Story Summary: Pilot water solutions wanted to place several saltwater disposal wells near the city's Winkler County water supply, but the city protested. The case was set to appear in front of the Texas Railroad Commission next week, but yesterday, the settlement was filed. In previous court documents, the city argued it should have the right to protest pilot's swds because an accident near T-bar ranch could pollute the water...Last year, the city protested some of the 18 swd permits pilot water solutions proposed, but this settlement allows for four saltwater disposal sites further away from the reservoir, with 6-8 more possible with the city's approval.

Topic: Consumer

Length: 1:14

Story summary: In November of 2022, it was reported that midland had just over one hundred and seventeen thousand employees. In 2024, that number has risen to 122,400 employees. According to the bureau of labor statistics, the city of midland had a 4.7 Percent gain in employment this November which was the sixth largest across the entire nation. The growth of jobs has positively impacted the city with more restaurants, hotels, and apartment complexes coming into town.

This has also led to education growing with the passing of school district bonds and college pipelines in west Texas which has helped keep students in the area after graduating.

Newscast: 9 P.M.

Topic: Environmental

Length: 59

Story Summary: The City of Midland approved a \$4 million contract to place a lift station on the northwest edge of the I-20 preserve. City officials say that this project is aimed at keeping the preserve safe, but also preventing any future mishaps. Preserve leadership dealt with sewage leaks between 2019 and 2022. The city worked to mitigate those issues and spent \$350,000 to clean up the main leak in 2022, but it still polluted the area and caused concern about the main water source on the preserve.

Story Summary: You've seen the headlines right on cbs7, 30 missing children recovered after a trafficking operation, seven arrested in joint human trafficking investigation, 14 victims found during recovery operation. And most recently, 50 arrested during human trafficking awareness month. Despite those recovery operations, and trafficking investigations, people, children, are still being abducted, and trafficked, right in our backyard.

*"I'm a young kid...surely nobody would hurt me" - survivor 13...that's how old she was when she was first trafficked. She was sleeping behind a gas station... when she met him...*

*"he was nice...he was very nice...even if I had saw him in a different scenario...I would never have thought...like that's not a good person....Or that's someone I shouldn't trust..." -survivor it starts with kids who are homeless or at risk. Traffickers use these vulnerabilities to psychologically manipulate their victim"I used to think that girls out there,,everyone had a choice...and everyone didnt have a choice...I didn't have a choice" -survivor sometimes its just a matter of being in the wrong place at the wrong time. The Permian basin is considered a hot spot of human trafficking... because of its position on I-20... and proximity to I-10 in the west. Even though it is a hot spot... there are organizations in west Texas working day in and day out to stop trafficking and help victims. The basin dream center is one of them...offering transitional living for adults who are homeless, at risk, or have aged out of the foster care system "so what we are finding out is I would say probably about 80% of our kids have experienced some form of trafficking..." "we need a support system....We need a patient support system...." -Survivor thats what the dream center does... Providing a home...a safe space...and a seat at the dinner table...."one of my favorite things that we do here is sit down and have family style dinner with them" without support, trafficking survivors typically have a hard time returning to normal life, and finding jobs. Soraye Lara...founded unlimited jewelry to provide survivors with a job...and to empower them...."each piece has a story..Somebody has gone through darkness, unimaginable things have happened, but yet they're able to create something beautiful....We're not limited to our past...our opportunities are unlimited..." all of this jewelry is survivor made....Whether by survivors in the Permian basin...or from across the globe"I do have partnerships with international anti-human trafficking organizations...but all that jewelry that's not made by local survivors still contributes to local organizations here in the Permian basinpurchasing from unlimited jewlery...and donating to organizations like basin dream center can have a major impact on survivors in the Permian basin...but if you can't support financially.....one of the best ways you can help is education...knowing the signs...*

*"really it's people that are close to you...it's a grooming process of gaining your trust they use the vulnerability and use that against you..." -soraye"you would think that someone that does that to you...you would be scared of them to the point where you don't trust them...but he had a way....Of being the person who's hurting me but also my support system" -survivor music and this quote on screen from b roll..."I want every girl to know that her voice can change the world"she wants a chance to succeed probably more than anyone else wants it for her...but the*

