

PUBLIC FILE

WLIV AM 920 & WLIV FM 104.7

Volunteer Behavioral Health asked us to make the public aware of the help they provide to anyone dealing with mental health issues.

Through a series of free, public service-type announcements our stations have explained what is available, what services the program provides, and contact information for individuals who suffer from such issues or have family members who suffer from such.

A folder from the facility is attached.

The script used on air is attached.

We aired this information on AM & FM beginning in April and til further notice is given by VBH.

Placed in the public file on
2017.

Placed in the public file on 25 (day) of April.
