Request for Special Temporary Authority  
KYFR(AM) Shenandoah, Iowa  
FacID 20806

Following construction of numerous wind turbines in the immediate vicinity of the KYFR antenna array, Family Stations Inc. ("Family") has elected to relicense KYFR by means of a method of moments proof of performance, rather than a measurement based partial proof of performance.

Family requests STA for a period of 180 days to operate KYFR from the licensed antenna system using the directional antenna parameters determined by the method of moments proof while the Form 302 application is completed by Family's engineering consultants and processed by Commission staff.
