## WLIV AM 920 & WLIV FM 104.7

Topic: Covid 19 (Corona virus)

Guest: John Dunn

Doctor John Dunn is epidemiologist for the State of Tennessee. He was interviewed by John Clark about Covid 19 (corona virus) in Tennessee and what listeners should know and expect.

The virus – as of this broadcast – had infected less than 100 of our fellow Tennesseans. However the state is taking drastic measures to make sure the spread of the virus is held to the absolute minimum that is unavoidable.

Dr. Clark, in his interview, told of exactly what Covid 19 is.....how is is a respiratory virus.....and what the symptoms to look for if you suspect you or someone has Covid 19.

Dr. Clark also went over the ways to protect yourself and ways to avoid being exposed to the virus.

Dr. Clark and his staff are working ahead to minimize the effect of the virus in Tennessee and to keep the number infected and the number of Covid 19-related deaths to the minimum.

In light of the serious nature of Covid 19, both WLIV AM and FM broadcast this information as part of our on-going public affairs programming in order to warn, inform, and reassure our clocal citizenry.

Placed in the public file March 17, 2020.