*things that are hindering her are triggers and trauma...and an unspoken battle that she's not able to explain."*

*Christina Payne is another survivor...and now advocate...of human trafficking...she is the founder of survivor lead non-profit within reach they help survivors deal with trauma using a technique. Called neurofeedback."so neurofeedback is a form of biofeedback and what it does is actually uses the brains natural reward system to retrain the different areas of the brain...we start with the body...it brings the brain back down to a resting place...a place of peace and calm....And that way every other part of their life can then be restored" Payne knows first hand how healing the process of neurofeedback can be for survivors of human trafficking..."I began to heal...it was because my nervous system was beginning to relax and rest...so a lot of things that were bothering me..Didn't bother me anymore..."but this healing process takes time... and patience..."there are people willing to help and they don't want anything from you..."and there is hope for a second chance..."there's always second chances...and there's third chances...and statistically sometimes there's seven chances...but we're making a difference in their lives...we wanna reduce the trauma..And we wanna produce successful kids..And return them back into our community as productive adults." "We just had a young man that graduated with his electrical certificate...and he has cried so many times because he said 'I never thought I could do this' and now he gets to..He's living the life" if you are a victim trafficking...or you know someone who needs help getting out of a bad situation you can call the national trafficking hotline at 888-373-7888..."the problem most people fear is what if this isn't human trafficking, what if I'm wrong? But that's not for you to worry about, because what if you're right? And if you're right, you may have just saved a life." -Basin dream, Stephanie "I'm worth something...I can do this.."For cbs7 first alert news...I'm Lauren munt*

Story Summary: We use our ears to connect with our family and friends every day. One Odessa woman thought she'd never experience that fully again.

Today that changed. Because of new technology, Mary Medrano now has bi-cross hearing aids. They communicate sounds from her deaf ear to her functional ear, so she can experience sound fully. The hearing aid is rechargeable, connects to Bluetooth for phone calls and helps people determine the direction of sounds. This means Medrano can understand her grandchildren again, among other experiences she has missed. Beltone staff want other people experiencing single-sided deafness to stay hopeful.

Topic: Continuing Coverage

Length: 1:25

Story summary: The city of midland wants to dismiss a motion made by five midland Christian educators... That claims four city officials knew the educators were falsely arrested for intent to conceal neglect or abuse...

After they were not billed by a grand jury in 2022... The educators filed a lawsuit against the city and arresting officers... Then months after that... Three of the five educators were arrested again... On the same charge... The midland county district attorney's office recused themselves of that case... And the Ector County district attorney's office... Dismissed the second case all together.

The attorney for the educators called the second arrest false and retaliatory. In the complaint that was amended in December... Attorneys added that police chief Seth Herman... City manager Robert Patrick... Mayor Patrick Payton... And d-a Laura Nodolf as people that knew the charges in the second arrest were false... But allowed them to be arrested anyway.

In response the city motioned to dismiss the claims in that amended complaint. Attorneys for the educators filed a response to that motion saying that there is enough precedent... And they have provided enough facts to demonstrate municipal liability in their amended complaint. Cbs7 has reached out to the city of Midland for comment and has not received a response.

Length: 1:09

Story summary: Over the last 48 hours, 500,000 acres of land in the panhandle have been on fire... It is now the second largest wildfire in state history... And the area is needing outside help to fight the fire.... Including the midland fire department...

This fire has been able to spread because of the weather conditions we've experienced not just this week with the high winds and low humidity...But also because of the drought this past year.

Because of the strong winds in the panhandle fanning the flames... The fire is even causing weather changes here in the Permian basin.

Earlier this afternoon, the air quality in the midland-Odessa area was leveled at being unhealthy for people who have a sensitive respiratory system which can cause being outside too long to be dangerous for their health...

Story summary: Though we don't have control over wildfires and what is currently happening in Hemphill county...we do have control over what happens inside our own homes... Which is why it's important to take preventative measures within your household, and have a plan in place in case of an emergency...

This plan should outline evacuation routes, designated meeting points, and essential items to grab in case of a rapid evacuation order.

Length: :34

Story summary: Triple-a says the national average for a gallon of regular gas climbed to three-40 a gallon on Friday. That's a four-month high. experts say there is no reason to panic about gas prices, at least not yet. Gas prices always rise at this time of the year, as the demand for fuel goes up once winter ends. It also means the end of cheap winter fuel and the switch to the more expensive summer fuel blend. That process is just getting started in most states. This year's late-winter jump in prices has been boosted by troubles at refineries --with extreme cold in January knocking some refineries offline.

Story summary: A 27-hour hostage situation in Midland prompts hours of coverage live at the scene.

*Midland police identified the man as Christian Milan. He is charged with two counts of aggravated kidnapping and sexual assault.*

*Midland police arrived at the sundance apartment complex at 11 p-m on Wednesday march 13... And report Milan had barricaded himself... And was threatening to shoot the police. 12 hours later... At 11 am... They were still there... And more law enforcement had arrived... Including Odessa police and Texas dps.*

*Residents in the building were evacuated... And told to avoid the area.*

*Midland police told reporters on the scene they could not provide a timeline as to when the situation would end... <..."The reason this is going on this long is because he is in contact with the negotiations. We're doing everything possible to get this resolved at the lowest form possible for the life and safety of these people being held hostage." ...>around 4 o-clock Texas dps troopers took over... For the safety of all officers involved... Who had been working the situation for over 16 hours.*

*But around 3-30 in the afternoon... Milan called cbs7 news.*

*Milan told cbs7 he is holding the woman hostage for cheating on him... And that he is heartbroken.*

*Milan said he had the woman tied by the wrists in the apartment... But that she had at some point talked to the police over the phone.*

*Milan also talked about the young girl that was in the apartment... And that he did not plan to cause her any harm.*

*Cbs7 recieved the Milan's permission to record the phone call he made... And we sent the recording to the midland police department... Texas dps and the FBI.*

*After 18 hours the city of midland began to coordinate with midland county and the American red cross... To help those people that were displaced by the hostage situation...*

*And in that same hour... Milan called cbs7... Again.*

*At 6-30... Milan was agitated... Threatening and using foul language... A recording of that phone call was also sent to Texas dps and the FBI.As the evening went on... A number of FBI agents arrived on scene... And part of that motorcade... An enterprise truck.Still... For everyone on the outside of the situation... It was a waiting game... The 24 hour mark passed... And it was in hour 27... That it all came to a head.<..."He did fall asleep, and that was the opportune moment. Once again these things are long and stressful, he's didn't have the breaks that we were giving everybody else. So, once he got exhausted and we found the most best time to get him while he was not ready, that was when they went in." ...>*

*at about 2 early Friday morning... Our crew on scene reported what appeared to be flashbangs and loud pops...Then shortly after Milan was taken away in handcuffs...*

*<..."He was overwhelmed. There was a plan in place to take him into custody quickly, with a lot of diversions and it worked." ...>*

*the a woman and nine year old girl that were being held hostage by Milan were rescued by the multitude of law enforcement agencies that were on scene. <..."We worked closely with our neighbors, we've called in assets brought in out of el Paso, FBI coming in out of d.c., Just everybody we've called on to help, came out as fast as they could, brought all the help they could bring, lots of equipment. And we had a successful mission today.*

## **KCWO**

KCWO supported the Midland County Livestock Show with news coverage. The Midland County Livestock Show is an opportunity for 4-H and FFA members from across Midland County to exhibit their project work. Community members and business leaders come together to support these young people and raise much needed funds.

KCWO supported the major fundraiser for the Casa de Amigos-House of Friends event by airing PSAs. All proceeds go towards helping the local community with GED & ESL classes, after school tutoring, a medical clinic for uninsured adults, assistance for older adults, emergency food pantry and other food assistance, financial literacy, and more.

KCWO aired PSA's to support the annual Ellen Noel Art Museum fundraiser. This event raises money to fund museum improvements, community children's programs, and art exhibits.
