Local Issues Addressed During the Quarter

The following are some of the local issues of concern in the community. Programs that addressed these issues during this reporting period are listed on the following pages.

<u>Issue/Concern</u>	<u>Brief Description of the local issue or concern</u>
Safety	COVID-19 continued as one of the main stories of every newscast. Segments focused on CDC data and ways to keep individuals and families safe. Our goal is to help educate to help our community deal with the pandemic.
Crime	During the pandemic, crime has not stopped. The station always keeps the public informed on crime and crime prevention techniques, making sure that our coverage is balanced.
Consumer	Throughout the quarter, consumers continued living in a new normal where their daily routines had been disrupted and inflation was a new element to deal with. The station gave information on saving money, food bank information, and finding ways to save money.
Health	The Covid-19 pandemic affected the lives of every South Carolina resident throughout the quarter. From massive testing to hospitalizations to the vaccine boosters.
Politics	Columbia is the State Capital of South Carolina and there are always political issues to deal with. This quarter, the State Legislature was back in session, dealing with Education, Medical Marijuana, tax relief, and how to spend infrastructure dollars.
Education	Education is always top of mind as parents are very concerned about the quality of education their children are receiving. Children are back in the classroom but mask mandates and bridging the educational gap were main topics of discussion.
