

PUBLIC FILE

WLIV AM 920 & WLIV FM 104.7

Both WLIV AM and WLIV FM participated in the local DRUG TAKE BACK DAY. Through our local news coverage and additional on-air public service announcements, the day was declared a "great success" by law enforcement involved in the event.

DRUG TAKE BACK DAY is specifically set aside for the public to have a day and a means to safely dispose of unwanted, unused, out of date and left over prescription medicines so as to keep them out of the hands of children who might innocently inject them and to also remove the chance they might fall into hands who would try to "sell" the medication "on the street".

The script for both the news story and the additional free messages that were broadcast by both WLIV AM & WLIV FM is attached/

Law enforcement officials say drug use and abuse is at an alarming rate in our area are we are glad to have an opportunity to help with this issue that is a public nuisance.

Exact air times can be verified by the AM & FM program logs.

Placed in the public file on FIRST (day) of Nov., 2017.
