WLIV AM 920 & WLIV FM 104.7

The Overton County executives office has announced that plans are underway for the construction of a new county services office building to be located between West Main Street and West Broad Street, approximately one block off the court house aqure and across Broad Street from the Community Center.

In addition to new and spacious offices for our country government, the new facility will also feature 75 parking spaces which can no only be used during office hours for the county services building but also can be used as additional parking for events held at the Community Center.

The facility will be more handicap-friendly, more economical to heat and cool, and more centrally located for public access.

WLIV AM & FM feaured an interview with Overton County Executive Ben Danner in which Mr. Danner talked at length of how the privately-funded facility came to be and how he sees it helping county government better serve the citizens.

Both WLIV AM & WLIV FM broadcast this information as part of our Focus On Community public affairs feature in order to make make citizens of our community aware of this planned new facility.

Placed in the public file Oct. 22, 2018.
