WLIV AM 920 & WLIV FM 104.7

Being located in an area of the state where severe storms have claimed life and property in past springtimes, our radio stations deemed storm safety an issue needing to be addressed.

We aired a series "Safe In The Storm" over a period of weeks during the peak warm-weather severe storm season in our area.

Our series, produced locally, focused on how to stay safe in storms, how be alerted to approaching storm cells, how to prepare in advance for coming severe weather outbreak, and other timely topics to educate and inform our listening public of not only the potential threat for severe springtime weather but also how to prepare – in advance – and be ready.....thus, insuring safely for themselves and their family.

Our "Safe In The Storm" series aired May 9-June 15, 2018.

Placed in the public file June 26, 2018.
