Guest: Scott Stevens

Agency: Overton Co. Health & Rehab

Subject: Expansion of facility

Overton County's Health and Rehab (OCHR) facility on Bilbrey Street in Livingston is currently undergoing a major renovation/addition.

An additional twenty private suites are being added to enable OCHR to serve shorter term residents than the present facility is equipped to do.

During his interview on our stations, Stevens told our audience that the project is two-fold in nature: The current existing lower-level wing will be used for long-term care residents and the new suites which are currently under construction will be used for residents who will be returning to their homes after short stays at OCHR.

Because of construction, traffic re-routing is required. In our interview, Mr. Stevens outlined the new route visitors to the facility will need to take. During the construction period, visitors will enter OCHR property off the Bradford-Hicks bypass. They will exit the grounds by way of Bilbrey Street.

The target date for completion of the project is the fall of 2020.

Placed in the public file 4-13-, 2019.
This SECOND quarter, 2019 program material was carried on:
