

PUBLIC FILE

WLIV AM 920 & WLIV FM 104.7

Our radio stations have taken a leading role in the fight against hunger among our elderly and needy families with young children.

By joining with a local food bank drive, WLIV AM & WLIV FM have taken the lead in helping to establish awareness of the existence of a food distribution program which takes place each week at one of our local churches.

The First United Methodist Church in Livingston obtains quantities of food each week from Second Harvest Food Bank in Murfreesboro. Because the food is obtained through another food bank, the local bank is limited as to how much they can advertise their bank.

WLIV AM and FM has joined their effort by making regular, daily announcements of the food bank so that needy and elderly Overton county residents will know about it and take advantage of it's offerings.

They run in various dayparts every week, each day, on both WLIV AM920 and WLIV FM104.7.

We believe that helping those in hunger in our community is an issue worthy of our best efforts.
