WLIV AM 920 & WLIV FM

The new Central Park, constructed on South Spring Street in Livingston, continues to prove itself to be a major step forward for Livingston and the surrounding county.

Regularly, events are held at the park which positively impact the lives of our citizens. From early spring to late fall and as long as weather conditions are favorable, people use and enjoy Central Park.

Our Focus On Community program recently featured an interview and discussion with Livingston Mayor Curtis Hayes about the park, its impact on our town, and future plans for the park.

Mayor Hayes appearance on our Focus On Community feature airs through the park-use season into late fall.

The Mayor also talked about the recently-finished new pedestrian cross walks in Livingston's downtown area around the town square.

WLIV AM and WLIV FM created this daily feature (Focus On Community) and regularly airs features of interest to the public/—our listening audience.

Placed in the public file September 13, 2018.
