

# General Quarterly Program Issues Report

1ST Quarter 2012

Placed In Public File: March 9, 2012

The following is a listing of WMSN's commitment to air significant programming while addressing important community issues.

Programming	Segment	Date	Time	Duration	Description of Program
Educational/ Informational	On The Spot	Mondays (1/2/12 - 3/26/12)	7:30am	½ Hour	On The Spot is a series tapping knowledge across a series of subject areas: geography, art, technology, science, math, history, language, music, and sports. It also addresses general cultural knowledge. The format is a series of seemingly random questions to individuals who are either of school age or adults past the age of high school graduation. There are three fundamental educational benefits to this format. First, it taps into fact retrieval in the curriculum. Second, and more important, it expands the information beyond fact retrieval. Third, and most important, it addresses what educators call non-cognitive factors for student success.
Educational/ Informational	Wild America	Tuesdays 1/3/12 - 3/27/12	7:30am	½ Hour	WILD AMERICA is targeted to children ages 13-16. The key educational objective of the program is to familiarize children with the animals of the North American content, their interaction with other animals and their environment. Throughout the series emphasis will be placed upon protecting endangered species and the impact that humans have while interacting in their environment.
