ISSUE: build a healthy community by providing a basic need of food

COLORADO CONVERSATION

WHY: SAME Café's mission of *servicing good food for the greater good* says it all. Committed to presenting culinary delights to all who walk through the door, it is all about food and community, and not so much about price. SAME is the 1st nonprofit restaurant in Denver. Its patrons set the price for their mostly local, organic cuisine. If you can give more, please do. If you have a little less, pay what you can. If your pockets are empty, exchange **volunteer** work at SAME for one of the café's mouth-watering meals.

It is the intent of SAME Cafe to build a healthy community by providing a basic need of food in a respectful and dignified manner to anyone who walks through the door.

SAME Cafe is unique in the lack of a set menu as well as set prices. Daily selections are made using fresh, organic ingredients, and funded by the donations of patrons. Instead of a cash register, a donation box is available for one to pay what they felt their meal was worth. Our philosophy is that everyone, regardless of economic status, deserves the chance to eat healthy food while being treated with dignity.

You can also arrange an evening meal or private party at SAME Café. It's an excellent venue for those looking to enjoy an intimate atmosphere with a unique mission. It's a great place for holiday parties, book clubs, corporate meetings, or even wedding receptions – we've had three weddings here that were fabulous! If there's a particular date you have in mind then please email samecafe@gmail.com to schedule or get more details.

ISSUE: range of motion projects

WHY: The Great Pumpkin Haul supports ***ROMP is a Mobility Organization***

They believe that prosthetic limbs and orthotic braces are not simply medical devices, but instruments of personal empowerment. By supplying prosthetic limbs and orthotic braces to those who do not have access to these services, they aim to return patients to their families and communities as productive, healthy individuals

They believe in equal access to prosthetic and orthotic services that facilitate independence through mobility. They recognize the dual hardships of living in

poverty with a disability, and stand in solidarity with those who are made to suffer from an unequal distribution of care.

ROMP understands that disability is caused by broken devices and broken healthcare systems - not broken bodies - and they work to increase the mobility, visibility, and dignity of all those marginalized by lack of access to rehabilitative technology.

The Race was started in 2003 to raise funds and awareness of fetal syndromes. 800,000 families a year learn their unborn baby is affected by a fetal syndrome, and fetal syndromes take 200 babies from their families every day. Running to help the smallest people? We can't imagine a better reason to form a team, grab a friend, rally the family and join the race. All the candy just makes the day a bit sweeter.
