HEALTH	CLEARVIEW - PART 1 - LYME DISEASE	For years we've been hearing about the danger ticks present as carriers of Lyme disease, now we (tm)re learning about the extended threat ticks present as carriers of many different diseases. This special two part Clearview begins with an interview with Holly Ahern, a microbiologist at SUNY Adirondack who has become an expert on Lyme and other tick-borne illnesses after her own daughter contracted a debilitating strain of Lyme. (Her family (tm)s struggle was the subject of an	HOLLY AHERN	10/04/2015 06:57 AM	014:40

		<p>article in the New Yorker, <a href="#">click here.</a>) Ahern makes a number of points about how she believes the medical community has fallen behind on recognizing the complexities tick-borne illnesses present. She makes a call for more research and a greater willingness to treat anyone bitten by a tick prophylactic dose of antibiotics.</p>			
HEALTH	CLEARVIEW - PART 2 - LYME DISEASE PART TWO	<p>Congressman Chris Gibson, is featured who has co-sponsored legislation designed to free up more money for research on tick borne illnesses. Congressman Gibson discusses the effect the diseases have had on many of his constituents and points out that the medical testing is unreliable. He suggests a first step is to get more scientific data culled together, since he says much of it has not been given proper attention. The Congressman notes that in addition to the human cost caused by these diseases, the tourism industry could be negatively affected if the threat of tick-borne illnesses dissuades tourists from visiting New York. Both Ahern and Gibson also discuss prevention as an important key to preventing illness.</p>	CHRIS GIBSON	10/04/2015 07:17 AM	011:59
MILITARY AND VETERANS	CLEARVIEW - WE ALSO SERVE	<p>Nanette Sagastume is the author of We Also Serve: A Family goes to War. YOUTH	CLEARVIEW - SHELTERS	<p>Shelters of Saratoga provides a roof, a bed, and food for people in need, but their services go well beyond that. Among them: youth outreach. Crystal Swinton, Youth Outreach Coordinator talks about the aspects of a young person (tm)s life that may make them at risk for becoming homeless. Swinton says much of what they do is relationship building, in order to let young people who may find themselves struggling know that help is available. Shelters of Saratoga provides outreach by literally hitting the streets to talk to young people who appear to be in need. The outreach component also includes help at a couple of after-school programs where young people are assisted with their homework and provided with someone to talk to. A project in the works would create a drop-in site, where young adults could come in, do their laundry, get job hunting tips and counseling if desired. Young people who have aged-out of foster care are among those most at-risk to become homeless.</p>	CRYSTAL SWINTON	10/11/2015 07:10 AM	012:14
