

# PUBLIC FILE

**WLIV AM 920 & WLIV FM 104.7**

Guest: Overton County Executive Ben Danner

Agency: County Health and Rehab Center

Subject: First renovation since 1960's

The Overton County Nursing Home has, in recent times, come to be known as Overton County Health and Rehab. As a growing and financially self-sufficient wing of county services, Overton County Executive Ben Danner was interviewed on our stations about the major renovation project that has recently gotten underway at Overton County Health and Rehab.

The county executive says this is the first major renovation since the 1960's and upon completion will allow the center to better serve its community through newer and expanded residential and therapy areas.

This major renovation is being done – along with the construction of a second major project in the county this summer – without having to raise taxes.

The county executive touched on how fiscally sound our county is and expressed his personal delight that these two needed projects can be carried out at the same time.

The county executive will help keep WLIV AM & FM listeners updated on this project by way of future appearances on our airwaves.

Placed in the public file May 31, 2019.  
*This SECOND quarter, 2019 program material was carried on:*
