship experience. Each new change is subject to the approval of the College.

We encourage the use of this document as an evaluation and assessment tool and hope that it will prove useful to the supervisor and student alike.

The Internship

Please complete the following information regarding your selected internship site.

DESCRIPTION:

Describe the organization for which you will be working: i.e. - what functions does it perform? How many people does it employ? Does it contain different departments to which you will be exposed?

Describe your role within the organization - duties, projects, and people you will interact with.

H.C.

SUPERVISION:

Who is responsible for assigning your duties and writing up the evaluation of your on-site performance?
What kind of instruction, assistance, consultation, etc. will you receive?

EVALUATION:

How will your internship performance be evaluated? Who will be asked for input? How often will you be given feedback and in what way - Verbal? Written?

The College strongly suggests a brief meeting at least once per week between the intern and the Site Supervisor. This is a great opportunity to discuss progress on projects, challenges, and opportunities for further development. Students are encouraged to actively seek feedback and supervisors are encouraged to provide feedback continuously and to try to address areas of concern early in the process.
