## WLIV AM 920 & WLIV FM 104.7

Meth and other synthetic drugs continue to be a major problem in our area. To help rid our streets of drugs and keep them safely away from wildlife and out of the public water supply, local officials held a DRUG TAKE BACK DAY on Saturday, September 29, 2012.

WLIV – both AM and FM – provided extensive coverage and/or promotion of DRUG TAKE BACK DAY for several days in advance of the actual event.

WLIV AM & FM took pride in being part of this anti-drug effort in our town.

Placed in the public file on 3rd (day) of Oct.,  
2012.
