

FCC Foreign Government Disclosure Requirement

Bryan Broadcasting License Corporation (“Bryan Broadcasting”) operates FCC licensed broadcast stations. The FCC recently adopted a new rule that requires that it verify that any party buying any block of programming time on an FCC-licensed broadcast station (a “Buyer”) is not a foreign government or an agent of a foreign government and that the programming provided by the Buyer has not been paid for or provided by a foreign government or its agents.

Thus, we need you to verify that this is the case with respect to the programming that you are providing to Bryan Broadcasting for broadcast on stations KAGC.

Please sign and return this document to us. If for any reason you cannot make this certification, or if you have any questions, please notify Bryan Broadcasting.

Charles Howard is providing programming to Bryan Broadcasting License Corporation for broadcast on Station KAGC. Charles Howard certifies that it is not a “foreign government entity” as that term is defined by 47 CFR Section 73.1212(j) and no programming to be broadcast on the Station pursuant to this Agreement has been paid for or provided by a foreign government entity. Charles Howard agrees to make inquiries of all individuals and entities in the program supply chain to support the above representation, and to promptly notify Bryan Broadcasting License Corporation if it becomes aware of any information at any time that would affect such representations.
