WLIV AM 920 & WLIV FM 104.7

Trafficking and use of both illegal and prescription drugs and narcotics plague our community just as they pose serious public health and welfare issues in every city, county and state in the nation.

WLIV AM and FM have always worked in cooperation with law enforcement to educate the public on the dangers of having unused, out-dated prescription drugs in the cabinet where they are so easily available to other family members.

WLIV AM and FM – as an on going campaign – broadcast information to educate the public on the dangers of making drugs so easily had by someone for whom the prescription was not intended.

WLIV worked closely with police and sheriff's officials to promote the proper and safe disposal of such medications.

Through interviews with officers and our series of public affairs messages, we believe we have had a positive impact on this area of concern for those in charge in our community....and of concern to a great number of our local citizens.

For: the 3rd Quarter, 2015
