### **WLTX Statement - Coverage of the COVID-19 Pandemic**

On a daily basis, WLTX fully covered the COVID-19 Pandemic from a local perspective. Our *Facts not Fear* approach was designed to give our community a full look at the facts regarding the impact of the virus. Every newscast every day had the latest information.

Each day, we updated the community with pertinent information of new cases in a county-by-county display as well as deaths, numbers of tests performed, percent positive, hospitalization levels, and all testing sites.

As the CDC began reporting on Community Level Transmission data, the station again kept the community aware of community transmission throughout the coverage area.

The station produced multiple messages urging people to be safe – wash their hands, wear a mask, and socially distance.

WLTX viewers received complete coverage and life-saving information throughout the quarter as WLTX utilized all platforms.
